

Business Much Better on Mining Exchange Than it Was A Year Ago. PARK CITY STOCKS IN DEMAND

**BIG INCREASE.** 

Daly Judge and Little Bell the Big Favorites-New York Bonanza Active-Today's Sales.

**RECORDS SHOW** 

There is perhaps no better way of demonstrating the condition of the local mining stock market as it exists today than by making a comparison with the records of a year ago. During the present week, there were sold on the floor of the Salt Lake Stock and Mining exchange a total of 277,555 shares of stocks, which represented a market valuation of \$210,525.25. During the corresponding week a year ago, 189.518 shares were sold and the money involved in making the trans-actions aggregated \$53,954.25.

This condition can easily be ac-counted for by the fact that mining where judgment has been exstocks stocks, where judgment has been ex-ercised, have proved to be profitable investments. During the bast week there has been considerable demand for Park City and Tintic stocks on the local exchange. The former have been particularly attractive, especially Daly Judge and Little Bell, both of which have closed in splendid order. which have closed in splendid order, with indications of a further advance. New York Bonanza did not sell up to the figure reached last week, but the stock was absorbed as readily as it was offered. Wabash, notwithstand-ing that the pool has been broken, has held up fairly well. Thompson has moved up several points and the management is preparing to resume oper-ations. It is said arrangements are about concluded to work the mine through the Daly Judge. Of the Tintic stocks the greatest in-

terests has been centered on May Day, but those who were predicting 50 cent stock by the middle of May have been sorely disappointed. The stock has displayed weakness and is not inclined

to rally. The closing quotations and sales to-

will open up transfer offices in New York, and otherwise extend to eastern

brokers in their home city all the facili-ties that have heretofore been enjoyed practically exclusively by members of the San Francisco Stock & Exchange

Further proof of the strength of the

market in Nevada mining shares is found in the fact that when the San

Francisco disaster occurred, the banks of the Nevada mining camps had hun-

dreds of thousands of dollars on de-posit in the San Francisco banks, and all of this money has been tied up in-

tions of all property in the city, and in the county outside of the city for this year's assessment. The segregation statement does not include the property been made are currently accepted as temporary matters only. The disaster has, however, brought yet to be assessed by the state board of equalization. Following are the valsharply to the attention of Nevada min-ing companies the necessity for eastern representation, and several of the lead-ing companies of Bullfrog, Manhattan and Goldheld now announce that they uations as segregated: SALT LAKE CITY.
