AMUSEMENTS.

The engagement of the Savage Opera company in Salt Lake wound up in notable fashion with two performsnces yesterday afternoon and evening. These closing presentations had been awaited with much interest and some anxiety on the part of both the local management and the Savage representatives. Not so much because the sue meant a profit or loss on the Salt Lake season, but as determining whether the patronage extended grand opera in this city would justify future visits. It is most pleasant to be able to report that the box office record of the intire engagement was such as to place it outside the realm of experiment, and to render future visits and perhaps more prolonged ones, in all ways probable.

At the matinee the turnout was only fair below, but in the upper galleries the jam reached the suffocation point. At night the audience was almost as big, brilliant, and demonstrative as on the opening performance. The total receipts of the four will go between 5,000 and \$6,000, a most satisfactory esult. esult. As to the artistic side of the presen-

As to the artistic side of the presen-ations it can be said that the perform-mces were generally up to the high fandard laid down both in "Lohen-rin" and "Carmen." "Tannhauser," n the afternoon, was beautifully ren-iered, though in strict justice it must a said that Mr. Wegener in the title

# **BUSINESS NOTES.**

The official call for the special meetings of the stockholders of the Idaho Sugar companyand the Fremont County Sugar company appears in this issue of the "News." The meetings are called for May 2, and are for the purpose of considering the consolidation of the two companies, resolutions in favor of which were adopted by both boards of directors sometime ago. As the boards were unanimous in their action it is practically settled that the consolida-tion will take place. The propositions to be submitted to the stockholders are that the two companies shall be emthat the two companies shall be embraced in one new corporation to be known as "The Idaho Sugar company," with a capital of \$3,000,000. The paid up capital of the two present institutions is \$1,000 000 each, so that the present stockholders will receive share for share in the new company. The other \$1,000,-000 in stock will be held in the treasury for future needs, and will be sold at par from time to time to the stock-holders as the money is needed for improvements. The main improvement contemplated in the usar future is the installation of the Steffens process at one of the Idaho factories, a patented process which has been adopted by some of the leading sugar factories of the world, and which enables the com-pany to extract a much greater amount of sugar from the beets. The same ass is to be installed this year at

#### Old Lady Goes Into Hysterics Over a Telegraphic Cong atulation.

An old lady living on west Fifth South street received a telegraphic congratulation yesterday afternoon, from a relative, on ther reaching her 75th birthday. The lady had never received a telegraphic dispatch before, and this most unusual method of proceedure so upset her that for the time being she did not know whether she was "afoot or on horseback." in fact she went into hysterics, and not knowing what to do next, seized her tele-phone and commenced to shout through what to do hext, seized her tele-phone and commenced to shout through the transmitter. "Central" could not make anything out of her rambling talk, so called on the chief operator, Miss Ethel Back. Now Miss Back is generally equal to any emergency whether in Russian, Weish or Portuguese or Sansckrift; but in this case, she was surely "up against it," and finally threw up both hands and called in despair on Col. Harris, the manager. Now the colonel is 'way up in Coptic, Arabic, Aremaic, Chaldale and Semitic, but he had to finally own up to being beat clean out. However, an idea struck him (something very unusual, by the way), and he called up

## CENTENNIAL NOTES.

Work upon the construction of the Cal-ifornia building at the Lewis and Clark exposition has commenced,

Nearly 8,000 people passed through the turnstiles of the Lewis and Clark exposi-tion Sunday, Feb. 25. San Francisco day has been selected for the second week in June. A monster excursion is being arranged by the Cali-fornia promotion committee, to be run from the California metropolis and way points. from t points.

The "trail." at the Lewis and Clark exposition will have to be enlarged. In s-much as several large concessions will require considerably more space than the present width of the amusement street will permit.

M. D. Wisdom has been apprinted su-perintendent of livestock at the Lewis and Clark exposition and is at present entering upon his duties. He will corres-pond with exhibitors with a view of sus-taining interest in the livest ek compel-tion to be given in connection with the centennial.

Homer Davepnort, the distinguished cartoonist, will have a reproduction of his Morris Plains (N.J.), farm of the "trail" at the Lewis and Clark "exposi-tion, where he will exhibit a choice cel-lection of fine phearants.

The government hulldings at the Lewis and Clark exposition are 75 per cent c m-pleted. Three full months remain before the exposition opens, June L.

Construction upon the American Inn, at the Lewis and Clark expedition, has ad-vanced to a gradifying extent. The structure will be completed at least a month before the exposition opens.

F. A. Miller, general presenger egent of the Chicago. Milwaukee and St. Paul rallway, while tourning the grounds of the Lewis and Clark exposition this week, said, in speaking of the weather: "If we could only hank a few of these days and draw them when we return home, I would be satisfied."

#### SUNFLOWER PHILOSOPHY.

Atchison, Kan., Globe: A little girl likes to take care of a baby; but it's different with a boy.

How often you hear the expression: "He thinks no one has any rights but himself."

Artificial flowers would look nice enough if people would dust them occassionally. What has become of the old-fashioned woamn who put lambrequins up at the windows?

It is something to be very proud of it one has been so sick they had to have the doorbell muffled.

We have positive proof that a certain boy is the smartest boy of his age in the world: his mother told us so.

The average woman dreams of the fairy prince who is some day coming to her, till she gets so old he assumes the form of a death angel instead,

The trouble is the average member of the legislature imagines that his interests are the interests of the people.

If we were a woman we would say in our prayer tonight: "O. Lord, keep us from chowing guin on the street. And thine be the glory, forever and ever, Amen"

WON'T STAY LATE. There are a number of seantors who do not think there is any necessity for the senate to remain in session very

late, and it is noticed that their names are missed at roll calls. They think that the senate should do its work in five hours, and if it prefers to listen to long winded speeches instead of acting promptly upon matters which come be-fore it which necessitate late working hours is must get along without them.
