Movement to Annex British North America to the U. S.

Light Between U. S. Soldiers and Mexicans on the Texas Frontier.

News from France.

WASHINGTON.

Joint High Commission.

Washington.—There is trouble in the Joint High Commission over the San Juan boundary. The commission from the part of the two governments are no nearer a settlement than they were a fortnight ago. By the provisions of the treaty of '52, fixing the boundary line between the United States and British America from the Rocky Mountains to the Pacific ocean, it was stipulated that the line through Puget Sound should be in the center of the channel around the island of San Juan. There are two channels, the larger of which vessels can pass. It is claimed, however, that the surveys show that the northern is the main channel, while the British Government insists that the southern is the one referred to in the treaty. All admit that the island is not worth having, and neither government cares for it, because it is a subject in which the pride of both governments has been enlisted, neither will concede.

NEW YORK.

British North America.—Monroed a sight on the Texas frontier—in a state of siege.

The Tribune's special from Versailles, on Wednesday, says there was tremendous firing from the garrison of Vannes and Bay, yesterday night and this morning but no important news reaches Versailles.

Children are forming a Breton legion in Brittany. The Crown Prince of Saxony, at his headquarters, declares that he is in a state of siege, communication with Paris continues at Vannes.

It is rumored that the late pension out of this city has been making for some time, and some government funds were unaccounted for.

The French Canadians of New York who hold a mass meeting in favor of annexation of British North America to the United States, at the Masonic hall on the 11th. The English speaking Canadians who hold a mass meeting at the same place, at the same time, are invited to take part. The address of the committee claims that there are over three millions of French from Quebec to New Orleans, and expresses the opinion that most of these people will unite for annexation.

Several morning papers have special dispatches relative to a reported fight between U. S. troops and Mexicans, on the Texas frontier, but contain no intelligence additional to that already given.

CALIFORNIA.

Rich New Zealand Gold Sells.

SAN FRANCISCO, 12.—The Agor, with the Australian and New Zealand mails, arrived, and eighty-two passengers from Auckland are to March 7th, from Sydney to February 21st. Some claims in the Thames gold fields, New Zealand, have proved extremely rich, and the gold mania has again seized the community. The crushings of February yielded 30,740 ounces, and the parcels have been deposited in the bank by various companies.

The harvest in the south and middle islands is abundant. In Walkoto the field is forty bushels of wheat. Numerous discoveries of the same have been made in the north and middle islands. Hundreds of grouse and other English birds have arrived for acclimation.

The schooner Bonanza was wrecked on the coast of Otago and all hands were lost with the exception of the captain.

The steamship Empress, having the despatch mail on board, foundered at Pigeon Point on Feb. 21st, damage slight.

coming from Choleys le Rot, but were driven back on the Orleans Railway, which had been cut by the Versailles troops. The condition of Paris is unchanged. The Communists have been driven back. Resignations from the Communists continue. The Archbishop has written to Thiers, begging gentle treatment for prisoners. He has also written to the Communists, denouncing their tactics and the whole set as abominable tyrants or more probably downright fools.

VERSAILLES.—The coup de main arranged for last night was deferred till to-night. Thiers said it was doubtful if it could be done without bloodshed. The Assembly are enraged at the inactivity of the troops. At Valerien there was excellent practice last night. Two new guns have been added to the batteries to bombard Paris at the far end. The Tribune's correspondent at Rouen, on the 12th, says Fabrice goes to St. Denis to-morrow with troops, to establish his headquarters.

Thiers, in a circular of the 12th, describing the situation as mainly unchanged, says the government will not act at the present time. He says it is alleged the Paris delegates who arrived were not arrested, not because of their being Communists, but because they were Republicans. My answer is, no one manages the Republic but assassins. The Communists must be suppressed as in America.

Marseilles is quiet; the police are reorganizing.

PARIS, 13.—The *Ori du Peuple* says the Versailles troops are driven from Neuilly and are flying to Courbevoie. The Versailles attack yesterday was a failure. There was an intermittent cannonade all night, but it is more violent this morning. Valerien is firing heavily. The Communists encourage the wearied troops.

VERSAILLES, 13.—The alleged Communist victories are unfounded. There was no engagement on Tuesday or Wednesday, only an insurgent fusillade. The Versailles troops occupy all the roads leading to Paris.

GREAT BRITAIN.

LONDON.—The Times' special from Versailles says a column of insurgents has advanced to Glanville unopposed. Thiers opposes disjunctive action till 50,000 men are added to the army.

The Tribune's special dispatch says Dombrowski's special dispatch says that he occupies three-quarters of Neuilly.

A letter of Guisot, on the state of France, approves the conduct of the Assembly. It insists the struggle will be short and is confident the result will be certain and decisive.

The Times' special dispatch says the Versailles troops attacking the southern forts are greatly augmented. The federalists surrounded 3,000 gens d'armes near Asnieres. Their capitulation is thought probable. Dombrowski declares he will force Neuilly. Edinburg says Thiers opposes conciliation as he thinks success is certain.

LONDON, 13.—The English consul at Paris has warned Englishmen to leave the city.

It is reported that Asg and Bergeret are condemned to death by the Communists for high treason. The Communists to the national guards is increased to three fives daily.

The sale of railway tickets from Brussels to Paris is stopped. It is rumored that Ducrot is disaffected to the government.

HE WHO HUNG A GUN ON HIS GAITERS.

One moderate-sized plum pudding is said to contain 25 first-class cases of dyspepsia.

Why is a tailor who does all manner of work, for all kinds of customers, like a principal drain? Because he is a common sewer.

"Did what you please, gentlemen! Did what you please!" an auctioneer kept crying, until, as if by common consent the crowd exclaimed, "Very well, then, we said you good day!" And off they went.

"This milk is rather warm for such a cold morning," said a customer, the other day, to a milk boy. "Yes, father put hot water in it, instead of cold, to keep it from freezing," was the simple but truthful reply.

A Detroitier who took a flask of whiskey with him on a shooting trip, straggled a race track on the suburbs on his return, and walked round it all night, wondering why he didn't get to town.

The projectors of the Tweed monument propose to place on it this Latin inscription: "Guillelmus Marcy Tweed, obitus 2. Martii, 1868, Erigunt Erigunt—You know how yourself."

A benedict advertises his wife for sale, warranted sound and kind, his only reason for disposing of her being that he feels his own uneducational inferiority. If his husbands should die, the wifeless husbands would make an overwhelming majority.

A young lady who was employed in braiding a guard chain for a gentleman's watch, was asked what it was for.

"A bell rope," replied she.

"I acknowledge it is a bell rope," replied he, "and a pretty one too; but I suspect we shall find a bell attached to it when it is finished."

A gentleman having a pony that started and broke his wife's neck, a neighbor, known as Broadbent, brother of Blair Athol, for the sum of £1,000 sterling money, or \$5,000 in our currency.

Madame Celeste, the veteran actress, so well known on the American and English stage, has closed her long career. On the 17th of December, at the Adelphi Theatre, London, she made her farewell appearance, after having been on the stage for over forty years.

Should the French indemnity to Germany be paid all at one time in gold, a train of freight-cars one and three-quarters long would be required to carry it home, and a train of twenty-six English miles if paid in silver. If distributed in gold, each one would receive five pounds, and sixty pounds if distributed in silver. The gold would be carried in ten freight-cars, carrying 10,000 pounds each, would be required to carry the indemnity to Germany.
