

## P. M. GEN. PAYNE DIED LAST NIGHT.

The Cause of His Death Mitral Valve Trouble and Dilatation Of the Heart.

HIS FUNERAL WILL BE FRIDAY.

Geo. B. Cortelyou Will be His Successor—His Appointment Was Determined on Several Months Ago.

Washington, Oct. 4.—Henry C. Payne, postmaster-general of the United States, a member of the Republican national committee and a stalwart of his party, with whose history he has been identified for many years, died at apartments at the Arlington hotel at 6:10 o'clock this evening after an illness of several years. He was 60 years old. The end was peaceful. The cause was mitral valve trouble and dilatation of the heart.

Around Mr. Payne's bedside at the

HENRY C. PAYNE.  
Postmaster General, Who Died Last Night.

time of death were his devoted wife, Rev. Dr. Dunlap, pastor of St. John's Episcopal church, Maj. and Mrs. W. S. Cameron of Jamestown, N. Y., Mr. and Mrs. Winfield Cameron of Milwaukee, Charles L. Jones and Miss Louise Jones, relatives; Private Secy. Whitney—Miss Mary Barrelyer, an old companion of Mrs. Payne; Mr. and Mrs. W. L. Mason of Washington, old-time friends of Mr. and Mrs. Payne, and the faithful colored messenger at the department of the postmaster-general.

Stricken with an attack of heart trouble last Wednesday his condition rapidly became extremely grave. A succession of sinking spells of increasing severity and depressing effect followed, but the remarkable manner in which Mr. Payne rallied from these spells and the responses of the heart action to treatment gave a little temporary encouragement. His close relatives were summoned to Washington as early as last Thursday.

Never in recent years robust, Mr. Payne was unable to withstand the shock of the sinking spells, and last Friday, when he had two sinking spells, it was believed that he was rapidly approaching the end. While moderate doses of heart remedies sufficed at first, it became necessary by Sunday to give much more powerful stimulants, and the doses were given in greater quantities than on any previous day.

Mrs. Payne, the devoted wife, remained constantly near her husband, rendering every possible aid, comforting him and holding the best. She bore up with remarkable fortitude, and not once did she leave their apartments. Mrs. Payne and the members of the family and Doctors Magruder, Grayson and Rixey were at the bedside when the end came. The postmaster-general had been unconscious for two or three hours previously.

When Mr. Payne had breathed his last, Dr. Magruder led Mrs. Payne out of the room.

Throughout official Washington and

## INTERESTING FACTS.

For Nearly Every Man, Woman or Child.

A short time ago we published an article recommending to our readers the new discovery for the cure of Dyspepsia, called Stuart's Dyspepsia Tablets, and the claims then made regarding the wonderful curative properties of the remedy have been abundantly sustained by the facts. People who were afflicted with the most serious cases of dyspepsia and who had tried every other remedy advertised in the newspapers and were finally induced to give Stuart's Dyspepsia Tablets a trial were surprised and delighted at the results. In many cases a single package costing but a few cents at any drug store made a complete cure and in every instance the most beneficial results were reported. From a hundred or more received we have space to publish only a few of the latest, but assure our readers we receive so many commendatory letters that we shall publish each week a fresh list of genuine, unselected testimonials and never publish the same one twice.

From James Vermorel, La Crosse, Wis.: "Stuart's Dyspepsia Tablets are doing me more good than anything I ever tried and I was so pleased at results that I gave several boxes to my friends who have also had the same benefits."

From Jacob Anthony, Portmurray, New Jersey: "I have taken Stuart's Dyspepsia Tablets with the best results. I had Dyspepsia for 8 years and had taken a great deal of medicine, but the Tablets seem to take right in hold and I feel good. I am a farmer and time burner and I heartily recommend to everyone who has any trouble with his stomach to use these Tablets."

From Mrs. M. K. West, Preston, Minn.: "I have received splendid good effects from using Stuart's Dyspepsia Tablets. I gave one-half of my last box to a friend who also suffered from indigestion and she had the same good results." From Mrs. Agnes K. Rulston, St. Paul, Minn.: "I have been taking Stuart's Dyspepsia Tablets and I am very much better, and feel very grateful for the great benefit I have received in so short a time." Stuart's Dyspepsia Tablets are a certain cure for all forms of indigestion. They are not claimed to be a cure-all, but are prepared for stomach troubles only, and physicians and druggists everywhere recommend them for the relief of all cases of Nervous Dyspepsia, sour or acid stomach, heartburn, bloating or wind on stomach and similar disorders.

## Put on Ayer's and be proud of your hair

A little pride is a good thing. Then why be contented with thin, scraggly hair? faded, gray hair? Put on Ayer's Hair Vigor and have long, thick hair; beautiful hair, without a single gray line in it. Why not have a little pride?

In the private circles in which Mr. Payne moved, deep solicitude was manifested. President Roosevelt, whose friendship for Mr. Payne extends back a number of years, was a daily caller at the hotel, and was kept constantly advised of Mr. Payne's condition. Mrs. Roosevelt, too, was unremitting in her inquiries, and called sometimes twice a day, offering comfort to Mrs. Payne.

Mr. Payne, in the capacity of member of the Republican national committee, had participated in six presidential campaigns, and during the last four of them was a member of the executive committee of the national committee. He was the acting chairman of the na-

tioning the affairs of the postoffice department will devolve on Mr. Wynne, who has just returned, with Mrs. Wynne and their two young daughters, from an extended trip to Europe.

## PISTON BURST.

Instantly Killed a Man and Horse In the Shop.

Tacoma, Wash., Oct. 4.—While several men were endeavoring to expand by heat a piston in the blacksmith shop of the St. Paul and Tacoma Lumber company this morning it burst with terrific force, one piece instantly killing John Cameron and a horse in the shop. Three other men, all heads of departments, were slightly injured.

## Montana Labor Endorses Parker.

Helena, Mont., Oct. 4.—The state central committee of the Labor party today endorsed the Democratic presidential electors and their names will be on the official ballot under the Labor and Democratic headings.

## CHRISTIAN SCIENTISTS.

Legality of Their Practice Upheld by New Hampshire Courts.

Concord, N. H., Oct. 4.—The legality of the practice of Christian Science in New Hampshire was upheld by the supreme court of this state today in a decision handed down in the suit of Mrs. Jennie Spauld of this city to recover damages for alleged injuries as a result of treatment by Irving W. L. Tomlinson, a Christian Science practitioner, alias of Concord.

Mrs. Spauld alleged that Tomlinson had failed to cure her and that her cure was greatly delayed by the time spent in taking his treatment.

In substance the court holds that the practice of Christian Science is legal, and that the patients who have resorted to such treatment cannot recover any damages in case the practitioner uses the accepted Christian Science methods of treatment.

## AMERICAN SQUADRON.

No Public Courtesy Shown it on Its Arrival at Gravesend.

London, Oct. 5.—The Daily Graphic alludes editorially to the absence of any public courtesy toward the officers and men of the American European squadron, which arrived at Gravesend Sept. 24, and which it accuses on the ground that London is so huge that it is difficult to organize collective action. The paper urges that the opportunity should not be lost to display national good will, and suggests that if the leading naval men of London or of the service clubs would take up the matter and organize an entertainment committee ample rapport would be immediately forthcoming to secure the success of the movement.

The American vessels now at Gravesend are the cruisers Olympic, Cleveland and Des Moines, Rear-Admiral Jewell in command.

## To Prevent Consumption.

St. Louis, Mo., Oct. 4.—Preventive legislation was the subject which opened the discussion at the second day's session of the international congress on tuberculosis. The speakers told of ways and means that might be enforced through legislation for the prevention of infection and spread of consumption. The papers presented and ensuing discussions dealt with legislation compelling state and national governments to closely inspect not only public buildings and vehicles of transportation, but also the schools. It also was advanced that beneficial results would be attained by the segregation of tubercular patients in insane asylums and hospitals.

The session was opened with an address by Clark Bell, LL. D. of New York, and discussions followed.

## Special Red Cross Magazine.

Mulden, Oct. 4.—Arrangements have been perfected for the issue of a special illustrated Red Cross magazine at Christmas. All of the papers, presenters and artists, including the American correspondents, have agreed to contribute.

## Gold Standard for China.

San Francisco, Oct. 4.—Prof. J. W. Jenks, commissioner on international exchange, who was sent by the president to China to study the monetary systems of the orient and suggest the needed reforms, returned on the steamer Mongolia. Although disinclined to talk on the subject of his investigations until he had submitted his report to the president, the professor declared his belief that in a very short time China would formulate the gold standard and thus place herself upon a level with the leading nations of the world.

## Robert Romaine in Prison.

Topeka, Kan., Oct. 4.—Robert Romaine, who confessed to complicity in the Independence and Vindicator outrages in Colorado, was taken to the Kansas penitentiary from here today. He will serve an indeterminate sentence for robbery. The Colorado officials have decided to drop for the present all notion of prosecuting Romaine for his alleged part in the explosions, as

## It's Easier To Cure, Than Endure Pain.

It is needless to suffer pain. It is easier to take a Pain Pill and be cured. If you will provide yourself with a 25c package of Dr. Miles' Anti-Pain Pills you have the means of preventing attacks of pain, as well as a positive cure.

If you are subject to nervous or sick headaches, neuralgia, backache, menstrual pains, stomach ache, indigestion, nervousness, if you have dizzy spells, sick stomach or headache while traveling—or sickness—all that is necessary is to take one of Dr. Miles' Anti-Pain Pills when first symptoms appear, or just before starting out to visit or travel, and they will soothe the irritated nerves, and free you from all these disagreeable affections.

In doing this you take no risks, because they are perfectly harmless, and you will have no other evidence of having taken them than the knowledge that you are free from pain. They relieve and cure by reinvigorating and allaying the irritation of the nerves, and by stimulating the secretions.

"I am glad to find the relief that comes when the terrible headache that I have had all my life. All I have to do is to take one of Dr. Miles' Anti-Pain Pills, and I am free from my sufferings of three, six or twelve hours duration." J. E. Davis, Prof. Nurse, and Health Officer, Turke Lake, Wis. 25c a package. Never sold in bulk.

FREE Write to us for Free Trial Package of Dr. Miles' Anti-Pain Pills, the New Scientific Remedy for Pain. Also System Blank. Our Specialist will diagnose your case, tell you what is wrong, and how to right it. J. E. Davis, Prof. Nurse, and Health Officer, Turke Lake, Wis. CO. LABORATORIES, ELKHART, IND.

## EUREKA BRAND BUTTER

## "NOTHING BUT BUTTER."

We are also manufacturing Hazelnut butter which is fancy. It is made from selected cream, best modern methods used in making it. This butter is wrapped with parchment, each pound enclosed with a paraffined carton which is sealed with an outside lithographic wrapper. Ask your grocer to get it for you.

they believe his confession is not true, and made with the sole purpose of evading punishment for the Kansas crime, and being taken back to Colorado.

## Senator Hoar at Rest.

Concord, Mass., Oct. 4.—The body of Senator Hoar arrived here this afternoon. The remains were taken to the First Parish church, where a short service was held, and then removed to the cemetery.

## Japanese Surgery.

San Francisco, Oct. 4.—Among the passengers arriving on the liner Mongolia from the orient was Maj. Louis Sanjuro, a surgeon in the United States engineer branch of the army, who has been studying Japanese methods of surgery in the campaign of the army against the Russians. In his opinion, Japan is far ahead of all other nations of the world in the organization of her sanitary branch of the army, and has been the first to anticipate and take measures against the fact that the greater number of deaths in war are caused, not by bullets, but by disease.

## SIR WILLIAM RAMSAY ON TRAINING PROFESSORS.

New York, Oct. 6.—On the eve of his departure for England, after a six weeks' visit in America, Sir William Ramsay, K. C. C., president of the British Association in chemistry at the University college, London, has been given a banquet by the physical science departments of the Brooklyn Institute of Arts and Sciences.

Sir William, in addressing the diners, said he had been much impressed by the great power of organization displayed by leading manufacturers and commercial men in America but also had learned that men employed in a scientific capacity—especially those engaged in teaching the sciences as well as in medicine—were earning less than they would earn if they engaged in industrial pursuits.

"This condition of affairs," he continued, "unless remedied, and remedied soon, will lead to the lowering of the whole educational status, for it will inevitably react upon the training of professional and scientific men in this country."

"If trained by third rate teachers—

and these must be—it is unlikely that they will take the rank which they would have had taken if their teachers had been men of first class ability."

"It is not necessary that every professor should earn high emoluments but it is necessary that those who fill the most important positions in the leading universities in the country should be well paid. I have noticed that very large sums are left or given to teaching institutions in America by a number of rich men. Generally these sums seem to be applied to the erection of new buildings and some times the founding of entirely new institutions. While the spirit which leads to such beneficent gifts should meet with the commendation of all men, I would suggest that it would be better if prospective donors would increase the emoluments of existing chairs and if they wish to perpetuate their names in connection with such gifts, these chairs could easily be named after them."

## JOHN HOWARD DEAD.

Claimed to Trace His Lineage Back to English Kings.

New York, Oct. 5.—John Howard, a descendant of one of the earliest American colonists and who claimed to trace his lineage back to the early English kings, is dead from injuries received in being run down by a truck on upper Broadway. His body lay in the hospital morgue for several hours without being identified. Searchings by persons with whom he had engagements led to identification.

Howard studied surgery in his youth and later took up music. Twenty-five years ago his attainments in the latter made him famous. He was born 60 years ago in Connecticut, serving in the civil war and later was graduated from Yale. His knowledge of anatomy he brought to bear on the cultivation of the voice and his studies on the subject attracted wide notice. Only the day before his death he had completed the manuscript of what he said would be his last work. The concluding pages were in his pocket when he met with the fatal accident.

Howard enjoyed a large income from the Southworth estate in Massachusetts, which he is said to have given away almost as fast as it was received.

## Women's Golf Championship.

New York, Oct. 5.—Seventy-two entries have been received for the women's golf championship, which begins next Monday at the Merion Cricket club in Philadelphia. Mrs. B. F. Horne, the title holder, Mrs. C. T. Stout, the ex-champion, and Mrs. E. A. Manier have not sent in their names.

Additional interest will be lent to the struggle by the appearance of Miss Katie Lord, the British champion. Miss Lord's appearance will mark the first in the history of the game here of a British amateur title holder taking part in the American championship tournament.

Among the players from the west whose names appear on the entry list are:

Mrs. Herbert Mump, San Francisco Golf club; Miss Mabel Higgins, and Miss J. A. Carpenter, Cleveland, Ohio.

## Forged Cleveland's Name.

Philadelphia, Oct. 5.—Charged with forging the name of former President Grover Cleveland to a check for \$25, Chas. E. Eklund, a Swede, has been arrested here. It is alleged he tendered the check in payment for storage charges on his household goods. The police expressed the belief that he was formerly employed in some capacity about the Cleveland home at Princeton.

## Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 10, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the doctor said I also had a lump in my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me and I recommend it to suffering humanity." Sec. Dec. 1900. Sold by Z. C. M. I. Drug Dept.

258 SO. MAIN ST. Sign of THE BIG SHOE.  
\*\*\*\*\*

Among the old chemists gold, was symbolically represented by the sign Webster's Dictionary.  
It looks like a bulls-eye.  
It is a bulls-eye.  
Whoda thought those old chemists knew so much. Hundreds of years ago they adopted this symbolical sign, and yet they knew nothing of Utah politics, tariff reform, nor trust mergers. We all know that the one who hits the most bullseyes in the financial, political and social world generally has the most gold, but we don't know much about chemistry.  
It's peculiar our diverted and dissimilar intellects should so thoroughly coincide as to the appropriateness of the sign.  
Evolve the thought and think—we are evolving into natural born chemists, or are we going to stop at the bulls-eyes?  
We collected one hundred and twenty-five dollars for Mr. William Kirkup of Franklin, Idaho, last week. So far as we know, he is not a chemist, but he hit the bulls-eye, and is one hundred and a quarter ahead. It was an old note. It was torn and ragged; had to be pinned together. Its fragments had long lost whatever glitter they ever had, but the gold we traded the note for was as bright as a midday sunbeam. Do you need any of this kind of gold? If so, send us your old, mildewed and mossbacked claims and notes. We will make some bulls-eyes by collecting them, and you will get some gold.
