At South Chicago the closing of plate and Mabbing mills is not for an indefinite time, but only for the week, awaiting a new accumulation the week, awalting a new accumulation of new orders and specifications on con-tracts. At the Besseraer plant of the American Steel & Wire company, in Cleveland, there is a temporary shut-down and meantime deliveries of Bes-semer iron are held up. The Amaiga-mated association has announced a \$5.50 base rate for puddling, of a 10 per cent advance over last year's basic, at the same time advancing the base price on bar iron to 1.5 cents from 1.4 cents. The sheet and the plate sales call for small advances, but are not given out in detail. Formal conferences between workers and manufacturers will be held

shortly, but there will be no haste to reach agreement and a good many shut-downs are expected on July 1. The week's changes in prices begin with pig iron and include several in the finished list. It is expected that a price on Research loop for the price on Bessemer iron for the second half will be agreed upon by the furnacemen this week, and is likely to be close to \$20. Dyspepsia is now cured as readily as ny other disease.

What the dyspeptic wants is abund-ant nutrition, which means plenty of good, wholesome, well-cooked food and something to assist the weak stomach to digest it. This is exactly the pur-pose for which Stuart's Dyspepsia Tablets are adapted and this is the method by which they cure the worst method by which they cure the worst cases of Dyspepsia, in other words the patient eats pienty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. ### Germany for Boots and Shoes.

Washington, June 7 .- Consul General Richard Guenther, at Frankfort, has submitted to the state department some interesting statistics upon Ger-many's importation of American goods in 1899

The figures demonstrate, says the consul, that while the United States furnishes a large percentage of articles of necessity, such as cereals, meats, lard, petroleum, cotton seed oil, oleo-margarine, etc., in which little compe-tition exists, other articles do not figure as prominently as there is reason to expect on account of their superiority

and comparatively low price. Germany, he said, by reason of her denser population, her accumulated wealth and her general prosperity, offers splendid opportunities for many goods of American manufacture. For instance, the consul states, American made boots and shoes are generally ad-mitted to be the best and cheapest in the world, and in the wealthy city of Frankfort, he cannot find suitable boots and shoes for himself and family, and

In the East childlessness is considered a curse from the gods. It is a pathetic sight to see some childless Hindoo mother prostrate before an idol, implor-ing that the curse of childlessness may be taken away.

Are we much wiser than the heathen Thousands of childless women are not as they suppose un-der Nature's Nature's ban, but are suffering from a diseased

condition o the delicate feminine organs. It may be debilitating drains or female weakness, and perhaps an ulcerated and inflamed condition of the parts. In any case the diseased condition must be removed and healthy condition established before the maternal function can be fulfilled.

Many a mother acknowledges her debt to Dr. Pierce's Favorite Prescription, and to its inventor Dr. R.V. Pierce, of Buffalo, N. Y., who invites the sick to write and consult him without charge. "Favorite Prescription " promptly allays irritation, heals ulceration, checks the debilitating drains, cures female weakness and the accompanying bearing down pains. It gives vitality and elasticity to the organs peculiary feminine, and establishes the natural conditions which make for the easy birth of healthy children.
