TWO ENGLISHMEN WERE PARDONED.

BACK TO JOHNNIE BULL'S ISLE.

Robert Lister and Curwin Wilkinson Accused of Ogden Holdup Heading for Home.

At a special meeting of the state board of pardons held on Saturday afternoon, two young Englishmen, Robert Lister and Curwin Wilkinson, who were sentenced at the district court in Ogden for highway robbery, were pardoned upon the understanding that they would leave the state and return to their home in England.

Tickets through to Liverpeol were purchased for the two young men this morning by Rev. P. A. Simpkin of Phillips Congregational church, who has taken a great interest in the case. The young Englishmen will leave for the cast tonight over the Rio Grande and they affirm that if they once more get back home they will take care that their roving instincts will be checked and they will remain under the Union and they will remain under the Union Jack

A few days ago Rey. Simpkin re-ceived a letter from William Gilbertson, step-father of one of the pardoned men. Both from the handwriting and diction it can be seen that the claims of the pardoned young man that he is of good family are correct. Mr. Gilbertson's letter, inclosing passage money for his efforts of Mr. Simpkin on behalf of the young men. Among other things he says: "Many efforts have been made by friends here on behalf of the two men, as you doubtless know, but they all proved fruitless until you took the matter up. 1 am glad to know and shall be proud to remember that you are an Englishman, and came from Lancashire, a county every Englishman is proud of whether he belongs to it or

Rev. Simpkin in course of conversa-tion this morning stated that he had made it a rule during his visits to the state prison never to make any move to state prison hever to make any move to seek to obtain a pardon for convicts. In this first case, however, he was con-vinced that there had been a miscar-riage of justice. "There had been a hold-up in Ogden, and the police had to arrest somebody. The two young men het just received a remittance to arrest somebody. The two young men had just received a remittance from England, and when arrested they were found with money on them. They were railroaded through to jail on general principles. If I did not think that they were innocent I would not have done, what I have." he said.
