DANGER IN DISGUISE !

Summer Pestilence Unearthed: its Causes Explained and Some Timely Advice About How to Avoid it.

CERTAIN VALUABLE FACTS MADE PUBLIC.

It is well known that hot weather brings sickness, and that few people go through the summer without unpleasant symptoms. The mouth becomes dry and parched, the tongue turned and white, the pulse irregular, the head feverish, the body cramped and the limbs swollen and tired. Ladies especially, with their natural delicacy and tendency to female troubles, find the hot weather almost unbearable, while Little Children are dying every day from exhaustion and because Parents neglect prevention and care. A prominent and well known physician of New York asserts as his positive belief that more than three-fourths of all so-called Summer complaints arise from disordered secretions, and that these secretory organs, which, by being disordered, cause us to manifest the troubles of the Kidneys and Liver. These organs are the governors of the system, and by their movements the other parts of the body are regulated. The brain controls the life, but the lower part of the body rules the health.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus prevent the many dangers of the Summer. That vegetable (a sweet Indian leaf) is the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are deranged. For all urinary complaints of either sex it is infallible. For all bilious troubles it is certain. For the hot season it is invaluable, and it should be used

EVERING NEWS.

Saturday, Dec. 1st, 1886.

BY TELEGRAPH.

FOR WHOLELY THROUGH TELEGRAPH LINES.

FORTY-SIXTH CONGRESS.

SENATE.

WASHINGTON, 17.—The House resolution for recess on December 23d to January 5th, was disagreed to, 51 to 27.

A motion of Burnside to adjourn to-day until Monday, raised a storm of protest and he withdrew it.

Wallace introduced a bill for a uniform system of bankruptcy.

The Blaine resolution directing the judiciary committee to inquire into the expediency of increasing the number of Judges of the Supreme Court to 13, was agreed to.

The pension appropriation bill was referred to the committee on appropriations.

Consideration was resumed of the educational bill, and general debate began.

Cockrell opposed the 4 per cent rate, when we could borrow at 3.

Ingalls said it was a question, not at how little interest money could be borrowed, but to how much we are willing to give to a beneficent cause. He would favor paying 10 per cent.

Bayley agreed to this.

Davis would have the whole fund expended to pay slaves on this occasion. We were paying off the debt for the benefit of the future at the rate of \$100,000,000 annually. He advocated the amendment of Teller yesterday.

Ingalls said the interest would amount to \$60,000 per annum, not counting the interest on the interest of the children of the country. It was idle to talk of curing the disease of slavery by the disease of slavery. A millerian man in the country was menace and a danger to free institutions. It was our right and duty to appropriate a large enough sum to pay the debt of the country. We owe nothing to posterity; posterity can take care of itself. Posterity is the duty of the present. Posterity is an educated generation. Let us make sufficient annual appropriations, leaving future Congresses

upon the approach of war sign-
symptoms. It may save some life
or that of some dear friend, it will
certainly prevent much suffering.

No remedy in America has ever
received such high and enthusiastic
commendations, and it is warmly
endorsed by the *Professors, the
Press and the People.*

An Editor's Escape.
OFFICE OF THE "INDUSTRIAL TRAMP."
NEW YORK, MAY 28, 1893.
TO WHOM IT MAY CONCERN:

I take great pleasure in making the following
statement: I have been afflicted with a
venereal disease for nearly seven years,
and have tried numerous remedies with only
partial success. I have been treated by Dr.
Kiddley and Lever Cure being recommended to
me by a friend. I have used the same
remedy, and am now feeling strong and
well. I have perfectly restored that Warren's
Sole Kidney and Liver Cure, and I
now cheerfully recommend it to
all afflicted persons.

A Doctor's Certificate.

I hereby certify that the above
testifying physician for twenty-seven years, and
that he has been cured of his venereal disease
and is now perfectly recovered. I have been
commanded Warren's Sole Kidney and Liver
Cure. It was upon my advice that Dr. W.
Warren, the editor, wrote the above
cure.

A. A. HAMMILL, M. D.

A Farmer Made Happy.

I have been afflicted with a
venereal disease and have for over twenty years, and
from that entire time I could not get on my
feet. My medical bills were very large, and
I was nearly ruined.

After further debate, Teller
declined to support the amendment, and said he would not
carry coats to Newcastle by adding
to the forcible arguments of the sen-
ator from Kansas. "We are in a
very bad way," said Teller, "and
illiterate voters. This crisis has
been solved at once. Any increase in
the scope of governmental operations
will be a disaster to the country. The
importance of the object in view leav-
ing him to support the bill."

After further debate, Teller
declined to support the amendment for
30 days. It strikes out the clause
setting apart the proceeds of land
and patents as a permanent fund
and provides that for the first ten
years said proceeds shall be paid to
the several States according to the
proportion of the population over
twenty years of age who cannot read.

"And both the Hot and White Springs
 are happy to say I am now a well man, and
 am able to do my own work, and have
 money and Liver Cure. With such glorious
 results, I am only too glad to testify regarding
 the efficacy of which I wish to say
 (REV.) P. F. HARKER
 Coal Run Crossroads, Pa.
 An Educational Endorsement.
 The Rev. C. A. Harvey, of the
 University of Washington, has written
 the following letter:
 "I have been a constant pleasure in stating
 that I have eleven years past been an
 S. S. Kidney and the remedy known as Warner's
 S. S. Kidney cure which had been given up by prac-
 tical men at the schools. Its greatly increas-
 ed worth by this remedy seemed but little less
 than the value of the schools. I have no
 remedy for kidney troubles heretofore dis-
 covered any which had for one moment in con-
 sideration with the S. S. Kidney cure.
 C. A. HARVEY.
 University of Washington.
 A Warning to Mothers.
 "An alarm of fire at midnight is a startling
 thing, and he who is called to many who
 hear it as would be the mother who has
 their own dangerous physical condition.
 The mother who is called to many who
 graves because they are carelessly indiffer-
 ent to the health of their children. The
 cure of cure. It is the mission of the
 S. S. Kidney cure, with their S. S. Kidney
 and Liver Cure, and then cure them—*Memento Apoc-*
 calyptic.
 The Friend of Delicate Ladies.
 "We have a remedy for men and Liver Cure
 and Liver Cure, and then cure them—*Memento Apoc-*
 calyptic to women. Headaches, neuralgic,
 and other ailments of the female sex, and
 delicate and kindred ailments are effectively reme-
 died by its use. *The Mother's Friend*.
 In Great Expectation.
 "We have a remedy for men and Liver Cure
 and Liver Cure, and then cure them—*Memento Apoc-*
 calyptic to women. Headaches, neuralgic,
 and other ailments of the female sex, and
 delicate and kindred ailments are effectively reme-
 died by its use. *The Mother's Friend*.
 Ingalls, in a witty speech, rebuked
 Hoar for declaring that the bill
 would be useless, if amended as pro-
 posed. He said that the bill, as
 from the committee, it was bad
 for any senator to assume that
 wisdom led him, or that his
 talent would lead him, to vote
 any bill. When a man's house
 afire he generally seized the nearest
 available utensil and went to the
 creek to get water to pour upon
 the flames. He would not think
 of erecting a system of waterworks.
 The evil of illiteracy was present and
 alarming. What the south needed
 was a system of education. The
 practice of education. There was
 a subtle contagion about education
 once one man, however poor, and
 so far as that man's influence ex-
 tended, it would be felt by all
 upon those around him. Kindle the
 desire for education to love, and
 it will rapidly spread, until we shall
 be able to read the Bible.
 To the next generation a pure
 and noble character, and the
 work could best be done by the com-
 mon schools. There had been too
 much education in this country
 and too much of the kind of edu-
 cation that was responsible for
 a large number of failures in life.
 Boys had been taken from plow
 and shovel and sent to grammar
 schools, and then to colleges, and
 doctors and wretched ministers, un-
 fitted, falling in their pursuits they de-
 generated into lightning rod ped-
 dlers and book peddlers, and
 appear beneath the earth they had
 been taken from the plow and
 shovel and sent to grammar
 schools, and then to colleges, and
 doctors and wretched ministers, un-

[illegible]

U. S. SEN. S. S. WASHINGTON, D. C. June 27, 1908.
 H. WARDEN & Co:
 Dear Sirs—It is well known of the remedy
 called Warden's Safe Kidney and Liver Cure
 and how it has been known to its efficiency in
 kidney and liver troubles.
 I say in my opinion it is the best and only
 remedy for kidney and liver troubles ever
 brought before the public.
 Yours very truly
 (GEO.) JOHN K. MCDONALD.

This Great Natural Remedy,
 which has received so many en-
 thusiastic endorsements and has
 performed such universal cures in
 all diseases of the urinary organs, is
 for sale by Druggists in every part
 of the world. Those who have never
 tried it should not fail to keep it on
 hand; those who have tried it and
 know its merit, would not be with-
 out it for a moment. It effectually
 cures all

SUMMER DANGERS,
 and prevents their complete loss
 outside of

Seasonal Safe Guards

ERIC recently helped farmers were summoned to give employment to laborers. An agent of the Earl of Cork was requested to provide labour on the Earl's estate, and the agent intimated that he will open works in that locality and give employment until March, 1885.

The followers of government are embarrassed and for the most part do not know what to do, while a few are held enough to believe that the time the great leaders have pursued. Whitebread, one of the most respected liberals in the House of Commons, speaking in the House, said that he was vividly conscious of the reign of terror that had left no honest calling safe in a large part of Ireland, and avowed his feeling that the Government might be compelled to use coercion. There have been liberal governments before, but not in Ireland, where the Government might be compelled to use coercion. There have been liberal governments before, but not in Ireland, where the Government might be compelled to use coercion. There have been liberal governments before, but not in Ireland, where the Government might be compelled to use coercion.

The building was without fire escapes of any kind, and the flames were pumped from windows and many escaped with broken bones and bruised bodies. Those in the upper stories, unable to escape, appeared for a moment at the windows, and then disappeared in the smoke and flames. Following is a list of those known to be killed: John Griffin, aged 35, jumped from the fifth story badly burned, who jumped to the ground, is unrecognizable. His head and body were smashed. Thomas Griffin, John Malone, aged 15, jumped from the fifth story, killed; William Griffin fatally injured in the head, and his spine and arms were broken. The injured are: John Griffin, jumped from the fourth story, right arm broken and badly injured; John Griffin, jumped from the fifth story, fractured leg; Patrick O'Brien, badly burned about the head and back and arm broken; John Griffin, jumped from the fifth story, badly cut on the head, Moses Malone, brother of John Malone, jumped from the fifth story, fractured leg and broken arm; Mike O'Brien, right leg broken. The following are missing and supposed to be in the ruins: Stephen Hackett, John Griffin, John Griffin, and James Stout, brothers, and Jay Griffin. The names next communicated to the police are: John Griffin, also the property of Geo. A. Griffin, which was destroyed. The building was three story high, 60

of John B. Manning. The contents are valued at \$20,000 worth of property and \$2,000 worth of stock. The value is not to be estimated at present and is placed at \$28,000. The insurance is for \$25,000 at \$1,000 per \$1,000.

James Ryan and John Kennedy, employed on the fourth floor of the Barge building jumped to the ground and escaped with only slight bruises. A boy named Kennedy was seen to jump from the fifth floor and catch hold of the telephone wire which broke, and sliding on the wire, escaped, evidently unhurt. The parents and friends of dead and missing ones surround the ruins. The streets are full of people and the air is thick with "know to be killed" will be more than doubled when the smoking bricks and ruins can be removed.

THE DELEGATE AGAIN INTERVIEWED.

He Feels Perfectly Secure.

WASHINGTON, 17.—Delegate Cannon, of Utah, who has four wives and a seat in Congress, is not disturbed by the reports from Utah, of Governor's General and General Murray will withhold his certificate and give it to Campbell, upon the ground that Cannon is married too much and has never been a fully naturalized citizen of the United States. Cannon says: "I think the

balance, well armed, to replace the laborers who have left me. Two police officers are stationed near my farm. Others are stationed near my farm. I have applied for more protection and troops are promised me on Friday."

Dublin, 17.—It is confidently asserted that Michael Davitt's ticket to leave is about to be cancelled and that Davitt will be arrested.

London, 17.—A tenant's right meeting was held at Loughgal, Armagh County, to-day. Those present were principally Orangemen and members of the Orange lodge of the platform which they destroyed. A meeting was then held in an adjoining field. Resolutions were passed in favor of peasant proprietary.

Correspondence is published between Captain Boycott and Gladstone. The former asks the assistance of government to indemnify him for some of the losses caused by his having to quit Ireland. Gladstone replies that government has no power to indemnify him, but will help him with troops. To this Boycott replies that the army was sent to Loughgal mask against his wish, and merely to keep the peace and not to help that government refuses him compensation.

BRIEF TELEGRAMS.

The Parnell defense fund—

Governor will delay as long as he can, and the chances of his defeating him will be given it to Campbell. No one disputes my majority nor the fairness of the election. The error is only a ministerial one. If he cannot judge the election, the House is the only body empowered to judge of the election and qualifications of its own members. I shall still be in all probability content with my seat. He claims that he is not legally a naturalized citizen of the United States. That question was settled by the Forty-Fourth Congress, and I am satisfied that at that time, the question of citizenship passed the principal one involved. While no report on that House has ever made to the House, the members of the committee have unanimously of the opinion that I had been properly naturalized.

Washington Notes.

Vice-President Wheeler, to-day, received the electoral votes of Rhode Island, Ohio, Indiana, Kansas and California, and the message of the messenger. He has now either received by mail or messenger the votes of all the States, except

Secretary Thompson, whose resignation goes into effect on Monday next, at the request of a number of members and subordinate officers, will probably be asked to remain in Washington after noon, for the purpose of making a formal leave of absence. The secretary will probably remain in the city until the 15th inst.

Amounts to \$10,000.

Maudie Grainger, the actress, is dangerously ill at Hannibal, Mo.

Six hundred and eighty-nine immigrants arrived at New York, to-day.

Edward Lloyd Ford, former publisher of the *Christian Union*, is dead.

Greece wants tenders for supplies for her army men on the Turco-Hellenic frontier.

The army appropriation will be made on the estimate of 25,000 men in the army.

The European Powers are again talking arbitration on the Greek frontier matter.

Six workmen, buried by a falling wall at the Harborsburg, Pa., cannery, one died.

Gen. Grant is to be elected president of the Adams Express Company, with a salary of \$25,000.

Jos. Berk, a defaulting Buffalo City treasurer, has been indicted for getting away with over \$100,000 in city bonds.

A sanguinary fight has taken place between the inhabitants of Turkish Village in Armenia and Turkish troops.

Harry R. Worthington, one of the most prominent hydraulic engineers in the country, died in New York

next. He will visit his home in Indiana in the course of a week or so, to attend to some business, after which he will return to Washington for the winter.

Opposition to the Canada Pacific Railroad.

OTTAWA, 17.—Opposition members in the Dominion Parliament have adopted a manifesto to the people of Canada, in which they have set forth the objections to the proposed Pacific Railway policy. It sets forth the fact that the railway will furnish information, preventing discovery of the constituencies, and denied the right of the people to be consulted on the scheme.

This manifesto concluded that the private construction of the road, aided by grants of money and land, and under certain restrictions in public interest, but the present subsidies are disproportionate to the work performed, and the restrictions imposed detrimental to the country and future settlers. It claimed that the country is now face to face with the great danger, and with the last opportunity of averting it; and in the terms of the syndicate and main- tains that the private action of Kamloops will cost double government estimates of last session, and that the country will lose the entire trade of the northwest

It is discovered that many omis- sions have been made in the census including 300 inmates of a Chicago jail. These will be corrected.

The House banking and currency committee, by a two-thirds vote, re- fused to report favorably the bill taking away the legal tender qual- ity of United States notes.

The greenbackers say they will not join with the democrats in forming the next House of Congress. The House will stand, it is said, 14 republicans, 138 democrats, and 2 greenbackers.

CATARRH

CURE. Unquestionably the most important medical discovery since vaccination, a remedy which assimilates with the various humors of the body, and cures only local, or constitutional cure at any stage. One of the most generally adopted. Believed by Dr. H. H. DREW & CO., 40 Decatur St., N. Y. City, to be the only safe and reliable treatment for the cure, unless such be satisfied on order. For

Dr. W. H. THOMPSON, Esq., Ill.
Mrs. H. H. DREW, 60 State St., N. Y. City.
SARAH J. ALLEN, Baldwin Hotel, San Francisco.
MR. MARCEY F. RANKIN, 404 Clark St., St. Louis.
MR. M. SEBERT, 822 Savannah St., St. Louis.
