

Bishops, and those who counseled against everything that was advanced by them should not be listened to. Gave a few items of instruction to Orderville. Said those who shade the sins and wickedness of others, were partakers of that sin and wickedness. Every good man and woman of the Latter-day Saints is in duty bound to bring to justice those that they know commit any crime, that they may be dealt with. Singing by the Glendale choir, benediction by Elder Richard Robinson.

home to-day. Our conference will commence on Saturday next at 10 a.m. On Monday, we elected R. Bentley, A. R. Whitehead and Thomas Judd school trustees. These gentlemen seem to enjoy the confidence of the people, and are well qualified for the duties resting upon them. Loads of lucern hay of this year's cutting are seen in our streets. This is encouraging, as hay has been very dear and very scarce. Very little building or improving is going on at present.

AMRAM.

Afternoon, 6th.

Singing, prayer, etc., after which President Snow made a few consolatory remarks, and excused himself from remaining, wishing to get home to have rest before the St. George Stake conference. Bishop Johnson read the statistical report and presented the authorities of the Church and Stake, which were unanimously sustained. Conference adjourned, to meet at Kanab on the first Saturday in September. Singing. Benediction by Patriarch Elijah R. Billingsley. J. W. McALLISTER, Clerk of Conference.

Editors Deseret News:

A few evenings ago the 1st Ward Sunday School of this city gave an entertainment in the Social Hall, which was a very creditable affair, and reflected credit on Superintendent Horatio Pickett. The singing by the small girls was very good, and some of the pupils gave promise of future excellence in reciting.

The St. George Builder's Union held their annual meeting on Saturday the 6th, at 2 p. m., and declared a dividend on the year's labor of 12 per cent. on capital and 12 per cent. on labor. In the evening they gave a party in the hall, in which they and their friends spent a few very pleasant hours.

Yesterday, in company with Assistant - Superintendent A. R. Whitehead, visited the Washington Sunday School and was much pleased with the interest manifested. This school is constantly increasing under the direction of Superintendent John E. Pace, who is well sustained by the influence of Bishop Jones, who has charge of an advanced class. We notice that wherever the Bishop takes a lively interest in Sunday Schools they are always prosperous.

The prospect for small grain in Dixie is very poor in consequence of the peculiar extremes of weather and the heavy winds we have had. There has been more wind this year, than we have ever witnessed here before.

Our day school is in a prosperous condition. Prof. Schophman seems to give good satisfaction. His assistants, Mrs. Cox and Romney, are able assistants, and they all strive to do their duty to the youth attending school.

The pious (?) Rev. McMillan, of Sanpete notoriety, called here Saturday and left a glossy youth to regenerate us Dixieites. It is to be hoped the dry weather wont melt him. Don't think he will make many converts.

Editors Deseret News:

We have had the most changeable weather here of late ever known in Dixie; sometimes exceedingly warm and then quite cool again. The harvest of small grain is said to be light in consequence of frost last winter and heavy winds of this summer and spring.

A few days ago I called at Mrs. Ann Cannon Woodbury's, and was surprised to see thousands of silkworms busy spinning their cocoons. This lady deserves credit for her perseverance and enterprise in raising silk and taking care of bees. There are many people in this world who quietly produce from the elements the things we need, who never are heard of figuring prominently before the public; and this estimable lady belongs to this class. "Let us give honor to whom honor is due."

Last night our citizens were out in force to see the panorama of "The Pyramids of Egypt," which gave great satisfaction. They repeat tonight.

Catarrhal POISON

Wei DeMeyer's Treatise on Catarrh, explains the following important facts:

1. That Catarrhal Colds become a poisonous infection, at first local, and finally constitutional.
2. That, being Constitutional, the infection is beyond the reach of mere local remedies.
3. That impurities in the nostrils, are necessarily swallowed into the stomach and inhaled into the lungs, thus poisoning the Digestive, Respiratory and Genito-urinary organs.
4. That Catarrhal virus follows the mucous membrane and causes Deafness, Dyspepsia, Chronic Diarrhoea, Bronchitis, Leucorrhoea, and Consumption.
5. That Smokes, Douches, Inhalations, and Insoluble Snuffs, cannot possibly remove infectious inflammation from the organs named.
6. That an antidote for Catarrh must possess an inoculative affinity for, and the quality of being absorbed by, the purulent mucous wherever located.

Based upon these plain theories Dr. Wei De Meyer's Catarrh Cure has proved to be infallible. It not only relieves, but cures Catarrh at any stage. Home testimony.
