

MINING, BUSINESS AND STOCKS.

VALEO WAS IN GOOD DEMAND. THE DEXTER CO.

The Stock Advanced to 37 1/2, but Closed a Little Weaker. The Net Profit for the Year is Shown to be \$41,189.57.

ACTIVITY IN THE EMERALD REPORT FROM PARK VALLEY

West Mountain Placer Sells—Joe Bowers Closes Strong—Mammoth was Weaker Today.

TODAY'S METALS:

SILVER 61 1/2
LEAD \$4.00
CASTING COPPER 15 1/2

This week on the exchange opened today with the sale of 10,000 shares of stock for \$33.25. Daily-West was active at \$16.36 to \$16.50, but outside of that stock no trading was done in the higher priced stocks.

Valeo was traded in extensively, but failed to maintain the price of the first two sales. After selling up to 37 1/2 it fell off to 36.

Emerald was in demand at better prices. From 5 cents per share, the price of the first sale, the stock advanced to 5 1/2 with the sale of 4,000 shares.

Lower Mammoth brought 50, while Eagle and Blue Bell released 400 at 80.

Golden Eagle was traded in at 1. Joe Bowers let go 1,000 at 4 1/2, and immediately released another 1,000 shares at 5 1/2. West Mountain Placer participated at 5 1/2 and Yankee Con. at 9.

Mammoth was inactive but the stock dropped to \$2.00 bid and \$2.11 asked, owing to news that the mill will be closed down.

South Swansea was weaker today, but South Swansea shows a little more strength.

For Baby's Sake
as well as her own, the mother should use MALT-NUTRINE, the helpful food drink to promote appetite, restore health, build body and brain. Made by Heubusch-Busch Brewing Ass'n, St. Louis, U. S. A. For sale by all druggists.

For Over Fifty Years
Mrs. Wessling's SOUTHERN SYRUP has been used for children teething. It soothes the child, eases the colic, cures all pain, cures whooping cough, and is the best remedy for Diarrhea. 25 cents a bottle.

AN ARTICLE OF VALUE

For the Busy Housewife.

It is economy for a lady to use this Calculating Pencil. Not a week passes during which she would not save money by avoiding mistakes. It is true the amount lost through wrong change are not large. But they amount to a goodly sum during the year. They are much more frequent than you would think. Here is what happened to a lady in a department store. She bought seven yards of goods at 15 cents, and nine yards at 15 cents. The clerk charged her \$1.15 and \$1.71. The lady checked off her bill with her Calculating Pencil and found that seven yards at 15 cents is \$1.05 instead of \$1.15, thereby saving 10 cents. The clerk, who did not intend to cheat, bought a pencil so as to avoid future mistakes. Ladies can buy this instructive educational device at the "News" office, or any of its agencies, for 25 cents.

BANK STATIONERY

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

liveer Crescent lease was sent down to the city this week.

ORE SHIPMENT.

Following are the shipments of ore from the Mackintosh sampler for the past week:

Silver King	979,000
Daily-West	1,013,000
Anchorage	309,000
Ontario	27,300
Loring Brothers	14,000

Total number of pounds, 2,333,600

DECLINE IN LEAD.

The Selling Price for the Present Week is Fixed at \$4.00.

Those who were able to crowd their lead ores onto the market last week are now congratulating themselves. The surprising jump to 4 1/2 last week cannot, seemingly, be maintained, hence the decline to \$4 per hundred pounds recorded today. The opinion is freely expressed among several producers that a further decrease will follow, though it is thought it will not be alarming.

Cyanide Shipments.

Something over half a ton of gold cyanides reached the local sampling room of the American Smelting company today from two Mexican mines. The Sacramento sent in about 250 pounds, and the Mercur reported with 829 pounds of the valuable dust, gross weight.

The Rhymey Group.

The Davis County Clipper has the following to say of the Rhymey group, near Farmington, on which it is expected that a mill will shortly be built.

John Bogan started a dozen men at work on Tuesday morning constructing a road from the mouth of Steed canyon to where the proposed mill is to stand and expects to put on half a dozen more. It will be mostly hand work. The road will be steep being twenty per cent grade. As soon as the road is completed Mr. Bogan expects to start on the construction of the mill. Also about 400 feet of ore chutes will be built and about 400 feet of two-inch water pipe laid to convey water to the mine and mill for general use. The ores will be treated by two processes—concentrating and leaching. Mr. Bogan expects to ship concentrates inside of sixty days. He estimates that he has from three to four thousand tons of copper and gold ore blocked up in the mine. The road, mill, pipe line, ore chute and other improvements are estimated to cost in the neighborhood of \$5,000.

Nevada Gold Company.

The Nevada Gold Development company filed its articles of incorporation in the office of the county clerk on Saturday. The capital stock is placed at \$15,000, divided into 30,000 shares of the par value of 50 cents each. John McNamee is president of the company; Charles G. Plummer, vice president; F. S. Lutz, secretary and treasurer, who with Edward Osborn and L. E. Hall compose the directorate. The company owns the New Home and other mining claims in White Pine county, Nev.

MINING NOTES.

Uncle Jesse Knight was in town today on today's market.

Tomorrow is pay day at the Highland Boy mine at Bingham.

A car of ore was on the market today from the South Swansea of Tintic.

The Horn Silver of Tintic reported on the market today with 4 cars of ore.

The Shovels Con. of Tintic reached the market today with another car of silver-lead ore.

President Samuel McIntyre of the Mammoth went out to the mine on Saturday evening.

Tomorrow is the day set for the payment of the second installment on the Dalton & Lark option.

The Taylor-Brunton sampler reported 4 cars of ore from Tintic; 3 from Idaho and 4 from Frisco today.

W. T. Dinwoodey has gone to San Francisco to look over the city with the view of starting up in business there.

Three cars of copper-gold ore reached the local market today from the Blue Jacket mine in the Seven Devils country, Idaho.

It is reported that the new vertical shaft on the Knickerbocker property in Parley's canyon is now down over 80 feet.

The directors of the Bunker Hill, of Stockton, were to this afternoon to consider the resumption of work on that property.

The Holms Gold Extraction company has purchased a big dredging plant for use on Snake river. It is proposed to save the gold by an electrical process.

W. H. Tibbals has returned from the East after an absence of several months in New York, Boston and Chicago, and reports a good demand in those cities for mercurious mining properties.

Tintic Miner: W. M. Nesbit returned last evening from a trip to Black Pine district, Idaho, where he went to arrange for work on property in which he and William Hatfield are interested. The property will be the basis of a new incorporation.

Tintic Miner: John Leetham, who is working his property adjoining the Lilly in East Tintic, was in town this week with some good looking samples of rock which he has just struck in the shaft at a depth of 100 feet. John will continue work all summer.

White Pine (Nev.) News: Messrs. B. J. McCune and J. H. Perdue of Salt Lake City came to town on Wednesday on their way to Muncy to inspect the Grand Deposit and other mines at that place. These mines are bonded to Mr. McCune's father, the capitalist, and would be senator of Utah.

Evanson Press: The Ferris-Haagerty group, lying on the line of the Union Pacific railway, is showing up splendidly. Mr. Steele has run a tunnel in the ground about 200 feet on the ledge, and has a very fine showing for a mine. The ledge contains manganese all the way, with some copper, between lime and quartzite. The copper vein is a large one and can be traced nearly 2,000 feet on the ground. The Record is informed that some Montana men have an eye on this property and will shortly have the ground explored.

James D. Murdoch has severed his connection with the Ontario company as master mechanic, a position he has held so long and handled so ably with this company. Hereafter, Mr. C. D. Rixon will have full mechanical charge of all mill work of the company and J. W. White will look after machinery matters at the mine.

Workmen have completed the work of taking up the rails on the old Crescent tram, and unless those who are to take up the Crescent hill work replace them, this old landmark will soon be a thing of the past.

A car of first class ore from the Gul-

property are to be under the same management. The Bountiful Mining and Milling company have ordered machinery for a mill. It is said by a mining man who ought to know.

Secretary C. E. Hudson, of the Golden Eagle Mining Company, has gone to Humboldt county, Nevada, to inspect that property and straighten out some of the company's financial difficulties at that end of the line. As soon as this is done Mr. Hudson says the working of the property will come up for consideration.

Willard Snyder and other eastern parties came up from Gold Mountain on Saturday evening with ore samples from the Sevier and other properties in that district. Negotiations for the sale of other properties in that district are now pending. It is thought that if the present sampling of the mine is satisfactory two or three properties may be bunched into one big group, and sold to eastern capitalists.

MARKET HAD FINE OPENING

Were General Advances in Spite of Weak Points in Internals in London.

Disposition to Shade Prices After the Opening—Good Gains Made by Sugar—Bonds Were Dull.

New York, July 9.—The stock market had a firm opening at general fractional advances in spite of some points of weakness in the international list in London. After the opening there was a disposition to shade prices. The yielding tendency was checked by the marking up of Illinois Central to near 119. Good gains were made by sugar and some other specialties. The buying ceased before 11 o'clock, and prices fell away. Aggressive selling of Brooklyn transit lowered it 2 1/2, and caused heaviness throughout the list. In some stocks the declines exceeded a point. Metropolitan Street Railway dropped 5 points and Third Avenue 2. Prices generally were dragged down to about Saturday's level. Bonds were dull and steady.

SUGAR.

Sugar—Raw, firm; fair refining, 4 1/2; centrifugal, 95 test, 4 1/2; molasses sugar, 4.

MONEY AND BONDS.

Money on call nominally at 1 1/2 per cent. Prime mercantile paper, 3 1/2 to 4 1/2 per cent.

Denver, July 9.—Cattle—Receipts, 350; market quiet. Beef steers, 3.50 to 5.00; cows, 2.00 to 2.50; feeders, freight paid to river, 2.50 to 3.00; stockers do., 3.50 to 4.00; bulls, steady, etc., 2.00 to 2.50.

Hogs—Receipts, 200; market steady. Light packers, 5.10 to 5.20; mixed, 5.10 to 5.20; heavy, 4.90 to 5.10.

No sheep.

ST. LOUIS WOOL MARKET.

St. Louis, July 9.—Wool quiet; territory and western medium 17 1/2 to 18 1/2; fine 12 1/2 to 13 1/2; coarse 12 1/2 to 13 1/2.

WITH THE JUSTICES.

Joseph Griffiths, one of the men charged with the murder of a woman with a young girl at Caldwell's Park Friday evening, had a hearing before Judge McMaster this morning. A score of reputable citizens of Union, Griffiths' home, testified that the latter had always sustained a good character. Griffiths himself seemed to be very much cut up over his arrest, as he affirms that his feelings towards the little girl

were as pure as those towards his daughters, and anything of a criminal nature had not entered his mind. His friends who testified, said that he had always been a prime favorite with children, and that it was natural for them to cluster about him.

In view of the reputation the accused man bore among the best people of his community, and also the fact that he has a large family of motherless children who have no one but their father to care for them, Judge McMaster felt disposed to be lenient; he therefore imposed a fine of \$25, or 25 days in prison. He was given two days in which to raise the amount of the fine.

John Swartz, the other man, who was with Griffiths and the young girls, will have his hearing before Judge McMaster tomorrow morning. Saturday afternoon, while being conducted by Deputy Sheriff Dove, to enter his plea before Judge McMaster, he was seized with a violent fit, and fell to the pavement, and was taken to St. Mary's hospital, where he went through several more spasms. Swartz says he used to be subject to these attacks, but he thought he had been cured of them.

Great Shoe Sale.

W. J. Newman is having a big Tan Shoe Sale this week; his bargains may be had in every pair. 120 Main Street.

PORTFOLIOS OF THE PARIS EXPOSITION

They consist of 120 elaborate views on heavy enameled paper, in 20 parts issued weekly. The Paris Exposition beautifully portrayed. Price only 10 cents each part to news retailers. A book that sold for 75 cents and \$1.50 at the time of the World's Fair. Parts 1 to 5 now ready at the News Office. Send 10 cents for a sample. You will be charmed with the work.

OSTEOPATHY IN SALT LAKE

Dr. U. M. Browder, A. M. D. O., a diplomat in Osteopathy from the American School of Osteopathy, Kirksville, Mo., the great Anatomist and Physiologist, has located in the D. F. Walker building, rooms 204, 211 and 212, on the second floor, to practice the new and drugless science of Osteopathy. Osteopathy, as Dr. Browder explains, is purely rational and scientific, based upon scientific principles, and is the most successful method of treating human ailments now extant. Dr. Browder has had phenomenal success in the treatment of chronic diseases, such as chronic constipation, rheumatism, both acute and chronic, muscular and articular aches and pains, all diseases of the stomach, locomotor ataxia, and all the diseases of the nervous system, lumbago, dry neck, spinal curvature, St. Vitus dance. In fact, Osteopathy successfully treats all diseases, acute or chronic. The text which Osteopathy has been subjected is especially worthy of mention in this connection—75 per cent of its marvelous cures have been of patients pronounced "INCURABLE" by other systems of treatment. Dr. Browder makes a specialty of all Chronic troubles. All he asks of the people of Salt Lake is a fair and impartial trial. Reception room, 212 D. F. Walker building.

The following letter is self-explanatory as to the standing of Dr. Browder: To all Concerned:

Mrs. Foster's Letter.

Without solicitation on the part of Dr. Browder, I desire to say, for the good of others who may be afflicted in the same way I was, that I was attacked by asthma when a little girl only ten years old, and that I have had it in its worst form for more than a quarter of a century, up to last spring, when I commenced to take Osteopathic treatment of Dr. U. M. Browder, who was then located in Walla Walla, Wash., who treated me for two months. I felt relieved from the very first treatment and at the end of the second month's treatment, I was cured, sound and well and up to the present date I have not had a single spasm of asthma or a symptom. Last winter, one year ago, I was confined to my bed nearly the entire winter gasping for the next breath. All remedies failed to relieve me, and finally, as a last resort, I was persuaded by friends to go to Walla Walla, Wash., and try Dr. U. M. Browder. This I did with but little or no hope, but from the very first treatment I began to get my breath with less difficulty, and I grew constantly better till at the end of the second month when I was entirely relieved of asthma. It is with real pleasure that I heartily recommend Dr. Browder and Osteopathy for asthma. Persons who may desire further information in regard to my case and cure, will be perfectly welcome to call at my home and see me in person.

MRS. ALICE R. FOSTER,
31 Kendall Square, Salt Lake City, Utah.
