EASTERN DISPATCHES.

Long Branch, 2.—The attendance at the races to-day was immense. The first race, a half mile dash, was won by Morris' "Mollie Jackson," time 51; seconds. The second race, for a purse of \$600, mile heats, was won by Harper's "Littleton," beating Lawrence's "Lochie!" and McDaniel's "Abdel Kader;" time 1.45, 1.45, 1.49. The great event was the Monmouth cup, 2; mile dash; twelve entries of \$50, play or pay, added to a purse of \$1500. The only starters were John Harper's "Longfellow" and McDaniel's "Harry Bassett." In the poels on the ground "Bassett" sold for 1800 to "Longfellow's" 1000, and subsequently 2000 to "Longfellow's" 1200. There was great excitement as the hor-Long Branch, 2.—The attendance There was great excitement as the horcitement of the spectators was intense.
For a mile and a half the position of the horses was unchanged; but "Bassett" appeared to be doing his best, while "Longfellow" was evidently running under a pull; and as the horses a second time thundered past the grand stand, "Longfellow's" rider let him go, and two lengths soon separated the flying steed, while the excitement rose to an indescribable pitch, men cheering wildly and throwing their hats in the air, while the ladies waved their hand-kerchiefs and bet countless pairs of gloves on old John Harper's favorite From the mement"Longfellow's" rider to so foolish a business; and the quicked.

Now, if Mr. Jones has sense enough left to comprehend the situation, and candor enough to acknowledge his error, there is no reason why he and Mr. Brown may not sit down and smoke many a pipe together in their old age, and be very good neighbors. And if any of Jones' friends should accuse him of backing down and surrendering, etc., they would simply show them-below the enemies of good neighbors. And if any of Jones' friends should accuse him of backing down and surrendering, etc., they would simply show them-below the enemies of good neighbors. And if any of Jones' friends should accuse him of backing down and surrendering, etc., they would simply show them-below the enemies of good neighbors. And if any of Jones has sense enough left to comprehend the situation, and candor enough to acknowledge his error, there is no reason why he and Mr. Brown may not sit down and surrendering of backing down and surrendering, etc., they would simply show them-below to acknowledge his error, there is no reason why he and Mr. Brown may not sit down and surrendering of backing down and surrendering of "Bassett," it was evident that all was up with the latter; and though his rider plied whip and spur without stint, "Longfellow" drew steadily ahead, increasing his lead until the finish, when he came in an easy winner in 4.34, or as some of the judges claim, in 4.33; and nearly twenty lengths ahead of "Bassett." The enthusiasm of the called on him and he drew away from | er he gets rid of them the better. western men was unbounded. They crowded around Harper cheering and congratulating the old man, who seemed to be laboring under great excitement. Immense sums were lost on the race by New Yorkers, John Morissey is among the heavy losers. The day's races are acknowledged the finest and best conducted of the American turf.

WESTERN DISPATCHES.

Small-pox is decreasing in San Fran-Jones, who threw himself from the Eastern bound train near Elko, a few days since, was a member of the Mount Diablo lodge I. O. O. F.

San Francisco, 2.—The railroad mass meeting last night was addressed by Hon, Edward Aldrich, Hon. D. C. McRuar, R. G. Sneath, C. T. Hopkins, Hon. T. G. Phelps, Wm. H. Sears, Jas. Daws, and Irving M. Scott. Resolutions were adopted which fully endorse the thirty-fifth parallel enterprise, and

conclude as follows: German players are invariably addicted to regarding quantity as the first element of tone, and thereby they cannot remove from their playing that harshness of tone which is suppose to be unavoidable in brass instruments. Godfrey's band is the only one I ever heard, with the exception of the Austrian Imperial Band, that can give a velvety richness of tone to everything they play.—Cor. New York Herald.

Three Austrians have viscosited and private subscriptions, to secure the sum of, at least, ten million dollars for the purpose of constructing such road.

Resolved, That A. Haywood, R. G.

Dysentery.—As this disease prevails at this season, we copy the following remedy: A spoonful or two of pure raw wheat flour thinned with water so it can be easily drunk. Three or four doses taken at intervals of tan or seasons.

We are none of us over-learned in the law, or overcharged with common sense; but whatever of the latter we may possess we may practice without a license, and ask no favors of High Commissions or Boards of Arbitration. flavored with some drops not seid.—

Washington Star.

Cure for drunkenness.—A mixture made up as follows, and taken in quantitles equal to an ordinary dram, and as often as the desire for strong drink returns, will cure the worst case of drunkenness: sulphate of iron, five (5) grains, peppermint water, eleven (11) drams, spirits of nutmeg, one (1) dram. The preparation acts as a tonic and atimulant, and so partially supplies the pisce of the accustomed liquor, and prevents the absolute physical and moral prostite absolute physical and moral prostite in the second of the accustomed liquor, and prevents the absolute physical and moral prostite in indirect or consequential damages widen like the waves from a dropping of the indirect or consequential damages widen like the waves from a dropping of the indirect or consequential damages widen like the waves from a dropping of the number of atimulating drinks.—

Ex.

Subsequently he prosecutes Mr. Brown for consequential damages, charging him: First, With the ruin of his wife's health, and the loss of her housewifely services.

Second, With the loss of the labor of two boys for a given period of years.

Third, With the cost of the liquor which his domestic trials have induced him to drink.

tice that he has no case, that such a thing as an estimate and statement of ses were led upon the track saddled consequential damages are impossible to

and mounted. "Bassett" drew inside a finite mind, and that he cannot read a start was effected with little trouble, both horses getting away together. impertinent to state that Mr. Brown, and a start was effected with little trouble, both horses getting away together. For the first half mile they ran neck and neck; if there was any advantage it was in favor of "Bassett." As the two horses, warming to the werk, passed the grand stand side by side, the excitement of the spectators was intense. Cognize his claims. Fernaps it is not impertinent to state that Mr. Brown, who becomes very angry at learning what Mr. Jones is trying to do, would save his dignity by simply laughing at a claim which in the pature of the case can never be reduced to figures and never satisfied.

Now, if Mr. Jones has sense enough

land in Scrioner's Monthly.

Bee Culture

The commencement of true and successful bee-culture dates with the use of movable comb bee-hives; and it is only a few years since such culture began to be rapidly extended in this country. The importation and breeding of the Italian bee marks the second era. This feature did not assume anything of a general character antil about five years ago; but since that time great progress has been made. The third era has been marked by the invention and use of the honey extracting machine, and it may be said that the present year is the time of its coming intosomewhat general use.

These three steps are all very important, and each marks a distinct advance in bee-culture. Previous to the introions were adopted which fully endorse the thirty-fifth parallel enterprise, and conclude as follows:

Resolved, That it is the manifest duty ere hived their swarms into boxes or of the people of California, by public gums, and set them beside the parent to make the total subscription, public always their masters. No bees are and private, in all California, equal to brimstoned, but an abundance of honey the sum of ten millions of dollars in is taken in boxes or frames, and the in-

currency, payable only as the work progresses.

Resolved, that it is the sense of this meeting that our board of supervisors should take no action whatever at the present time in relation to the dispositions and re-filled and re-emptied, and re-filled and re-emptied, cesfully made in the fall, after the honey harvest is over, and these divided colonies wintered with less consumption of honey, and with greater increase of bees, than by the original method indicated by the instinct of the beer. And thus, as it were, we may get the benefit of increase a whole year in advance of its natural occurrence. Verily, we may say, where shall the end be?—Country Gentleman.

> Bees.—Make preparations this year to procure at least one hive of Italian bees. The introduction of this bee is a new era in bee culture, and san FRancisco—California Trust Co. will be found every way superior to the old variety of black bee.
>
> In this land of flowers no one should be without a few hives .- Ex.
