RAGING FLOODS THREATEN OGDEN

Much Damage Already Done to
Railroads and Highways—
Big Dam in Peril.

FAMILIES RESCUED BY BOATS

From Inundated District—Flood Re-
ported in Ogden Valley Greater
Than Previous One.

Ogden, March 21.—For the second time this season the Ogden river overflowed its banks and flooded that part of the city known as the Riverside and Glasgow additions. Many families were forced from their homes by the high water, boats being brought into the rescue work. A portion of the Oregon Short Line track at Twentieth street was washed away and a part of the Southern Pacific track is threatened. Late last evening the water had reached a point in height equal to what it was during the previous flood and was still rising. A heavy rain storm, followed by a high wind set in and aid materially in making the situation more critical.

Considerable apprehension was felt last evening concerning the durability of the power dam of the Utah Light & Railway company at the head of the Ogden river. A force of more than 50 men were stationed at the dam and about 11 o'clock they succeeded in getting over the flood gates. This greatly lessened the possibility of a catastrophe, as the water was within a few inches of going over the top of the dam. Had the water passed over the breakers of the dam it is believed that it would have been washed away, thus releasing the great body of water that backs up into the river for miles. The destruction to property and the loss of life in the event of such an occurrence would be appalling.

Reports received yesterday from Ogden valley were to the effect that the flood appeared to be more dangerous and of greater proportions than the previous one. Much of the new work that has been done on the roads since they were washed out several weeks ago has been destroyed. Men employed at this work were forced to give it up on Tuesday by the high water. Several additional bridges have been reported out.

In the Ogden canyon the water has already done much damage. At this point the river overtopped its banks and flooded the place. The road between the Oaks and the power dam is also reported to be considerably damaged. A large boulder rolled down the mountain side, struck the entrance to the canyon yesterday morning and crushed the pipe line running from the hot water spring to the sanitarium building. This cut off the hot water supply for the resort. The break was repaired later in the day.

Early yesterday afternoon calls for aid began to reach police headquarters. The department called into service the street supervisor, who immediately pressed into action several boats and teams. A number of the boats were taken from their homes but others refused to leave, notwithstanding that there were 10 or more inches of water covering the lower parts. The rescue work was mostly among people of moderate means who have no place other than their homes to go to for shelter.

Early in the afternoon the water washed from 20 to 30 feet of the roadbed of the Oregon Short Line away. The piece of track affected is one used as a connection with the Southern Pacific track at the foot of Twentieth street. It was used mostly for the movement of freight trains to and from the yards. While it is out of commission, the main line via the passenger yard will be used.

Several of the teams used in the rescue work in the afternoon got mired and were rescued with difficulty. A careless driver who insisted on driving through the water on lower Twentieth street, narrowly missed having his horses drowned. The rescue of the dozen men was necessary to get the horses out without the wagon, which will remain in the water until it recedes. The county road near the Stateville bridge is threatened. It is feared that the water will cut through the road and form a new channel, leaving the bridge high and dry.

Forces of men were stationed at vari-

MUNICIPAL LIGHTING PLANT.

Question Being Agitated Among Citizens—Feasibility of Proposition.

Ogden, March 21.—Considerable agitation is being waged among the citizens at the present time over the question of whether or not Ogden wants to own its own lighting and power plant. Some time ago the city council took this matter up and by many it was looked upon as another of those moves that would amount to naught, or in other words place it upon a plan with the numerous attempts that have been made to secure a municipal waterworks. However, it would seem from the present status of things that at least a feasible scheme has been hit upon by the committee selected from members of the council. This scheme would cost the people of Ogden approximately \$200,000, but according to the figures produced by those in favor of the scheme this would soon be paid back and then all would be easy sailing and clear gain for the enterprise.

There are 32 or 33 second feet of water in the Ogden river that is said to belong to the North Ogden and the Ogden Benches canals. The new scheme would acquire this water, then purchase from "Bill" Wilson, a parcel of land in the canyon upon which is located at the present time a sawmill. A pipe line would be erected from the sawmill or a little east thereof to the mouth of the canyon. In that distance a drop of more than 200 feet could be secured and this it is claimed would develop a net minimum of 400 horse power.

This minimum horse power would furnish electricity for \$300 26 candle power lights. Exceeding three months in the year this number could be doubled. Now at the present ratio charged the city for lights this would save the city on this number of lights \$50,000.

Cutting this price in two by charging 50 cents a light instead of \$1, the savings per year would be \$25,000, which would pay for the plant and cover all operating expenses in six years. In addition to the power plant Ogden city would have its own land in the canyon upon which to establish a rock crusher and secure rock enough for the city street work for many years to come.

It is quite likely that many of these points will be argued upon when the matter is again brought before the council by the report of the committee which is expected to be favorable to the proposition.

The report is said to have been prepared and will probably be presented at the next meeting of the city council.

DEATH OF ED. DOYLE.

Ed Doyle, well known in this city, died at the Ogden general hospital yesterday morning from an attack of pneumonia. Doyle had no relatives here but had a sister residing in Vineland, N. J. His brother-in-law lives in Goldfield. Both have been communicated with. It is expected that the body will be buried in Ogden.

TWO COUNTIES TO BUILD BRIDGE

At a joint meeting of the commissioners of Weber and Davis counties held yesterday at Utah it was decided to erect a new bridge at that place in the Ogden river where the old bridge has served for more than 18 years. This is the last wooden bridge in the county and in its place will rise a new steel structure, the cost of which will be shared equally by both counties.

The abutments of the new bridge will be of stone set in cement, such as will stand the force of any high water that may come down the Weber river. At the point where the bridge in question is located the river forms the dividing line between the two counties, hence the joint action.

KICKED BY A HORSE.

Henry Byrne, 14 years old, residing with his parents at Utah, was kicked in the side by a fractious horse yesterday afternoon and painfully injured. The lad, who is a son of David Byrne, was driving some horses to the pastures on a hill side. He was walking behind the horses when one of them kicked him full force in the side. The

plowing as yet on account of the excess of moisture.

The sugar company's field agent is busy taking contracts for beets and it looks as if the acreage for the coming year will be cut or more factories built. Japanese contractors are also taking contracts for building and harvesting beets.

The sugar company is making preparations to make more improvements on their land near the factory. A symmetrical house will be built and other improvements made.

SOME OF THE LEADING MEN OF THE TOWN met on Friday last and organized an industrial club. The club has the hope of getting better accommodations for the benefit of the community in different business directions.

AN ELECTION was held in the Lewiston school district yesterday for the purpose of deciding the question of bonding the district to obtain money to erect a \$300 school building. The result of the election was an overwhelming majority in favor of bonding, so we expect to see the building completed this year.

FUNERAL OF MRS. YOUNG. Services were held in the tabernacle this morning. Concluding remarks were made by a number of speakers. The deceased was nearly 80 years of age and emigrated from England over 20 years ago. She was an earnest, energetic woman and set an example of integrity, faith and love of the truth worthy of emulation of every one. She leaves one daughter here to mourn her demise. The rest of the members of the family are in England.

LISTEN. And remember the next time you suffer from pain caused by damp weather, or a cold, or a headache, or a neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of this city, who has been suffering from Rheumatism for many years, writes: "I am free from these complaints. I am sure I owe this to your liniment." Sold by Z. C. M. I. Drug Dept., 112-4 Main St.

WORKED LIKE A CHARM. Mr. D. N. Walker, editor of that spy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed. The salve simply healed the wound." Heals sores, burns and skin diseases. Guaranteed at Z. C. M. I. Drug Store, 150.

LEWISTON. WILL BOND FOR \$20,000 SCHOOL. An election was held in the Lewiston school district yesterday for the purpose of deciding the question of bonding the district to obtain money to erect a \$300 school building. The result of the election was an overwhelming majority in favor of bonding, so we expect to see the building completed this year.

WORKED LIKE A CHARM. Mr. D. N. Walker, editor of that spy journal, the Enterprise, Louisa, Va., says: "I ran a nail in my foot last week and at once applied Bucklen's Arnica Salve. No inflammation followed. The salve simply healed the wound." Heals sores, burns and skin diseases. Guaranteed at Z. C. M. I. Drug Store, 150.

LEWISTON. WILL BOND FOR \$20,000 SCHOOL. An election was held in the Lewiston school district yesterday for the purpose of deciding the question of bonding the district to obtain money to erect a \$300 school building. The result of the election was an overwhelming majority in favor of bonding, so we expect to see the building completed this year.

FUNERAL OF MRS. YOUNG. Services were held in the tabernacle this morning. Concluding remarks were made by a number of speakers. The deceased was nearly 80 years of age and emigrated from England over 20 years ago. She was an earnest, energetic woman and set an example of integrity, faith and love of the truth worthy of emulation of every one. She leaves one daughter here to mourn her demise. The rest of the members of the family are in England.

LISTEN. And remember the next time you suffer from pain caused by damp weather, or a cold, or a headache, or a neuralgia—try Ballard's Snow Liniment. It will cure you. A prominent business man of this city, who has been suffering from Rheumatism for many years, writes: "I am free from these complaints. I am sure I owe this to your liniment." Sold by Z. C. M. I. Drug Dept., 112-4 Main St.
