LONDON, 9.—The Queen of Spain is suffering from pulmonary disease, which is making alarming progress. The affection is similar to that which caused the death of King Alfonso.

LONDON, 10.—Prince Henry of Battemberg, husband of Princess Beatrice, and brother of Prince Alexander, late ruler of Bulgaria, has left Balmoral Castle for Darmstadt. He intends to bring Alexander to Balmoral.

St. Petersburg, 10.—The *Journal de St. Petersburg* says: Prince Alexander's proclamation of departure contains mention of alleged Russian assurances given to him. For reasons useless to discuss, Russia could not make any engagement with Alexander. In view, however, of the party struggle in Bulgaria and the agitation of the public mind, which his proclamation has caused, Russian agents in Bulgaria have been instructed to inform the Bulgarian people that Russia is disposed to exert her influence to establish party concord and restore quiet. Russia will not withhold her support from any legally constituted provisional government guided by non-partisan interests and conducted for the general welfare. Russia is willing to apply herself to the task of removing the dissensions from the painful consequences of which Bulgaria has already suffered too much. Russia hopes that the Bulgarian nation and her representatives will be able to appreciate these counsels and act accordingly.

PARIS, 10.—The *Univers* publishes a telegram from the Bishop of Tonquin saying that 700 Christians have been massacred and forty villages burned in the Province of Manhoa, and that 9,000 Christians are perishing of hunger.

The *Standard* prints an interview with a Russian representative at Philippopolis in which the latter stated that Prince Dolgorouk would arrive immediately at Sofia as an envoy of the Czar; that Russia would advocate amnesty and that the War Minister of Bulgaria would be a Russian.

Sofia, 10.—The military authorities have ordered the release of all who were arrested for taking part in the revolution.

The opposition in the Sobranie intend to protest against the Regency, on the ground that it was illegally appointed. Russia offered to guarantee a Bulgarian loan of 10,000,000 roubles.

Darmstadt, 10.—Prince Alexander has arrived here. He was received by the Secretary of the English Legation and the Burgomaster, and at once proceeded to Jugenheim, his father's residence.

LONDON, 11.—The cabinet meeting this afternoon sat for an hour and a half. The subjects under consideration were the Bulgarian question and Parnell's land bill.

CONSTANTINOPLE, 11.—S. S. Cox, United States Minister to Turkey, is about starting for home on furlough, owing to ill health. Heap, Secretary of the American Legation, will conduct the affairs of the office during Cox's absence. Heap will continue negotiations for the new tariff treaty between the United States and Turkey. More Armenians are going to the United States to be naturalized. The United States Government has not replied to the protests of those Armenians whose American citizenship Turkey refuses to recognize.

BERLIN, 11.—Count Herbert Bismarck, who is in delicate health, will go to Torquay, where he will reside for several weeks, returning to Berlin about the end of October.

Emperor William and Empress Augusta were present to-day at the grand parade at Strasburg of the 15th army corps. They were heartily cheered along the route to and from the parade grounds. The French populace do not take part in the fetes. Emperor William will leave Strasburg on the 10th inst. He will go to Metz, where reviews of the troops and other festivities are to be held, and then return to celebrate the seventy-fifth anniversary of the birth of the Empress Augusta, which occurs on the 30th inst.

The Empress of Austria, accompanied by Archduchess Valonie, has visited Charlotte Walter, the tragedienne of the Burg Theatre, at her summer residence in Weissenbach on Attersee.

CONSTANTINOPLE, 11.—S. S. Cox, United States Minister to Turkey, is about starting for home on a furlough, owing to ill health. Heap, Secretary of the American Legation, will conduct the affairs of the office during Cox's absence. Heap will continue negotiations for the new tariff treaty between the United States and Turkey.

More Armenians are going to the United States to be naturalized. The United States Government has not replied to the protests of those Armenians whose American citizenship Turkey refuses to recognize.

MALTA, 11.—A grand *Te Deum* will be sung in all the churches of Malta tomorrow in gratitude for the preservation of the island from the recent earthquake.

LONDON, 13.—Elaborate precautions were taken to protect the Czar during his journey to Poland to witness the army maneuvers. Soldiers armed with loaded rifles lined the railway. The train was divided in three sections, and when passing stations the windows were closed and blinds drawn in order to prevent the discovery of the carriage occupied by the Czar. After the maneuvers the Czar will go to Spala,

Poland, when similar precautions will be taken for his protection. Fifty thousand soldiers are being utilized for this service.

LONDON, 13.—The Sculling match between Geo. W. Lee, of New Jersey, and Neil Matterson, the Australian oarsman, took place to-day on the Thames, Championship course, and was won by Lee.

The wind was light and the tide fast, only a few spectators witnessed the race. The betting before the start was seven to four in favor of Matterson. They got away on even terms each rowing forty strokes to the minute. Matterson gradually crept ahead and led by half a length at the creek. Lee, however, increased his exertions and drew on a level with his opponent. At Craven Cottage steps, and when Wadden's was reached Lee had a lead of one length. A desperate struggle followed, both men still rowing forty strokes to the minute. Matterson was again even with Lee at Crabtree and led by half a length at Hammersmith. Lee then spurred again and regained the lead when Matterson stopped totally exhausted. His time to Hammersmith was 8 minutes and 42 seconds, or 10 seconds better than the best previous record.

LONDON, 13.—It is remarked that although the Emperor Francis Joseph, is at Prezemysl in Galicia and the Czar at Brest Litovick in Poland, not more than 250 kilometres apart, neither has given any sign of a desire or intention of meeting the other. In fact, neither has sent the other greetings, even by deputy. The *Neue Freie Presse* of Vienna complains of the Czar's breach of courtesy towards Austria. It says it is notorious that Russian military manoeuvres are taking place at the precise corner of the Russian dominions which would be the principal theatre of war in the event of a Russian conflict with Austria. Francis Joseph is at the same time reviewing an equal number of Austrian troops, the total being over 60,000 men, at a point which would naturally be chosen as the Austrian basis of operations in the same event. "Thus we see," says the *Neue Freie Presse*, "two rival camps and two rival courts almost within sight of each other."

DOVER, 13.—The yacht *Volia*, propelled by electricity, started hence across the channel to Calais on her trial trip to-day. When last seen she was six miles out and was doing well. The *Volia* reached Calais in 3 hours and 51 minutes from the time of her starting from Dover.

CHILDREN AND FEVER. 2. Malaria.

"Many cases of fever and ague, dumb ague and congestive chills were promptly arrested and entirely banished by the use of Simmons' Liver Regulator. You don't say half enough in regard to the efficacy of this valuable medicine in cases of ague, intermittent fevers, etc. Every case has been arrested immediately. I was a sufferer for years with the liver disease, and only found relief by using the Regulator."—Robert J. Weeks, Batavia, Kane Co., Ill.
