RESULTS OF GAMES IN GRADE SCHOOLS LEAGUE \$

Three lively ball games were played in the grade school league yesterday afternoon and all were well attended. The youngsters are showing up in great form and the race for the championship prom-ises to be a lively one. One game scheduled for yesterday was not played. The Franklins failed to put in an appearance to cross bats with the Washingtons and the game was forfeited to the latter. The Lafayette team defeated the Wasatch youngsters by a score of 13 to 7 on the Eighteen ward square grounds. The battery for the winning team was composed of Williams and Moore. The Jackson nine defeated the Onequals by a score of 10 to 2, the winning attery was Simpson and Spry. The Lincolns won from the Grants 12 to 2, Spaint and Grif-fith being the battery. well attended. The Infermodification Descent and the search was opened yesterday afternoon at Walker's field with a game between Helena and Salt Lake, and at Boise teams. In cach instance the visiting ball tossers sored a victory. Helena won by a score of 3 to 6, while Bette won from Boise, 5 to 4, Huston's Bette won from Boise, 5 to 4, Huston's Stators won because they played better ball all the way through, and it was cuite apparent the home team has not yet got into its stride. Some of them playeds will wer off and there is plant with will wear off and there is plant, and there is played on Walker's field but it was good enough to hold the attention of over a thousand fans and none of the latter should become disgruntiled because Salt fars ball was pitched by Mayor Brasford and caught by "Charley" Grif-

Bransford and caught by Charley Charley in the country. Johnson was on the slab for Helena and while he was hit frequently he pulled out way ahead of the Salt Lake writers. Waits started for the locals, but was wild nad seemed unable to court the sphereoid. He was replaced by that who did better but was pounded all over the lot. There is really nothing much to tell point the sphereoid. He was replaced by that who did better but was pounded all over the lot. There is really nothing much to tell point the same. GOING TO PARIS.

Sandy Ferguson Has Match With Joe Jeanette in French Capital. New York, May 5.-Sandy Ferguson, the Boston puglist, who was given a 12-round draw with Sam Langford last week in Boston, is on his way to Paris to fight Joe Jeanette, it was announced last night. Ferguson has apparently an-ticipated Langford and Jim Barry, who are also on their way to Europe and who expected to make arrangements for con-tests with Jeanette, who recently defeat-ed Sam McVey in a ab-round fight in Paris.

ed Sam McVey in a spround fight in Paris. Immediately after his fight with Lang-ford. Ferguson received a cablegrein from a French promoter offering him a 20-round contest with Jeanette in Paris on May 15. Ferguson accepted the offer, said nothing about it to any one, and sailed as quickly as possible. When Langford sailed from New York a few days ago he suid that 12 he de-feated Ian Hague, the new English heavyweight champion, on May 23, he would go immediately after Jeanette. If Ferguson defeats Jeanette he will mix up the heavyweight situation in England and France to a puzzling degree. He wants to fight the winner of the Long-ford-flague fight, and is also anxious to force Jack Johnson into a mixup eith-er in London or Paris.

Troubles of Spalding.

rowing trip over the course and his ad-vice to automobilists contemplating the trip at this time is somewhat like the advice given by Puck to a man con-templating matrimony—"DON'T" When Mr. Spalding left for Gunnison he started from this city at 9 p.m. and did not reach Provo until 2 o'clock the next morthing. He has made the run over the entire distance between Salt Lake and Gunnison, a distance of 146 miles, in seven hours' running time. In the recent trip Mr. Spalding left his car at Gunnison and will send another down tomorrow. He had guite an experience during the involved a chase after a runaway horse for about 10 miles. He chooses the night time for the run because the road is clearer and there are no fractious teams to be frightened. "You meet a bunch of women driving horses and an automobile comes along the horses and the women get frighten-ed. The horses run away and the wo-men throw out the lines, hold up their hands and scream and—there you are. On this last trip a norse attached to a light wagon became rrightened and ran away. The woman in the rig was throw out but not hurt. I picked her up and then started after the runaway and then started after the runaway in discussion of the runaway and then started after the runaway and then started after the runaway and then started after the runaway and then travel of miles to get the beast, and then I had to hire a man to drive the borseback. That's the reason i would rather make the trip at night. I would not advise any auto owner to attempt the trip now. I think it would be a good idea to wait until some time in July and then make the journey by easy stages."

Good Class Game of Ball Played on

Cummings Field.

There was a good game of ball on Cummings field yesteraay afternoon be-tween the sophomores and freshmen teams. The game was interesting despite the one-sided score. The sophs won by a score of 14 to 3, a feature being the good work of Loofbourow in the box for the winning team. The sophs are now tied with the juniors in the class series and these two teams will clash for the championship. The teams lined up as follows:

The Illinois Athletic club has sathered a slib purse with a privilege of a percentage of the receipts. If the two can be matched the bout will take place in the Illinois Athletic club gymnasium May 2. Both wrestlers have downed George Bothmer, former holder of the tieffe, and Illinois Athletic club mem-bers think the match would be a ban-ber athletion.

Nearly all the wise men who have money invested in baseball shared in the greatest harvest of profits last year and are looking to the season of 1909 to make a record "killing." So intense was the interest in the national game last season that it did not lag or halt during the winter. The newspapers of the United States may be credited with much of this sustained interest, for never before since baseball became a factor in the current news of the day has the press given it so much prominence out of season. The proof of this is the remarkable attendance all the clubs practically without exception-are enjoying at the present time. In the National league throngs of 20,000 and as high as 35,000 people have witnessed some of the earlier games. Crowds of

These figures attest the interest in the greatest of American sports. ment in this city." Officials of the Chicago Automobile club have secured about an even dozen entries each for the Cobe trophy and light car races to be held over Indiana highways about June 18-19, and a number of prospective nominations are in sight. That the contests will be representative of the American automobile industry is assured, although some feeling exists in the minds of makers of very high pow-ered cars, some of which have been har-red because of rules relative to pis-ton displacement. A number of the driv-ers who will take part in both contests already are making dally runs around the course, which is about 23 miles long and has several hnd tuent. The races will be a question of driving as well as capacity of the cars.

canacity of the cars. A unique event in mortoring circles is the tour of the Maxwell-Briscoe Motor club in June. It is Interesting to note that the cars will be of the same make, and from present indications a large number will be in line. The tourists will leave New York on Monday, June 14, and run via Tarrytown, New Haven, Waterbury to Springfield, and thence through the Berkshires to Poughkeepsie. The route then lies through Port Jervis and the Delaware Water Gap to Phil-adelphia and Atlantic City where the tourists will spend Sunday, the 20th. The next day they will return to New York via Lakewood. A feature of the tour is that it is conducted primarily for pleas-ure alcae: the running schedule aver-ages less than the hundred miles a day. An element of competition will be intro-duced, however. A handsome cup has been given by Mr. Horace De Lisser, president of the Ajax Grieb Rubber Co, which will be one week in duration. The route lies through the most attractive sections of the traversed states and a large number of entries are expected.
