and when the morning tulletin appeared and it became known that
the patient had begun to swallow
food again without vomiting or nausea, a faint wavering hope took the
place of the profound despondency
which prevailed everywhere
throughout the city last night. At 7 a. m. the surgeons gave the pa-tient an anemie consisting of four ounces of beer extract, with yolk of egg, and shortly afterward in com-pliance with his request, he was given a small quantity of koumiss, which he swallowed and retained without discomfort. Later in the morning, as there were no gastric disturbances, the patient was given more koumiss and milk porridge, and morning, as there were no gastric disturbances, the patient was given more koumiss and milk porridge, and by noon he had taken and retained ten or twelve ounces. The exciting cause of the vomiting yesterday, viz., mucus in the throat, seemed to day to be absent. The secretion from the inflamed parotid gland was very scanty, and gave the patent no annoyance, and the gland itself caused little, if any pain. He, therefore, rested more quietly than usual throughout the day, swallowing liquid nourishment at regular intervals wilhout nausea or discomfort. Between 12 and 1 o'clock another anems was given, consisting of five anemæ was given, consisting of five to listen to him." ounces of beef extract and yolk of egg, and shortly after this the patient went to sleep. With the exception of the usual slight rise of pulse and temperature, his condition remained substantially unchanged throughout the remainder.

The Daily News completes its list of the members of the House of pulse and temperature, his condition remained substantially unchanged throughout the remainder.

than a foot in length. Secretary Lincoln, who was at the White House this evening, before he saw the evening bulletin, said he felt very much discouraged. He had seen the physicians about noon, but was unable to obtain from them any assurance upon which he could base a reasonable hope. Much comment is caused by the journey of Capt. Henry to Ohio. It transpired that he had not gone for the Presidentia mothers and here in the presidential mothers. dent's mother and boys, but his mission was to prepare for a possible contingency and be ready to start with them at a moment's notice, should the worst appear imminent. Members of the cabinet have been very anxious to-day, and paid sever-al visits to the White House. Secretary Windom said "he may be worse, but I don't like these new complications. At one time it is dyspepsia, next it is the parotid gland swelling that causes the trouble; always something, and each time the result is bad. Still, I am hopeful. I am in duty bound to be, I suppose, but I don't like it." Among other things that might cause the President's death, some papers have con-tained a mention of tetanus or lock-Jaw. A physician was asked to-day what he thought of it, and he said the President would live throughout

eternity if he never died till lockjaw killed him. He did not think it a possible element of the case. Another report that the President is dead was industriously circulated this afternoon, and wheat declined a

a full cent on the curbstone in conse-quence thereof. It is believed that the rumor has spread over the North-west, and possibly has reached San Francisco. There was intense excitement for a time, of course. The rumor was wholly baseless.

No definite information can be gathered as to the state of the Cin-cinnati clique in the wheat deal. It cinnati clique in the wheat deal. It is positively asserted on one hand that they have nearly closed out their interests, and on the other, that they are in deeper than ever, and to day offered to buy 2,000,000 bushels. Daly, a celebrated mining expert and owner of extensive mines in Colorado were killed. Lieut. Schaffer was wounded. The negro soldiers fied when the Indians made the attack; hence the casualties.

Indians are in several parties, moving southwest. Every available man under the command of Gen.
Hatch is either in the field or guarding the settlements. The number of troops, however, is too small and the people are arming for self-protection. A delegation of the citizens of Socarro here, are asking the governor to call on the militia for the protection of the settlements, the raid some thirty people have been killed, and the soldiers have lost about twenty in killed and
