FREMONT COUNTY SEAT FIGHT IS ON.

Rexburg and Sugar Both Out With Petitions-Sugar Offers a Court House, Bonus of Cash and Lots Amounting to \$25,000.

Special Correspondence.

EXBURG, Ida., March 22 .- The Commercial club is hustling for the county seat. It has men with petitions in every community and the necessary 3.000 names have almost all been secured within threedays. Precincts that heretofore have given little or no support are now manifesting a desire to see a change by 70 or 90 per cent of the voters signing the petition.

the petition. Rexburg feels that it is entitled to the county seat, as it is the pioneer and largest town in this part of the great Snake River valley, and it is the mu-clets around which the greater part of Fremont county has built. The people are going into this contest to win, and they want to win honestly and fairly. The snow is disappearing your to The snow is disappearing very rap-idly and if the weather continues warm

BANQUET AND SOCIAL.

The Y. M. M. I. A. stake board ten dered a grand banquet and social in honor of the stake board of Y. L. M. J. A. at the Rexburg Commercial club parlors, Saturday, March 10, 1906. There were present as invited guesta

the presidency of the stake, the Bish-opric of the two wards, also the presi-dency of the ward Mutuals.

The af " began about 7 p. m., and following the preliminaries, a most elaborate dinner was served, this part of the program being presided over by President George E. Hyde and his ids. They had eight young men dressed as "darkies," who looked after the wants and wishes of the invited manual with semantable skill. guests with remarkable skill. After supper all adjourned to the parlors, where they enjoyed themselves in so-clal games and chats. At 9:30 a very interesting program was rendered, after which all enjoyed themselves in social dance. The evening was one of exceptional

pleasure. The young men certainly know how to entertain.

FACTS ABOUT THE FAMOUS TETON VALLEY.

Something Regarding the Widely Talked of Future Coal Center

Of the Gem State.

Special Correspondence. RIGGS, Ida., March 22 .- Teton val. ley 's situated in the eastern part of Fremont county, Idaho, and joining the western boundary line of the state of Wyoming, lying 35 miles eas of the Snake River valley, from Sugar City. The valley is 15 miles wide by 50 long, and is surrounded by picesque timber covered mountains from which flow beautiful streams of clear water, sufficient to irrigate the whole and still have a surplus to turn valley and still have a surplus to turn down to the people living in the lower country. The valley slopes to the cen-ter from either side, dipping slightly to the north, in the center of which flows the Teton river. There are nine prosperous little settlements in the valley, the center of which is Driggs. This is the center of attraction and is building up vary feat Busines upoper building up very fast. Busines proper-ty has gone up 125 per cent within the last six months, but is still cheap. Timber is close and of easy access. In these mountains are found the red pine, white pine, bird eye, balsam and mahogany, etc. It just takes a good day's work to get a good load of wood to your door, in almost any part of this valley. Building material is very cheap here, rough lumber is worth \$12 per thousand feet at the mill. Finishing lumber ranges from \$15 to \$20 per thounumber ranges from size to see per dou-sand feet, though we are in need of car-penters to work it up. There are large quantities of splendid building stone and lime rock. The demand for lime in-dicates that there will be a large industry worked up in converting this lime stone into merchandisable lime. But this is an agricultural district which is attested by the 200,000 bushels of good grain raised in the valley in the year 1905. Fields yielded from 35 to 65 bushels per acre, and we are not extensive farmers either. The immense stacks of alfalfa and timothy hay speaks for itself both in quantity and quality. certain kinds of fruit we excel. such as currants, raspberries goos ries, strawberries, etc. Also apples, cherries, pears and plums are an as-sured success. In flavor these varieties The surface of this valley is covered by quite a variety of soil. In the center, running from the north to south we find a gravelly formation which is admirably adapted for a country road, but as you leave the main thoroughfare going east or west the soll becomes freer from gravel until you find great bodies of it that are from three to ten feet in depth, without a stone, covered with sagebrush or grassy sod. The altitude of this valley is 6,000 feet, and on account of the protection of the surrounding mountains, severe weather of either heat or cold is the exception an not the rule. Our sum-mers are delightful, adverse winds are almost unknown, and when we are vis-ited with frost it does not spare the upper Snake River valley. Sleighing is always good in the depth of winter, though we notice the snowfall to be rowing less from year to year. That this valley will be a vast coal producing region some day, and that not very far hence, is an assured fact. The local market is being supplied with a first-class article. Bishop Potter of Sunnyside gave this coal a thorough cokeing test; he says that as a cok cannot be surpassed at Sunnyside. This statement comes from a practical coal miner, and means a great deal for this coal and this valley. Just as soon as the railroad gets here these mines will hegin to supply the Montana market with coke, as the distance saved in hauling coke from Utah and Wyoming will insure the speedy erection of a cok-ing plant. The O. S. L. Railroad com-Ing plant. The O. S. L. Kaliroad com-pany will construct a rallroad into this valley just as soon as they can get men and material together to build with. General Manager W. H. Bancroft as-sures us that the route will be determined just as soon as the surveyors can get into the field in the spring. Also the Chicago and North Western R. R. Co., are pushing their road from Lander west, and will push their line through this valley to the coast. Should this has values in real estate will this happen, values i increase 500 per cent.

Special Correspondence. C UGAR CITY, March 22 .- Every one living in Fremont county is aware that there is a county geat fight "op," and from all appearances it promises to be the most spirited fight ever held in these parts. Scores of men are traveling through the anty armed with petitions, dodgers and plenty of "talk," and all seem to have different propositions to make to the different propositions to make to the people. The citizens of Sugar City, however, are proud that they have made the best offer yet, and it is re-ceiving the "glad hand" of thousands of citizens throughout the county. Sugar City offers \$20,000 to build a courthouse and will deposit a certified check covering that smannt in the check covering that amount, in the Fremont County bank to be used by the county commissioners as soon as Sugar City is determined the winner. They also offer a city block consisting of 24

business jots, selling at present value of property at \$6,000, on which to erect the new court house The Sugar City faction is very busy and is holding mass meetings throughout the county with great suc-cess, and it feels confident that it will succeed, as the people feel that a \$26,000 gift will save them money and will do away with bonding for court house money. The preliminary con

test comes in securing names of voters to the petitions to the county court; if Sugar gets most names, Rexburg must retire from the contest, and if Rexburg leads, Sugar will leave Rexburg to fight it out with St. Anthony.

A COMMERCIAL CLUB.

Last Friday evening, about one hun dred Sugar City "boosters" met in the school house and planned for the or-ganization of a Commercial club to be effected immediately. Most of the prominent men of the city were present and made enthuslastic speeches in favor of a Commercial organization The following gentlemen were elected directors of the organization: Fennel, Ben R. Firman, Otis Van Tassel, Fran-Ben R. Firman, Otis Van Tassel, Fran-cis Salzner, Artie Comstock, Thos. R. Cutler, Jr., and Walter Webb. They were authorized to incorporate under the laws of Idaho, at a capital of \$25,-000, and to prepare the necessary con-stitution and by laws. The gentlemen have met and have the plans well un-der way, and a general meeting will be called next week. The object of the organization is to promote the interests of Sugar City and adiacent country, and an invitation

Gov. Gooding Issues a Proclamation Against All Animals From Contageous States on Account of Scab Among Them.

Special Correspondence

O OISE, Idaho, March 22 .- On Monday, Gov, Gooding issued a proclamation of quarantine against all the sheep in Utah, Wyoming, Montana, Nevada, Oregon and Washington from entering this state, on account of the prevalence of scab among the sheep in the states adjoining Idaho. The burden of enforcing this mandate is placed upon the state veterinary surgeon and the state inspectors. The is-

suance of this second proclamation of quarantine became necessary for the reason that the federal bureau of animal industry refused to enforce the one issued on March 1. The new proclamation prohibits the entrance of sheep into the state which have not previously been dipped with-in a period of 10 days before crossing the border line. HE GETS HIS SALARY.

BAD WEATHER CHECKS WORK AROUND NAMPA.

AMPA, Ida., March 22 .- During the latter part of February, the weather was very mild and warm, and farm work was progressing in great shape, but early March brought heavy snow storms, which have continued during the entire month, causing all work to cease. will start. Work on the sugar factory is pre-

Work on the sugar factory is pro-gressing, some eight or nine brick ma-sons are employed on the smoke stack, and as soon as the weather will permit, the work on the mill will be pushed as rapidly as possible. The people of Nampa were aroused on Tuesday by the finding of a baby girl on the door step of a house. The mother of the child is unknown, she having wrapped it in rags, and placea it there, leaving a note tied to the baby saying that she was in poor health, and unable to support the child, and hoped that some kind mother would take it that some kind mother would take it and raise it. The child was adopted by Mr. and Mrs. Robert Bowman, re-

It seems that the preacher in his order for illustration recited stories which caused blushes of shame to mantle in cheeks of his congregation, and which were branded in a local newspaper to

be indecent in the extreme. Mr. A. K. Stoddard, a merchant of Nampa, has petitioned the city council of Nampa to grant a franchise for th installation of the Independent Tele phone company. It is now in the hands of the council, not having been settled as yet.
