## EVENING NEWS.

**Thursday, November 11, 1875.**

### The Age of Rings.

The world has seen its stone age, its bronze and its iron age, to say nothing of its age of steam, electricity, etc., each of which might have had a certain amount of ring in them, but we are now living in an age of rings—in the ring age.

Look where you will, in church, state, or social life, and there you will find them. If one cannot rule, he will combine his influence and talent with one or more and the ring rules, and plunder is generally the cohesive power which binds them together, and being so bound, they grow bolder with every move, until completely gorged, they fall off, or the public like a giant in uneasy sleep, shakes them off.

When will this ring era end?

Not until the rich become richer and the poor are made poorer, and then it will end in revolution.

Men seem to have forgotten themselves and to act like wild beasts who prey upon one another. Honesty is scoffed at and honest men regarded as fools. Such a condition of things cannot last long, there is that hope for those who come after us. The ferment of corruption works swiftly, and a sound reaction follows as daylight follows darkness.

But we are in for it now at all events.

There are rings in every direction and plunder in the most of them. The rich man's income is swelled and the laborer's is pinched. The limit is fast being approached. Cities and companies are burdened almost to bankruptcy by debts heaped up by reckless jobbery. To own a house, is to be taxed beyond income; to hire one, is to help shoulder debt, and to pour into the safe, of which robbers have the key.

Only grind down the people until they are too poor to spare time to vote, and spoliation's triumph is complete. As things look now, it will not be long before such a condition is brought about. But then comes a time after that.—*Washington Gazette.*

### Dress of the Disco Girls.

The Disco costume appears very funny until you get accustomed to it, but rather pretty nevertheless. Imagine a pretty girl—and three or four of the Disco girls are very pretty—with her hair done up in a kind of topknot on the top of the head with a red ribbon, a loose fitting jacket made of any kind of light, thin stuff and of any color, trimmed with a fur collar and made to put on just like a shirt, but reaching only to the waist; a pair of seal skin breeches, with the hairy side out, reaching nearly to the knee and confined there with a garter; a pair of high boots, meet the bottom of the trousers, the feet and ankles of red leather, the tops of white linen, starched and ironed, and with a little roll of fur around the tops, and the darkest, demurest eyes and the sunniest brown complexion ever painted by the sunshine and the sea breezes and the ocean spray—and you have a faint idea of a Disco girl. You should see them tripping about in their little red boots, with their little short steps scarcely seeming to touch the ground, so soft is their tread, or springing over the rocks like young antelopes, to know how charming a girl may be in breeches. And they have the daintiest little feet and hands, too—feet and hands that would make the prettiest New York girl burst with envy if she saw them; so finely shaped, so small, so delicate and yet so strong.

IRON COLUMNS IN BUILDINGS.—By a recent invention, the principle of the fire-proof safe is applied to the formation of iron pillars or columns in architecture. As in the case of the common iron pillar in use, a solid cast iron column sustains the whole weight of the superstructure; but, in this improved arrangement, there is outside of the solid column a thin cast iron shell, and the space intervening between the outer shell and the inner column is filled with plaster of paris, the non-conducting properties of which are well known. No weight is allowed to rest on the outer shell or the non-conducting that is used as filling, their only mission being to protect from the effects of heat the real support of the building—the inner column. The plan is to have these columns surmounted by an iron T girder, which is enclosed in a fire-proof casting of a similar nature, and the junction between the pillar and the girder is so formed that only the protected portion of one touches the protected portion of the other, while the casting forms a tight joint, thus making the fire-proof of armor complete. The simplicity and efficiency of this plan are obvious. These columns, it is stated, are intended to take the place of the ordinary iron column in ornamental fronts of buildings, as well as the interior of large warehouses, where such supporters are needed.—*Ex.*

## Ayer's AGUE CURE,

*For the speedy relief of Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, etc., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.*

℞ HAS been widely used, during the last twenty-five years, in the treatment of these distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The fear of Chills, once broken by it, is not nearly equal to the disease it constrained to cure. This has made it an accepted remedy, and trusted specific, for the Fever and Ague of the West, and the Chills and Fever of the South.

Ayer's Ague Cure eradicates the injurious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that no very Complaints, Rheumatism, Neuralgia, Add sentery or Debility follow the cure. Indeed, where Disorders of the Stomach and Bowels have occurred from Miasmatic Poison, it removes the cause of them, and the disease, also. Finally it is a thorough cure for, if taken occasionally, it renders exposure to malaria, it will expel the poison and prevent the development of the primary and temporary residents in Fever and Ague localities are thus enabled to defy the disease. The General Debility, which so often results from continued exposure to malaria and Miasm, has no specific remedy. For Liver Complaints, it is an excellent remedy.

*PREPARED BY*

**Dr. J. C. Ayer & Co., Lowell, Mass.,**
*Practical and Analytical Chemists.*

☞ Sold by All Druggists and Dealers in Medicine. Sold by Z. C. M. Institution.

## Rocky Mountain Pills.

A VALUABLE MEDICINE,

**From New and Rare Medicinal Plants recently discovered in the Rocky Mountains!**

*PURELY VEGETABLE.*

FIFTEEN years of earnest botanical research among these mountains and valleys have resulted in the discovery, not only of many new varieties of plants, but of new species, some of which have wonderful medicinal curative properties. By continued experiment their virtues have become known—and thus from extracts of these newly discovered plants are these pills compounded.

If properly used, they will cure very many diseases, pains and aches, and are more especially valuable in DYSPEPSIA, LIVER COMPLAINTS, INDIGESTION, JAUNDICE, and all cases of FEVERS, COLDS, URINARY AND KIDNEY DISEASES, RHEUMATISM, COSTIVENESS, HEARTBURN, DIARRHŒA, MUMPS, MEASLES, for PURIFYING THE BLOOD, and for many other diseases, and all cases of BILIOUSNESS and DISORDERED STOMACH.

On orders accompanied by the cash or postal order, I will send safely by mail, postpaid, 1 box Pills for 25 cents; 1 dozen boxes, $2.50; 1 gross boxes, $24.00.

J. E. JOHNSON,
St. George, Utah.
