

## LOCAL AND OTHER MATTERS.

FROM FRIDAY'S DAILY, MARCH 17.

**Ill.**—We regret to learn that Bishop Samuel A. Wooley, of the 9th Ward, has been laid up quite sick for over ten days. The trouble is general debility, caused by too close application to work.

**Progressing.**—The man who was injured by an explosion on the Spanish Fork Railroad is progressing favorably. He is now at the Sisters' Hospital in this city. He is a resident of Levan, Juab County. His name is W. Pettit.

**Wedded.**—Yesterday, A. H. Caine, son of Hon. John T. Caine, and Miss Maggie Mitchell, daughter of F. A. Mitchell, Esq., were united in marriage. They are an intelligent and interesting couple. We congratulate, and extend our best wishes.

**Again Troublesome.**—We regret that Judge Pyper is again suffering considerable pain in the same part of his face upon which an operation was performed a short time ago. Since then a tumorous substance has re-formed, and will probably have to be removed by the same process.

**From the South.**—Bishop A. A. Kimball and Brother Watts, of Kanosh, Millard Co., are in town. When they left home, a week ago, the people were preparing to put in their spring grain. If the present storm stretches down that way that proceeding will be delayed.

**Another Alleged Burglar.**—The following special to the NEWS, from Kaysville, was received this afternoon:

"A person giving the name of Emerson was arrested here last night, and taken before U. S. Commissioner Pearson, charged with complicity in the recent burglary here. The hearing has been set for next Monday at the Court House in Farmington.

**The Great Basin Mining Case.**—This celebrated case was ended, at least for the present, in the Third District Court this afternoon. The jury, after being in their room a short time, finding a verdict for the plaintiff, Mr. James Osgood. The case has occupied the court ever since Monday morning, and has been most ably argued by counsel on either side. The suit was brought by Mr. Osgood to recover possession of a one-fourth interest in what is known as the Great Basin Lode, in Stockton, Tooele Co., now held by Gen. P. E. Connor.

**A Young Runaway.**—Many of our citizens have observed the blind organist who regales passing pedestrians with musical strains on the streets. He has been blind for twelve years and came here from Detroit, Michigan, but is a native of Germany.

He called in this morning and informed us that his boy, Charles Albert Miller, who came to Utah with him, ran away from him three months ago, and he has received no tidings of him since, further than that he was seen leaving town with a man on a wagon.

The lad is eleven years old, short and stout, has light hair and blue eyes. His mother, who is now in Detroit, is very ill and would like to hear some tidings of him. Any person sending information concerning the boy to Mr. Paul A. Schettler, of this City, will confer a favor on all parties concerned.

**Missionary Changes.**—The following is from the *Millennial Star* of February 27th:

Charles F. Wilcox is released from being Traveling Elder in the London Conference, and is appointed Traveling Elder in the Sheffield Conference.

William H. King is released from being Traveling Elder in the Nottingham Conference, and is appointed Traveling Elder in the London Conference. Elders Wilcox and King are expected to proceed to their new fields as soon as practicable.

John Q. Cannon is released from being Traveling Elder in the London Conference, and is appointed Traveling Elder in the Swiss and German Mission, to labor with his brother Abram H. Cannon in Northern Germany, so long as President Alder may deem that course the best. Elder Cannon will leave to join his brother at such time as he and President John Cooper may conclude to be fittest.

**Ministry in England.**—Elder W. D. Williams, laboring in the Sheffield Conference, writes to the *Millennial Star*, February 11th:

Baptisms still continue at long intervals in different parts of the Conference. In my course of travel I have baptized seven. A short time ago it was expected 10 more would be added, and with this anticipation President Wm. Cooper and myself walked 10 miles to administer the ordinance of baptism, but the Evil One, as might be supposed, had learned the intended move, and influenced them against their own salvation.

Elder W. N. Apperley, in the London Conference, wrote from Hemel Hempstead, February 16th:

Brother Fowler, of Parowan, has been laboring in this district about three months. His kind words of encouragement are endearing him to the hearts of the Saints. Since he has been here we have baptized 20, which makes eight since I last reported.

**The Ogden Shooting.**—The details, as published by the NEWS, of the capture of the supposed burglar at Ogden on Wednesday evening are stated by parties who were there when the occurrence took place, to be correct, with the exception that the baggage called for was at the Union Pacific side, Mr. St. Clair being agent for that company, and not the Central Pacific.

Speaking of the prisoner, the *Ogden Herald* says:

"He gave his name as F. S. Tremaine, but he had received letters in the name of Geo. Cole. He says when at home he lives at Baker City, Oregon. He left there about a year ago, since which time he has been in Idaho, Arizona, etc. He is of dark complexion, 29 years old, and stands about five feet eight inches high and is a 'hard-looking' citizen. He is now in the city jail awaiting an examination. He told our reporter that the valise did not belong to him, that he was getting it for another person. He said he had done nothing wrong and appeared quite unconcerned about his arrest and incarceration."

**Grafting Fruit Trees.**—The following seasonable article appears in "Our Deseret Home," No. 3, of which we have just received:

"The best implements to be used are, a thin backed saw for cutting branches too large for the shears or knife. It should be filed sharp, and set wide for cutting green wood without binding, then a pruning knife and shears for removing small branches. A small wood-mallet for striking the back of the pruning knife in cleft-grafting; also a small wooden wedge to introduce into the opening while the graft is placed in the slit.

It is of the first importance to have the barks come in contact with each other, so that the sap may flow properly. The scions should be thoroughly secured in their places until firmly grown in their settings.

One very good grafting wax is as follows: Black pitch 7 lbs., Burgundy pitch 7 lbs., Yellow ochre 3½ lbs., beeswax 4 lbs., grease 3½ lbs. This composition should be sufficiently warm to be liquid when used, but not hot enough to injure the tissue of the tree. A small brush is used to spread it with.

The proper time for grafting is before the leaves begin to unfold. Grafts can be saved from the trimmings of fine trees and preserved by burying them until wanted."

**Returned Missionary.**—This morning we received a call from Elder Wm. Beesley, of Provo, who returned last night from a mission to the Southern States. He left here on the 12th of last July, and proceeded to Tennessee, but had been there but a short time when he was taken ill with chills and fever, from which he suffered more or less during the whole time of his absence. He kept on laboring in the ministry, however, to the best of his ability till November. He and his fellow missionaries met with much opposition occasionally. On several occasions, houses where they lodged were surrounded by masked men, whom however, they succeeded in evading. At one place when on the way to fill an appointment for meeting, they learned that a number of men were in the schoolhouse armed with pistols in waiting for them. Not considering it necessary to expose themselves to danger they did not go to the meeting.

Latterly Elder Beesley has been visiting relations and friends in Indiana and Pennsylvania, where he had an opportunity of explaining the principles of the gospel to numbers of people. He regretted that the

condition of his health necessitated his release thus early.

FROM SATURDAY'S DAILY, MARCH 18.

**An Unlikely Rumor.**—A report reached Kanab, a few days ago, that seven of the brethren who had been at work on the railroad in Arizona, had been shot. The rumor has not been authenticated and is in all likelihood untrue.

**Unauthenticated Rumor.**—A rumor has been current upon the street since last night to the effect that the Edmund's Bill had been returned to the Congressional Senate for amendment. We waited to trace the report to any source tending to establish its authenticity.

**Accident.**—The *Enquirer* says that on Saturday last a young man named Page (son of Hon. J. S. Page), of Payson, met with a very severe accident in Nebo canyon while cutting timber. He was in the act of felling a tree when a large dead limb broke off from the top and fell across the young man's left arm, which was broken between the wrist and elbow. The young man accompanied by his father went to Provo, and placed him under the treatment of Dr. Pike.

**Phenomenal.**—There were a couple of peculiar phenomena in Box Elder County recently. On Thursday, during the prevalence of a snow storm at Deweyville, there was, combined with it, a shower of yellowish mud, which bespattered the clothing of persons exposed to it.

Some time previous, at a point several miles north of Brigham City, there was a shower of salt. The clothing of a number of men who were in the locality at the time was covered with the saline particles.

**Fire.**—The fire alarm was rung about eleven o'clock last night. Flames had broken out in the sitting room of Dr. Harry Bagg's residence. The brigade responded promptly, but the fire was extinguished in its incipency, the damage amounting to about a hundred dollars.

The cause of the fire was the falling of burning soot down the chimney, with which a stovepipe connected, and igniting a fire-board which covered the fireplace. From that point the flames spread around the room. Fortunately there was a dog in the apartment which became alarmed at the smoke and made a row, which apprised the inmates of the house that something was wrong. Had it not been for this circumstance the flames would probably have gained such headway before being discovered as to render extinguishment difficult if not impossible before the place burned down.

**Another Suspected Burglar Caught.**—A few days ago the police of this city telegraphed to Sheriff Brown, of Ogden, to look out for a man named Johnson, who had stolen a coat from a ballroom in this city, on the occasion of one of Prof. She don's parties. Last night Mr. Brown telegraphed to the police here that he had found his man and that he had him in custody. This same Johnson proves to be no other than the person mentioned in yesterday's NEWS, who went up to Ogden with the California excursion party, and who applied to Mr. Snell for a ticket for a friend, the latter supposed to be the alleged burglar caught on Wednesday evening.

Officer W. Calder will bring Johnson down to-day, to stand his trial for the coat stealing transaction, and it is hoped, in the meantime, that circumstances may develop so as to show his connection with the recent burglaries, if he is really a confederate of Tremaine.

FROM MONDAY'S DAILY MARCH 20.

**Progress.**—The Bear Lake Democrat will shortly doff its patent cut-sides, and make its matter of home make or home selection. Good.

**Death of Mrs. Emily Smoot.**—By dispatch to Brother George Crismon, we learn that Mrs. Emily Smoot, wife of President A. O. Smoot, of Provo, died at that place at 10 a.m. to-day. The funeral will take place at 2 p.m. on Wednesday.

**Fatal Snowslide.**—The dispatches give an account of an extensive snowslide at Genoa, Nevada. Mr. and Mrs. Nimrod Bowen, Miss Berlin, and a number of Indians, variously estimated as between seven and fifteen, lost their lives. At last

advice, several of the bodies had not yet been recovered.

**Musical.**—Mr. Evan Stevens, of Brigham City, a young gentleman who has gained considerable local prestige as a musician, for which he has an excellent natural talent, is in the city for the purpose of going through a thorough course of instrumental studies. While he remains he will associate with the Tabernacle choir at rehearsals and public exercises.

**Association Reports.**—The officers of the Y. M. M. I. Association of the Salt Lake Stake are requested to make up their reports for the year ending March 31, 1882, and return them immediately to Joseph H. Felt, at Z. C. M. I.

Special notice should be given to report all scripture reading, whether done in the association or any other place.

**From the North.**—President Budge, of Bear Lake Stake, reached the city yesterday. As appears to be the case throughout this entire region, the season is very late in Bear Lake Valley. Snow is ten inches deep in the vicinity of Paris, and is still deeper farther north. Fifty miles of the journey to Evanston has to be done by sleigh and the balance by wagon. The weather is excessively cold in that section.

President Budge left for home this afternoon.

**Shooting Affair.**—A Denver dispatch says that information has reached there of a shooting affray at Caraco, Colorado, resulting in the killing of one Mexican and the dangerously wounding of another, by F. H. Mowbray, an employe of the Denver and Rio Grande Railway. Mowbray owed the Mexican four dollars and offered to pay, but the latter claimed eight dollars. A dispute resulted in the Mexican beating Mowbray, who shot in self-defense. The high position of the Mexican has created bitter feeling among this element, who were about to lynch Mowbray. He was taken to Chama jail for safety, from whence he has escaped.

**Suspected Burglars.**—The party who thought the overcoat that was stolen by the man Johnson, who is suspected of having been connected with the late burglaries, delivered the article at the City Hall this morning. He paid \$6 for it. Johnson is now in the city jail, having been brought down from Ogden to answer to the coat-stealing charge.

A man named Wilcox, who was in the city jail for stealing a portion of a fish from the front of Durst & Trimble's store some time since, is also under arrest on suspicion of having been connected with the burglary business. His apprehension is based on certain circumstances which have transpired between him and Johnson, of whom he is an associate.

**Bee Keepers' Convention.**—We are requested to publish the following:

"A convention of the bee keepers of Utah will be held in this city 6th of April, 7 p.m., 1882, in the Council House. All organized conventions and all leading bee keepers who cannot be present will please report, by letter, the present condition and number of swarms, with their losses during the past six months, and if any foul brood exists in their various counties. We should be very pleased to hear from our Utah Dixie bee keepers the general manner of wintering, etc. Address Edward Stevenson, P. O. Box 346.

A. M. MUSSER,  
President,  
EDWARD STEVENSON,  
Secretary."

## TROUBLE AT THE GERMANIA.

A BAND OF STRIKERS THREATEN VIOLENCE AGAINST REMAINING EMPLOYEES.

There is trouble at the Germania smelting and refining works a few miles south of this city. A large number of the hands struck work for a reduction of time, a few days since. A portion of the workmen refused to take similar action, and the strikers have been threatening violence against those who refused to join with them, and to prevent them going to work. Matters assumed such a serious shape this morning that the superintendent, Major Hill, came up to the city, when wrists were obtained for the apprehension of the leading belligerents. Three

officers of this city. Wm. G. Phillips, Andrew Smith and Helen Pratt—accompanied Major Hill the works this morning, for the purpose of preventing a breach of peace and making whatever arrangements might be necessary.

The strike, although it only affects a portion of the employes, causes the works to be at a standstill, the strikers having threatened to pelt the others with slag when they begin work to-day.

While there is nothing in the way of this country to prevent men striking for any cause they deem proper, they have no right to compel others to do the same, and where workmen such an arbitrary and tyrannical course, they should be promptly and vigorously dealt with. We hope trouble will blow over without serious injury to anybody.

Later.—Since the above was written the posse which went to Germania has returned. By the city officers named it was composed of deputy Marshal A. Pratt, who had charge of it, Mr. A. Back, Mr. C. Crow and another officer.

When the posse reached the works about 150 men were on the job, but no actual disturbance had occurred. Two men named respectively Jones and Stout, appeared to be the ringleaders in making alleged threats against parties who were willing to go to work, and were arrested and brought to city.

When the arrests were made men informed Major Hill that they were released they would go to work on the old terms. A superintendent would not, however, consent to this arrangement present.

It appears that the strikers placed yesterday, and was for a reduction of time from 12 hour shifts without any diminution of pay. When the men left the mill was left in the crucible necessitating its being cut out with chisels. Major Hill says that will cost at least \$5,000 to place works in the condition they were before the strike, showing what great mischief can be wrought in an affair of this kind in a very short time.

The superintendent informed men to-day that he could not entertain their demand for so sweeping reduction of hours, but if they make a request simply for an additional pay, he would give it favorable consideration.

The present prospect favors amicable settlement of the difficulty, and a return, within a few hours, of all the striking employees to work.

## NOTICE.

The Stake Superintendents of Y. M. M. I. A. will please take notice that full and complete statistical reports of their associations required for the General Conference should be sent in time to reach this city before April 4th. If any men lack blanks, they may be procured at the Contributor office. Superintendents are requested to be energetic in making up their reports, and are invited to attend young men's meeting, to be held during conference, the date to hereafter named.

W. WOODRUFF,  
General Superintendent

## Hale's Honey of Horehound Tar.

For the cure of Coughs, Colds, Influenza, Hoarseness, Difficult Breathing, and a Laffection of the Throat, Bronchial Tubes and Lungs lead to Consumption. This infallible remedy is composed of the Honey of the plant HOREHOUND, in chemical union with TAR BALM, extracted from the Life Principle of forest tree Abies Balsamea, or Balsam of Gilead. The HONEY OF HOREHOUND soothes and scatters all irritations and inflammations, and the TAR BALM cleanses and heals the Throat and air passages leading to the Lungs. Five additional ingredients keep the organs moist and in healthful action. No prejudice keep you from trying this great medicine of a famous doctor, who has saved thousands of lives by it in his large private practice.

N. B.—The TAR BALM has no taste or smell. Price 50c. and \$1.00 bottle. For sale by all druggists. PIKE'S TOOTHACHE DROPS cure in one minute. dead.
