HALL'S Vegetable Sicilian HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfilment of its promises.

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

DANGEROUS SUBSTITUTES

FOR

HORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or Pyro-Phosphoric Acid, which are declared by the highest authority to be poisonous. The same preparation also contains Chloric Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK. deod & w lme
