The attendance at yesterday's Tab The attendance at yesterday's Tab-ernacle organ recital was unusually large. The organist gave an excellent program, including the "Liebeston" from Wagner's "Tristan and Isolde;" the intermezzo from the "Cavaleria Rusticana" of Mascagni, "The Vision," by Reinberger; "Songs Without Words, No. 4," Mendelssohn; and the overture to "Oberon" by Weber, The last com-position is one of the most dramatic ever presented on concert programs, and never fails to impress an audience. Prof. McCleilan played the difficult work with east and grace, and gave a good insight into the musical genus of the composers. The registration of the intermezzo and the Mendelssohn num-ber was orchestral, which the character of the compositions calls for, and stringed qualities of the fine st of the great organ were well brought out. There will be another classical program tomorrow afternoon at 5:20.

Officers Apprehend Young Man Who Continues to Make Trouble.

Deputy Sheriff Ira Beckstead of Bingham Junction, re-arrested Jed Grant last evening about 6 o'clock near Sandy and brought him to the county jail. Grant is under the charge of passing counterfelt money and has been out on hall for some time pasts About a week or so ago it was feared that he was intending to leave the state so he was taken in custody by Sheriff Em-ery, but the matter was fixed up with his bondamen and he was released.

Since that time he has been working a team for his father near Bingham a team for his father near Bingham Junction. A day or two ago he took the team to Eingham Junction and traded it for another one and got \$60 to boot. His action caused his bonds-men to be suspicious so yesterday they requested Sheriff Emery to re-arrest Grant. Deputy Beckstead was sent after the man. He learned that Grant was headed for Sandy with his new team with the Intention of selling it so he took after him. When overhauso he took after him. When overhaul-ed Grant was instructed to turn around and go with the deputy. Grant made a bluff at complying with the orders of the officer but instead of loing so he started his horses on-a dead run. A lively chase ensued but Deputy Beck-stead soon drew abreast of Grant and jerked him out of his buggy and up on the seat beside him. Both rigs were then brought into Murray and from there Deputy Sheriff Fred Butler as-

EXTENSION TO THE COAST.

Arrangements Being Made to Secure

Concessions and Yards at Boise for Main Line.

It is asserted that Horace B. Burt, formerly president and general manager of the Union Pacific, is going back to his first love, the Chicago & Northwestern, in the near future, or to be more correct after he has rested up from his trip around the world and the free and independent American voter has decided who shall be president of the United States next November. There is no other man at present footloose who is so conversant with the west. President Burt has every survey in Wyoming and Idaho stored away in his brain. He knows the west like a book, and when it comes to construction he is all there. The main line of the Union Pacific stands as a

lasting monument to his capabilities. Engineering problems are essentially Horace G. Burt's forte. The rumors of the extension west of the Northwestern have been in the air for several years. Quietly and without any fuss the project has been gone into until at last an invasion of the heretofore monopoly of the Oregon Short Line in Idaho is now seriously threatened. As an indication of the way the wind is blowing the following clipped from Monday's Boise Evening Capital News throws some light on the subject:

'F. L. Evans, the well known civil engineer, is now in the east consulting with the management of the Chicago & Northwestern rallway with "eferen to the early extension of their ling from its present terminus at Casper, Wyo, to Eureka bay, Calif, Mr. Evans writes that the company will build and equip 100 miles of line through Boise

within 15 months under certain condi-"These conditions and formal appli-cation will be presented to the city council by E. E. Forshay in a few days, or as soon after the arrival of Northwestern officials in the city who are now en route here.

"The proposition, it is understood, represents a bonus of \$106,000, together with depot and side track privileges in Boise and right of way. The plan is proviously published in the Capital News contemplates a line from Casper, Wyo, through the coal fields of the Teton basin and some heavily timbered and rich mining sections in Lemhi and Elmore counties. It would apparently go through a country where rail-roads are scarce, fina'ly ending at one of the fluest harbors on the Pacific at Eureka ba

That the Northwestern is at least interested, and is willing to make Boise a proposition for extension, is of itself very encouraging and gives cause for much speculation on the part of Boise people, who have talked and dreamed of a competitive transcon-tinental line through here for years."

Martha Twiggs of 1535 south West Temple street, died yesterday at the age of 84 of general debility. The fun-eral will be held tomorrow at 2 p. m., from 1600 on the same street.

The aggregate of real estate sales this month surpasses the record of August of last year. This is encouraging to the local dealers, and particularly the fact that so much cash figures in the real estate transfers.

Cook Timothy J. Salvin of E company, Twenty-ninth infantry, has been honorably discharged from the service. Sergt, W. J. Ryan has been appointed first sergeant of E company, vice Sergt, Kotiluski discharged.

To fill vacancies caused by the pro-motion of Capt. Williams to be major of the First battalion of the First regi-ment. Company H. elected last night. First Lieut. Freeman to be captain, and First Court Fue Young to be second first Sergt, Eay Young to be second lieutenant.

The government engineers report that the Bear river has reached its lowest point, and the present discharge is 260 second feet. The engineers are survey-ing the lake, preparatory to inaugura-tion of the reservoir scheme there, ill enable it to irrigate 100,000 acres of land,

Councilmen Barnes, E. H. Davis, Hobday and Preece, of the committee on public grounds, accompanied by Land and Water Commissioner Ben D. Luce and Chief Bywater of the fire department, took a trip to Parley's canyon today to look after the city's property and other things in general up there.

A damaging flood is reported from Filmore where alfalfa and grain were injured, dams were torn out, and the town is now without a water supply. Quite a number of cattle were drowned in the canyons. People there lay the blame on the sheep which eat off vege-tation at the roots on the ranges, and this allows storms to sweep so much earth into the streams that they dam up, and then there is an overflow.

Articles of incorporation of the Utah Cement Products company of this city were Bled in the county clerk's office yesterday afternoon. The capital stock of the company is \$10,000, and its object is to manufacture cement paving blocks is to manufacture cement paying blocks principally for use in this city. The company will construct a plant near the present cement works and will in-crease its/plant as their trade demands. Councilman W. J. Tuddenham is pres-ident; W. H. Bintz, vice president; Wil-mar Evant, secretary and treasurer. may Evans, secretary and treasurer.

The convenience of having a custem house in this city was illustrated re-cently where a local busines man im-ported a trunk full of goods, only part of which were dutiable. The trunk was packed in Parls by a professional pack-er, and had it been disturbed at New York, the owner claims the trunk could never have been packed again. It came straight through to this city, and was unpacked in the presence of the im-porter and the surveyor of the port, and the \$4 duties quickly settled on and

Jone, Joseph Boyle of Bingham had a nar-row escape from death yesterday. He left Bingham with the Eagles en route ham Junction Boyle was struck by a failing trunk, and knocked into the right of way.
