araday.

I take this opportunity to write to you to let you know how the work of the Lord is progressing in this place, as it may be interesting to some of your readers. There is at present 12 families of Apache In-dians in this valley who have come here to learn to farm. They also want their children to go to school and have them learn to read and write as our children do. There

There is also a small library of church works and music books. The 2nd day of May the school spent in jollifications. At 8 o'clock a.m., the children gathered to the school-house, which had been beautifully decorated with paper hangings and pictures by a decorating committee. School called to order by the mar-shal of the day. James Metcalf, write as our children do. These Indians are very friendly to us, and are more anxious to learn than any tribe of Indians we have ever become acquaiated with. They are very intelligent and seem to under-stand everything very soon. When these Indians first came into this place, they found the land all taken

place, they found the land all taken up by the brethren, and very few of the brethren were willing to divide with them, so we were at a loss what to do. Bisbop Mann deem-ing if advisable went and had a conversation with Brother Jesse smith, he being president of this Stake of Zion. He scounseled the brethren to give up the land to the Indians and seek new homes for themselves in some other locality. As soon as this was stranged, Bishop Mann and myself, accom-panied by Brother Jesse of the chair entitled. "Swing-ing 'neath the old apple tree." The children then formed a procession Bishop Mann and myself, accom-panied by Bro. Llewellyn Harris, about a child, the Shiels people hid-ing in wagons. They gathered flowers and returned to the school-Indians of the decision that we were going to leave the valley for sorry for this, he said he did not want us all to leave them, he would like to have me and Brother Mann Bro.Liewelly Harris and one or two to stay with them and to teach them to farm. We promised

or two to stay with them and to teach them to farm. We promised him that we would not go more than five or six miles from here, and that we would visit him often, and we would plow and help them

the school. The next on the programme was to eat their picnic, which had been properly spread on tables by a com-mittee of picnics. After all had eaten to their heart's content the tables were taken out and the children moved their nimble little feet to the lively music of the atring band. In the evening the gallant youths and modest maidens danced till between the hours of eleven and plant some corn, but as we thought that this valley was on the reserva-tion, we did not think we could stay here at present, but we hoped things would work around so that

things would work around so that we could come and live in the val-ley again. The chief said he would like to have Bishop Mann and Bro. Llewellyn Harris and myself live and die in this valley and be friends between the hours of eleven and twelve. THADDEUS.

and die in this valley and be triends as long as we lived, and when we and himself got very old and died, he would like we should be burled side by side in this valley. He also said that he would teach his people THE YALE ARTIFICIAL LEG and himself got very old and died, he would like we should be burled side by side in this valley. He also said that he would teach his people not to steal from us. He said he hoped that our people and his peo-ple would always be friends. Those indians are very destitute of cloth-ing. Some of the Female Relief Societies would do a good deal of good if they should send a few shirts and pants and dresses for those poor Indians, as many of their little children are nearly naked. The brethren are leaving this val-
