

HAD TO CLOSE DOWN

The Mammoth and Sioux Consolidated Mills Were Motionless Yesterday.

20 WATER WAS THE CAUSE
 Owing to a Break in the Pipe Line—
 Good Trading on the Exchange—
 Dips and rises.

Special Correspondence of the NEWS.

MAMMOTH, Feb. 11, 1897.—For the first time in several months the Mammoth and Sioux Consolidated mills were forced to close down on account of having no water.

It appears that about a clock this morning a cap blew off the huge pipe which runs from Cherry creek to the mill, a distance of some twenty-two miles. The breakage occurred some five miles from the Mammoth mill. Superintendent Pat Donohue and a lot of men checked the broken pipe and the pipe line has now been entirely repaired and both mills resumed work at 5:15 tonight.

Water was very scarce today among the residents here, several of the saloons keeping having more whisky on the premises than water.

The Mammoth mill is still running, as shown from the Utah and Sioux Consolidated in their huge ore wagons on sleigh tracks.

The Sioux-Alex tunnel is about half a mile to length. No one is permitted in the great tunnel except the employees and managers. This morning there is a large crew, but it is not yet it will be only a matter of time until some rich discoveries therein will be made.

The new gasoline engine at the Mammoth is about to be put to work. The property is showing nicely and may soon come to the front.

The Tennessee Hotel is being worked by a small force of men and the new engine started in the morning. The shaft is down about seventy-five feet and present indications are very favorable.

The Utah company paid its employees last evening and the Grand Central distributed checks to its employees today. The latter property is in excellent shape and some shipments will soon take place.

The Lumber Mammoth Mining company is about to start a new shaft on the south side of the mine at the mine. Superintendent Frank Adams has resigned his position, his duties being taken over by Mr. J. H. Adams.

The Mammoth is considered to be a fine looking spring in the heart of the Alps. Considerable work has been done, but as yet no strike of importance has taken place. The new shaft will be worked tomorrow, having arrived here today.

Mr. Dail of the Mammoth Record is soon looking like a happy man.

NEWS FROM BOHNS.

The Emerald and its Condition—Also the Emerald Tunnel Company.

Bohns, Feb. 11, 1897.—The Emerald mine in Mammoth is now in a satisfactory condition. The shaft reached the bottom level last Friday evening, and the mine has been making good headway the past few weeks. The men are still sinking through some water, but are now making five feet a day. The boiler which arrived some time ago is ready for work as soon as the miners get down to a level where it will be of use. The engine and boiler are all in good shape and ready for business. Superintendent O'Connell is well pleased with the good showings at the mine, and it is only a matter of time until the Emerald strikes some good pay ore. The machinery at the property is of the finest kind and works like a charm.

THE TWINNERS TUNNEL COMPANY.

The new company known as the Twinners Tunnel company at Bohns, will start a large tunnel in a few days. The company has several claims lying west of the well known Mammoth property. The tunnel is to be run right through the mountain, between the huge mountains of quartz, and the line lying north and west, and the company's incorporation is a large one, viz., 500,000 shares at a par value of \$1 each. Mr. W. H. Mason of Bohns will be president, and several other well known gentlemen of the camp will make up the company. Several large blocks of the stock have already been subscribed for by eastern capitalists and the company will prove an enterprising one without doubt.

THE STOCK EXCHANGE.

Trading Good in the Pit Today—Also and Buckeye's sell Well.

Rich trading characterized the proceedings on Exchange today and the quotations of some of the broken showed that they were in the pit to gather a goodly supply of some of the more promising stocks that were thrown on the market at nominal prices. The day's business aggregated 6,000 shares, the selling value of the same being \$2,350.

Alex sold quite freely at Bohns trading from 75 to 77 cents a share, while at the close the stock was strongly bid at 77 cents. Bullion Beck took a sudden jump and went to 1.25 in the morning, although holders did not offer to sell under \$9. Daly was strong and received a bid of \$9.40, with the stock on an offering at \$9.40. West was also well thought of and advanced a few cents from its bid of \$12.25 yesterday. Graham was a seller at \$12.25 and a strong bid of \$12.20, while Meyer stock advanced to \$12.25 and was quite freely bid for at \$12.25. Meyer received a bid of \$12.25, but the stock was a seller and advanced.
