Salt Lake, Ogden, Butte and Spo kane May Form One.

BELIEVED IT WOULD PAY.

Learned That There Has Been Some Correspondence Between Salt Lake And Spokane and Butte.

The following from the Butte Miner indicates that prominent men of Butte are anxious to build a saucer track, and to form a circuit with Salt Lake, Ogden and Spokane. The fact that Ogden is to have a fine modern track, as first published in those columns, seems to have stirred up considerable interest both in Butte . and Spokane. The article in the Butte paper follows:

somewhat of a petard was exploded in a select sporting circle yesterday when it was learned that several prominent men had been quietly figuring on the possibility of success in building a new saucer bleycle track in Butte and joining the proposed circuit of Sait Lake, Ogden and

ity of success in building a new saucer playcie track in Butte and joining the proposed circuit of Sait Lake, Ogden and spokane. The matter has been keit very quilt for the reason that it may not ma-terialize, but just the same there has been much thought put on the scheme and something definite may result. There is as yet no track in Spokane, but it is learned on good authority that cor-respondence has passed back and forth between Spokane and Sait Lake people who intend forming a circuit of the three-cities metioned, and the track in Ogden is a certainty. Butte people have kecome interested and there is a possibility of this city joining hands with the other three-cities in a circuit. The futte people smile. The first and last wentre in that direction, under the man-agement of Benny King, was a disaster, if ever there was one, but that does not hecessarily mean a second attempt would be a failure. There were many reasons for the former fuse on first of which was one mismanagement. We have now, people were not ducated to it, and instead of nursing how inhabitants. If more than ordinary skill in playing brings the honors of the game to the winning player, so exceptional merit in a remedy ensures the commendation of the well informed, and as a reasonable amount of outdoor life and recreation is conducive to the health and strength, so does a perfect laxative tend to one's improvement in cases of constipation, biliousness, headaches, etc. It is all-important, however, in selecting a laxative, to choose one of known quality and excellence, like the ever pleasant Syrup of Figs, manufactured by the California Fig Syrup Co., a laxative which sweetens and cleanses the system effectually, when a laxative is needed, without any unpleasant after effects, as it acts naturally and gently on the internal organs, simply assisting nature when nature needs assistance, without griping, irritating, or debilitating the internal organs in any way, as it contains nothing of an objectionable or injurious nature. As the plants which are combined with the figs in the manufacture of Syrup of Figs are known to physicians to act most beneficially upon the system, the remedy has met with their general approval as a family laxative, a fact well worth considering in making purchases. It is because of the fact that SYRUP OF FIGS is a remedy of known quality and excellence, and approved by physicians that has led to its use by so many millions of well informed people, who would not use any remedy of uncertain quality or inferior reputation. Every family should have a bottle of the genuine on hand at all times, to use when a laxative remedy is required. Please to remember that the genuine Syrup of Figs is for sale in bottles of one size only, by all reputable druggists and that full name of the company - California Fig Syrup Co., is plainly printed on the front of every package. There is in the office of the Greater New York Baseball club a bat that Clark Griffiths brought from Cuba when he was there. It is light as to weight and is com-posed of what is called majakua wood. Asked as to the utility of the stick Griff sai it would be apt to break if the ball was hit solidly at either end of the stick. The bat might be good for a bunter.

The bat might be good for a bunter. James Edward Britt may be sidetracked to give Joe Gans the next chance to check the ambitious rise of one Battling Nel-son, and this is the match which Alec Greggains, the California promoter, is trying new to frame up for the April date in San Francisco. The latter has no friendly feeling for J. Edward, and may be trying to belittle him when he says that Gans and Nelson would make the best match. Greggains, who is above all things a good judge of a fighter's tal-ents, says of Nelson. "He can whip Britt. No question about it. Gans is the only lightweight who has a chance to beat him." Al Herford, he of the prolific typowriter, is determined to do all he can to get his coffee colored puncher into the ring with the pugnacious Dane, but he will have to agree to concessions which may mili-tate against the chances of his ma.
