Since organization the former has loaned to its members \$1,007,447.00; and has paid to withdrawing members \$285,-491.40 in subscriptions and \$297,-995.37 in dividends. The Zion's still issues stock to those who wish to borrow, but not for investment or Salt Lakers Organize Company saving only. Because of this the To Develop Property in new society (The Descret) was or-manized. Its offices is at No. 18 East South Temple Street. Its of-ficers are: Nephi L. Morris, President; Hugh J. CONCENTRATES.

Samuel Newhouse may be home from New York by the middle of next week. The Talisman has a fourth car of ore on the way to market and is loading a fifth. A drift is being run southward on the 120 foot level in the property to atch the main fissure. Other porties of the mine continue to look splendid. Sugar, ewt. FISH.

The story is being whispered that the Lexington Concord is a trout big easterners are trying to get on their hooks. The story has it that a pay-ment has been made to bind an op-tion for control of the property. Presi-dent Fred R. Woolley is at the mine and the story cannot be confirmed.

stocks were merely nominal and resulted in a very dull market and little change. The metal stocks attracted most of the buying orders in the market but their rise had only a temporary effect in depress ing the heaviness of the railroad stocks Initial losses in the grain carriers were recovered but a subsequent fall of a point

in Canadian Pacific and Baltimore & Ohio and a sharp relapse in Union Pacific and

and a sharp relapse in Union Pacific and Reading affected the entire market un-favorably. Smelting, Anaconda and Amaigamated Copper retained the major portion of their advances of 13(2015; Be-tore the hour expired the list was re-covering. A sunden spurt in Union Pacific car-ried the Harriman and Hill stocks upward but had not much effect elsewhere. Union Pacific rose 25, the preferred 75; St Paul. Southern Pacific and the Hill stocks 15 to 15 and Reading 1. Prices were below the best at noon. Stocks that were most in favor during the earlier hours continued to gain, nota-bly Union Pacific and Southern Pacific. The rest of the list remined firm. samples taken from different parts of the property have shown average val-ues of \$60 in gold, 15 ounces in silver and 53 per cent lead. The mine paid \$20,000 during the short period its ores were being gouged out and from com-ments made and reports submitted by mining men and engineers who have ex-amined the property it is to develop into an excellent mine and one which will contribute the rapidly growing glory of Beaver county. An interesting fact is that a portion of the property is the old Federal Chief, located and so named by Gen. P. E. Connor.

loaded or put to a sudden strain. What caused this engine to pull apart is not known as things were running light and smoothly. The engineer had just stepped out of the engine room or he might have been killed by the flying bits of machinery. The mill will be shut down for two weeks and a big portion of the 30 millmen will be left idle unless enough work and "cleaning ly" chores can be found around the mill. If the needed parts to the en-gine are delayed in shipment it may mean a shut-down for the mine after the mill's bins are filled. This will leave the drain tunnelmen, alone, at the mill's ones are nucl. This whi-leave the drain tunnelmen, alone, at work. As the company is clearing its indebtedness by about \$50,000 each in interruption is a course of grief and everything possible will be done to have the mill running within a short line.

The Monte Carlo group, owned by the Orizaba Copper company, of which J. P. Olympius is manager, has offer-ed unusual encouragement to the company. The story is told that in cleaning out an old shaft Mr. Olym-pius exposed a vein with ore running 50 per cent lead and as high as 800 ounces in silver. The extent of the vein is not known.

Ernest Bamberger, manager of the Extress Hamberger, manager of the Ely Witch company's properties in Ely, is home after a trip to camp. A new steam hoisting plant is now run-ning, he reports and sinking will be resumed within a short time in the whize below the tunnel level. The winze dropped through copper ores running between 2 and 10 per cent copper and now that the mine is equipped with a holst, more depth is to be made in this stuff.

Articles of incorporation were filed Wednesday with the county clerk of the Ely-Copperton Mining company, with headquarters at Salt Lake. The capital stock is \$100,000 in a million shares of a par value of 10 cents each, and of this 400,000 shares are treasury stock. The officers have the program stock. The officers have a function of the transmission of the stock o Stringham, additional directors. The company owns mining claims in the Duck Creek district, White Pine county, Nevada,
