

same time he looked at me and said, "I believe you've got some." I took out my purse, which only had 25c and some buttons in. He said, "I don't want that." Brother H. then said to him, "I would like to have that chain back, as it was a present to me from my father." The robber said, "If I thought you were telling the truth, I would give you your chain back." Brother H. assured him that it was the truth, so he told Brother H. to stand where he was and look where he dropped the chain, after which he rode off.

We immediately walked up to Mr. Gilbrith and to him related what had just happened. He advised us to go to Bokosha, and get out a warrant. After taking dinner with Mr. Gilbrith we at once proceeded to Bokosha, where we met Mr. Glasson, who is the notary public. He told us that he would do all in his power to capture the young desperado.

Respectfully yours,
Jos. Wood.

The question was fully discussed in all its bearings, viz: What Logan had to offer in the way of freight and passenger traffic; what concessions, such as right of way, depot facilities, etc., Logan City was willing to offer, and if there was a feasible route through Logan. A committee composed of five of the leading citizens was selected to compile all necessary information and afterward to confer with the authorities of the road.
