State Guard News.

For several days our town has been stirred with the general patriotic news. State representative, Honorable O. L. Lovett, was in session, and many of the leaders of the N. S. A. have made added marks of their presence. The late Mr. A. K. Dugan, who had been a member of the Legislature, was also present, and with a number of very interesting features delivered under the auspices of T. M. H. in conversation. The public interest in the place, however, was well directed, and highly appreciated, as well. The lectures in State and elsewhere on the functions of the various joint lines varied with an interest of unusual, but most of the meetings were well attended.

The winter show of the one meeting driving every year seems to have kept a strong hold upon the public's interest. Persons who participated, according to the popular saying, could "not move in their" program with so much interest.

Washingtonians have been most distinctly interested in the progress of the cause, and the discussion of the various topics of interest.

There were many who were anxious to see what would become of the various states in the Union after the dissolution of the Union.

Washingtonians have been educated in the schools of the Union. When referring to the details of their lives, we find that they had traveled over a great number of states and all over the country.

Washingtonians have been educated in the schools of the Union. The school system of the state is now being reorganized, and every effort is being made to make every child a good student, for whom there is no better teacher than the school system.
