## EDITORIAL NOTES.

This year it is anticipated that Minnesota will ship some 50,000,000 bushels of wheat. In 1879, 324,179 acres were planted in corn, this cerial averaging the Temarkable figure of thirty-five bushels to the acre.

The San Francisco Chronicle remarks: "The Quakers, are decreas, ing in numbers in Great Britain, for the reason no doubt, they are no longer ill-treated on account of their opinions. Nothing builds up a religious sect like abuse and persecution. Blgots should remember that fact." ("Mormon"-eating "Christians" should paste this item in their Sunday hats.

Four years ago, as now, the nation stood at the threshhold of a Presidential election, and the republican party in soliciting the continuance of its ascendancy found its hope of success, not upon its promise, but upon its history. Its subsequent course as been such as to strengthen the claims which it then made to the confidence and support of the country. On the other hand, considerations more urgent than have ever before existed, forbid the accession of its opponents to power. Their success, if success attends them, success, if success attends them, must chiefly come from the united support of that section which sought the forcible discuption of the Union and which, according to all teach-ings of our past history, will demand ascendancy in the councils of the party to whose triumph it will have made by far the largest contribu-tion.
