Large Number of Voters Enrolled Themselves Today A Good Many More Will Do so Tomorrow.

Reports at the hondquarters of both Democrats and Republicans today indicute that there has been a heavy response to the demands upon them for registration. Heavy however, as the response has been, it is believed that it will be even greater tomorrow. The experience today should be of some valde to naturalized chizens. In many parts of the city throughout the entire day many persons of this class repaired to the office of the registrar of their district without having brought the evidences of their naturalization with them. The result was that they were compelled to return home and get them before their names were placed upon the rolls.

The Oceanic's Narrow Escape.

New York, Oct. 9.-A special cable ispatch from Queenstown to the Eveng World says: The giant White Star liner Oceanic, which arrived here today, had a nar-row escape from shipwreck off the ceast of Ireland.

While approaching the ceast and try-

ing to pick up the Fastnet light, what appeared to be fog bank, suddenly lifted and showed land dead ahead. The breakers could be plainly seen crashing. on the rocks, and the vessel touched bottom but Captain Cameron immediately stopped his engines, reversed them, and backed into the deep water without the steamship being injured. It was only owing to this care that a terrible disaster was averted. becamic was going slowly on account of the fog and trying to pick up the land. It was 4 o'clock in the morning when the fog lifted and showed the land right ahead, the position being between the rocks known as the Bull, Cow and Calf, and Browhead.

The land was so close that each on bow could be seen a regular cave. The stopping of the engines shook up and awake everybody. Half a minute after the engines were reversed, but before the Oceanic was stopped she struck with a grindging, grating noise. She then quickly swung Tranquil and confident in the kill of the captain the women passen-

rers in the saloon behaved admirably howing the greatest coolness in the presence of danger.

The water tight compariments were closed within two minutes on Captain Cameron's orders as soon as the danger was perceived. The life-boats were cleared away ready for lowering with the precision of clock-work, and the crew were at quarters at once.
