LOCAL AND OTHER MATTERS.

BENEFIT AT THE THEATRE.—To-night Miss Kitty Blanchard, and Maura Rankin and Power will take a farewell benefit at the Theatre. A popular comedy will be presented on the occasion, consisting of the best time in the city, the dramatication of the late Charles Dickens' very popular novel "Nicholas Nickleby" and the charming comedy "Who Killed Koch Robin?" In the first piece Miss Blanchard will personate "Smike;" Mr. Rankin, "Noggins;" Mr. Power "Mantal," other characters being the members of the stock. In the second piece the playes will be sustained by Maura Rankin and Power, and Miss Blanchard, and Miss A. Clawson.

FRUIT AND FLOWERS.—Spring comes to transplant choice fruit and to make other horticultural and floricultural improvements, and the opportunities and incentives for doing so are much more plentiful than they were a few years ago, for we have skilful men in this line in this city, who can furnish the choicest varieties of fruit and flowers that can be produced in that climate and temperature. Among those may be mentioned Mr. Thomas Pennington, and Mr. John Readling of the 10th Ward. The first named gentleman is busily engaged for his line assortment of budded peaches, early peaches, as well as several other varieties of fruit, and the most magnificent assortment of roses, and other flowers that grow out doors, in this city or the Territory, which he offers for sale to the public in any desired quantity at moderate charges.

Mr. Readling has some choice varieties of fruit, but has repudiated at present, most of the flowers, shrubs, etc., he has in his house, having a large house now filled with the choicest kinds of which is impossible. All who want to purchase in this line, had better go to visit to his home, where they will stand a good chance of being suited there, as in any other place in the city or neighborhood.

HARD CASE.—Yesterday, a man known about the city as "Major Graham" had a preliminary examination before Altemann Clinton, charged with rape, seduction, etc. At the close of the proceedings, which was held in \$1,000 bail, it was agreed thus morning for a continuance of the investigation.

This morning the case was continued, and the evidence was deemed sufficiently conclusive to warrant a nominal trial or trial at the next term of the Court. He was bailed at \$1,000, until, up to the time of going to press, we understand, he had not been able to procure

another. In yesterday's news there appeared a notice about the son of Brother George W. Crossen, leaving his home in this city, on the 10th instant, and offered one dollar reward for his restoration. The advertisement had the desired effect, and this morning the youngster was restored to his parents. The boy stayed in this city until the night before last, and then went up on the Utah Central to Ogden, where he got into trouble with a gang of rowdies, and asked his wife for foot. Brother Harricks, having seen the advertisements, noticed the boy, and detained him, and on making inquiries became satisfied that he was the runaway. Brother Harricks telegraphed to his father, and brought him home by this morning's train, on the Utah Central.

THE UTAH PHILHARMONIC SOCIETY.—The third meeting of the Desert Philharmonic Society was held in the City Hall last night, when the organization was completed, and the names of members enrolled. The Society may now be considered in working order, and classes will be immediately formed, and study and instruction in vocal and instrumental music commenced as soon as possible. David O. Calder, Esq., was elected President of the Society; A. C. Price Vice-President; Professor George Crossen, Conductor, and G. W. Crossen, Secretary. The admission fee for membership is one dollar per annum. It is the intention to place the price of tuition, for those who attend the classes, at the lowest figure, so as to be within the reach of all who desire to avail themselves thereof.

THE "STARS" AT THE SALT LAKE THEATRE.—Figures say,

"At the Salt Lake Theatre the stars are D. McKenzie in Irish characters, and Sigur Farmi in piano solo.

Farmi has got things a little mixed.

SCANDINAVIA.—Elder W. W. Cluff, President of the Scandinavian mission, writing on the 20th to Elder Joseph E. Smith, of this city, says among other things, that he has organized Sunday schools in all the large branches throughout the mission, and both scholars and teachers are taking great interest in them, and they are proving a source of much good. The mission is prosperous; during the winter quite a number have been added to the church; and many more believers, who have not yet taken the lead of godly devotion, with the exception of 20° or 30° below zero, are ready to be baptized as soon as warm weather sets in. Elder Cluff's health is excellent and he enjoys his labor.

A WORD ON THE DISCOURSES.—Salt Lake is now passing through a phase, exactly similar to that which White Pine and many other mining districts have been. Extravagant reports of the richness of Utah's mineral resources, and discoveries have been trumpeted forth on every hand, and from every quarter, mines, especially gold, have been discovered. The miners, general experience is, and no doubt will be about the same here as it has been at other places in time of mining excitement. A few will be lucky, but many will be disappointed, and some a good deal of time, if nothing else, a little money, in their prospecting operations.

In several cases this feeling of disappointment has sprung from the fact that we have seen in the Gold Hill, Nev., the 21st instant, which contains an extract from a letter written by a Virginian, now in this City. The letter is dated the 14th instant, and the extract is as follows:

"I have been here a week, and don't remember to have passed a more miserable week in my life. It has been snowing every day since I came here. Last night three inches of snow fell, and for a change to-day the sidewalks are a sea of mud. There is no place to loaf except the billiard saloon, and it is the time for the meanest-looking Yank to get a seat. I have no money here in the whisky business if I could get a good location. There is not a good whisky man in the town, and people don't care much about getting whisky, general experience is, and no doubt will be about the same here as it has been at other places in time of mining excitement. A few will be lucky, but many will be disappointed, and some a good deal of time, if nothing else, a little money, in their prospecting operations.
