The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxa-tive, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation per-manently. Its perfect freedom from every objectionable quality and sub-stance, and its acting on the kidneys, liver and bowels, without weakening

or irritating them, make it the ideal laxative. In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP Co. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Nek York, Aug. 24 .- Professional betting men are beginning to show a keen interest in the coming international yacht race and some men who are well known in the sporting world are in-clined to give the long end to Sham-rock. One of the most prominent of these sporting men is quoted as saying that the men who make bets are dis-gusted with the trials of the American boats, and that those with the bank rolls do not like the performances of Constitution. He has expressed the opinion that even money bets on the race will prevail. Another high authority of this class says that he has found feeling and sentiment in favor of Shamrock and he cites one incident of a bet, made by a Chicago man of \$100 to

Mr. Bell, whose picture is given herewith, says: "I have been a victim of Catarrh of the Stomach and Head for a long time. To start with, my head and nose stopped up, causing me to hawk and spit continually. Then it began to affect my lungs, so that if I ran a short distance I was almost exhausted and could scarcely get my breath. Finally it reached my stom-ach, and trouble began in earnest, my food soured on my stomach, I had se vere pains after eating, and at night I could scarcely lie down in bed for fear of choking to death. I got so bad I went to see Drs. Shores, and after a consultation began their treatment. To make it brief I will say they have

simply done wonders for me. Today I can eat what I please, my stomach is good and sound, no pains ot distress, and I feel like I could run a quarter of a mile now without trouble -in fact, I can work much better, with less fatigue. I have not had a headache since starting their treatment-where I used to have them daily." (Signed) "MRS. JOHN COLEMERE." (Signed.) "FREDERICK W. BELL."

The U. S. Government has been at-tempting to instruct the people regard-ing the purchase of food that would give the best advantage to the system with the least expenditure of money. A report has been made by Prof. At-water, the famous chemist, and the subject is of great interest. This is an age of specialists, and the work of the food specialist is of great importance. Persons who do not care to go into all of the details and sta-tistics, can secure practical results by using Grape-Nuts, the breakfast food, which is probably the most scientifical-ly made food in the market. It is made for a purpose and was originated by a food expert of unquestioned stand-ing.
