Fresno, Cal., courts have been trying the supposed Chinaman, with his wife and son, in a trial of five hours. Testimony was introduced in evidence from several books sold by the officers, in which the Chinese kept accounts of receipts and gains in the lottery business. From these books it was shown that the Chinaman's lottery to Fresno results \$1,000 a week. It was well known that large sums of money were drawn into these lotteries, but it was not suspected that the prof was exact.

A Mexican named Albert Holland was found dead Friday morning on the Chinaman's ranch, at San Gabriel, Cal., in a terrible manner, and his partner was severed. The immediate vicinity was drawn with bloodhounds, and it is evident that Holland's death was the result of a drunken quarrel. He was found a quarter of a mile from the water, when help was given and a physician summoned. The cause of his death was carbon monoxide and his face charred.
