SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Kalk, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

SOLD EVERYWHERE.

BOOTS, SHOES & CLOGS.

JAMES TURNER, two blocks west of Deseret News Printing Office, begs leave to inform his many friends and the public generally that he will make to order Boots, Shoes, Slippers and Clogs, at prices very reasonable. Last Night's Dispatches.

FORTY-SIXTH CONGRESS.

EXTRA SESSION.

SENATE.

WASHINGTON, 11.—Hereford called up Hoar's resolution declaring the democratic programme for the passage of appropriation bills to be unconstitutional and revolutionary, and made a speech against it, insisting that no such action was contemplated as would justify such a conclusion.

Garland, from the committee on epidemic diseases, reported a joint resolution setting forth that doubts exists as to the legal organization of the National Board of Health, and to remove them, the resolution ratifies the organization and the action of that body. Agreed to.

The army appropriation bill was then taken up and Withers explained its provisions.

No amendments were adopted, the committee on appropriations having agreed to resist all amendments, the majority of the Senate seconding them accordingly. The reason assigned by Withers for such a course was that amendments would delay the passage of the bill. The clerk reached the sixth section, which prohibits the presence of troops at election places, etc., when the Senate adjourned till Monday—yeas 29, nays 23.

HOUSE.

WASHINGTON, 11.—The House went into committee of the whole and consideration of the legislative appropriation bill was continued. Blackburn was in the chair.

An amendment increasing the clerical force in the Postoffice Department was adopted, yeas 105, nays 60.

A proposition to increase the salary of the commissioner of agriculture, after a short discussion, was withdrawn.

Amendments were agreed to directing the commissioner to supply a reasonable quantity of seeds, shrubs, etc., to members of Congress for distribution among their agricultural constituents, to report the quantity of seeds, etc., distributed, and the States and counties sent; from whom purchased, and the quantities. The appropriation for the purchase and distribution of seeds, etc., was increased from $65,000 to $100,000.

Hunton submitted an amendment increasing the appropriation for eradicating infectious diseases among domesticated animals from $25,000 to $250,000. He stated the objects of the large increase was to stamp out the disease known as pleuro-pneumonia, and the only way known to eradicate the disease was to buy and kill all the diseased cattle and cattle which have been subject to the contagion.

Sparks advocated the amendment. It was vastly important that the disease should be immediately eradicated. Without disposing of the amendment the committee rose, the committees were announced, and the House adjourned until to-morrow.

EASTERN.

Cabinet Meeting—The Indian Question—Epidemic Diseases—The House Committees—Colored Emigration.

WASHINGTON, 11.—The Indian question came up for consideration at the cabinet meeting to-day. The discussion took a wide range, covering the relations of the Canadian government to our own in the event of a hostile movement southward by Sitting Bull and his band; the *habeas corpus* of Standing Bear, now in the custody of Gen. Crook, and incident thereto, the wisdom of the policy of keeping the northern Indians in southern latitudes, against their wish, if they were disposed to be peaceful at the north. Secretary Schurz took the ground that to promote the best interests of both whites and Indians it was necessary that the Indians should be kept on their reservations and out of the way of bad white men, who would incite or provoke them to acts of violence. No definite conclusions were reached.

Postmaster General Key, in answer to the resolution of the Senate inquiring why the paper published here was discriminated against in the mails as an advertising sheet, says that while the Senate has a right to call for any information required to facilitate legislation, it has no right to direct him to give his reasons for complying with the law which it is his duty to execute. He says he has no objection to saying, however, that the enforcement of the law in question devolves upon the local postmasters, and that the rights of the paper has been referred to the Attorney General for decision.

The select committee appointed to investigate and report the best means of preventing the introduction and spread of epidemic diseases, to-day, adopted a bill for presentation to Congress. It gives the national board of health plenary powers and appropriates $850,000 to carry out the provisions.

The announcement of the standing committees of the House of Representatives, to-day, naturally excited great interest, not only among the members but throughout all political circles of Washington, and to-night the composition of the important factors of legislation and promoters of personal ambition is a universal topic of analysis and comment. Of course, there are some members who feel themselves more or less slighted in the distribution of good places, and Speaker Randall's work is otherwise criticized to some extent by the representatives of various conflicting interests, but the general opinion of disinterested observers is that he has done the best he could with the material on hand, and that, on the whole, he has made up the committees discreetly and fairly. The ways and means committee is strongly constituted, both in its democratic and republican membership and by reason of Randall's well known views and political interests it naturally has a decided leaning to the side of protective tariffs. In his composition of the banking and currency committee the Speaker has felt himself obliged to recognize the overwhelming sentiment of the House in favor of an expansion of the currency. At least six of its eleven members are outspoken soft money men, and only three are known to be uncompromising servitors of the hard money system. The coinage committee, of which Alexander H. Stephens is chairman, has also been placed in the control of those who sympathize with his pronounced views on the silver and currency questions. The ways and means committee, however, continue to be controlled by a small majority of hard money democrats and republicans, namely, Wood, Phelps, Garfield, Conger, Frye and Dunnell. The appropriation committee is again make the reflex of Speaker Randall's extreme views of "economy," and unlike the ways and means committee, is not provided with a minority representation of particularly noticable ability. The chairmanships of the most important committees, except that of the Pacific Railroads, which is unexpectedly given to McLane, a new but very able member from Maryland, were correctly foreshadowed in these dispatches last Sunday night and call for no especial remarks, unless it be to notice that the southern democrats are very indignant at the selection of Gen. Bragg as chairman of the committee on war claims, as he is known to be their bitterest enemy. Representative Blackburn after declining the chairmanship of the banking and currency committee, was offered the second place on ways and means, which is equivalent to any ordinary chairmanship, but declined this also, for the reason that his acceptance would necessarily lower the positions of his personal friends, Tucker and Gibson. He was, therefore, provided for on the appropriations committee. Ex-Secretary Robeson would have been placed on the naval committee, except for the character of the relations, or rather, the want of any between him and Chairman Whitthorne. It was supposed that his fine legal talents would have secured him a place on the judiciary committee, but the Speaker found no room for him there, and assigned him, instead, to the committee on foreign affairs. The Pacific Coast members have been placed as follows: Whittaker, Oregon, is made chairman of the normal committee on revolutionary pensions, and is assigned to service on Indian affairs and the expenditure under the Interior Department. Daggett, Nevada, being not only a new member, but one of the minority, is not given a very conspicuous committee place. He becomes a member of the census committee and on militia. The four committee places, with votes, which, by custom, are provided for the territorial delegates, have been distributed as follows: That on mines and mining, to Campbell, of Arizona; Indian affairs, to Ainslee of Idaho; public lands, to Bennett of Dakota, and territories, to Maginnis of Montana. In order to make it possible to provide for the six members who are yet to be elected from California, New York and Texas, Speaker Randall has left vacancies on three other committees which are only nominal. These three are public lands, mines and mining and coinage, on each of which one place remains to be filled, doubtlessly by a Californian. The Speaker also contemplates recommending an enlargement of one or two other important committees next winter, including, probably, the committee on commerce, and in this event California will be given the additional representation when they are augmented.

Senator Slater, to-day, introduced bills to restore the Lapwai Mission claim, now held by government authorities, to Wm. G. Langford, and to pay Alexander McNary and John H. Taylor some $7,000 for Oregon Indian depredations.

The democratic majority of the Senate, to-day, voted down all amendments to the army appropriation bill in pursuance of the determination fixed by caucus recently, to prevent the return of the bill to the House of Representatives for any reason whatever. It is, of course, perceived to be good party policy in a strategetic point of view to make sure of the signature of this bill by the President, if possible, before the more serious questions involved in the legislative, executive and judicial appropriation bill are reached for final action. Adjournment was taken until Monday because Wallace was not quite ready to make his opening speech for the democrats on the political portion of the pending bill. He will speak on Monday and be immediately followed by Blaine.

The national executive committee of the colored emigration society has adopted resolutions requesting government aid through the quartermaster's and commissary departments to destitute colored emigrants arriving at St. Louis, or other points on the Mississippi River.

Murder Trial.

HASTINGS, Neb. 11.—In the trial of Olive Fisher and others, for murdering and burning two men, Bion Brown, a young man employed by Olive as a herder, turned states evidence and detailed the proceedings of the murders, but asserted that the burning was purely accidental. The prosecution has closed. The rumor of an intended attempt to rescue Olive, on the part of the cow boys, has brought a company of soldiers here from Omaha.

Must be Produced.

ST. LOUIS, 11.—In the case of the subpœna *duces tecum* to compel E. H. Brown, manager of the Western Union Telegraph Company, to produce before the grand jury, certain telegrams sent and received by Gov. Phelps and other parties, argued some days ago, on petition to vacate the order under which the subpœna was issued, Judge Laughlin, to-day, overruled the petition and decided that the telegrams must be produced. The telegraph company will take an appeal.

WESTERN.

China and Japan News.

SAN FRANCISCO, 11.—The steamship *Belgic*, from Hong Kong and Yokohama, has arrived. The following is a summary of her news:

Hong Kong, March 17.—The passage of the anti-Chinese bill and subsequent veto attract great attention. The native vernacular newspapers of Hong Kong and Shanghai, especially the former, are extremely bitter against the proposed measure, and claim the protection guaranteed by the treaty and draw pictures of the future relations and the exclusion of Americans from Chinese soil. They exaggerate the consequences to America of a withdrawal of Chinese labor, but speak with moderation, though with firmness, of the reactionary movements by China on her own ground.

There is excitement over the discovery of the alleged practice by Dutch colonists in the straits and settlements of kidnapping coolies from Singapore and holding them in bondage at Penang and neighborhood.

The newly opened Chinese ports of Pakhoe and others fail to meet the expectation of commercial speculators. The foreign trade is impeded or destroyed by the efforts of native merchants.

Insurrections continue as before, without any material change in the position of the rebel forces, which are generally successful.

There is an excited discussion at Shanghai over the Brien telegraph from Washington announcing the complete success of United States minister Seward in the Washington investigation.

Lord Lytton, Viceroy of India, telegraphs the governor of Hong Kong that General Grant will reach Hong Kong about the middle of April.

Yokohama, March 27.—The trade depression continues, with no prospect of an early change. The market is still overstocked with foreign goods. Native merchants decline all transactions while the local exchange notes remain so disadvantageous to them.

Mexican dollars still hold a premium of 25 per cent. over government notes.

The Chartered Mercantile Bank, one of the three English banks long established in Japan, announces the close of the branch here.

Applications for Chinese Labor.

The following card is furnished for publication: The Chinese six companies are daily in receipt of applications for laborers to go to the southern States, Texas, Mississippi, and Louisiana, to take the place of negro labor. Now, the emigrating officers of these companies wish it expressly understood that they have no control over the people's labor, and have never brought or caused to be brought one of their countrymen here; never contracted their labor or collected their wages in any manner whatsoever, the press of California to the contrary notwithstanding.

(Signed) CHINESE SIX CO'S.

FOREIGN.

GREAT BRITAIN.

Lord Salisbury and the Khedive.

LONDON, 11.—A correspondent at Paris telegraphs that the Sultan, on Tuesday, addressed a telegram to Lord Salisbury, formally condemning the proceedings of the Khedive as dangerous to the whole east, expressing willingness to cancel the firman regulating the Egyptian succession, depose the Khedive and send Halim Pasha to Alexandria in a Turkish man-of-war as the Khedive's successor. The Sultan's telegram has been communicated to France.

RUSSIA.

Another Proposition—Surrender—Fatal Railroad Accident.

ST. PETERSBURG, 11.—The *Agence Russe* announces the negotiations now proceeding between the great powers upon the proposals of the Porte, forwarded to St. Petersburg by England, that instead of a mixed occupation, the powers should agree to the nomination of Iteko Pasha, who is popular with all classes, as governor of Eastern Roumelia, the Porte to agree to a prolongation of the authority of the international commission for one year, and to abstain, during that period, from occupying the points it has a right to garrison.

Russia has decided to surrender Kuldja to China and conclude a new convention with the Chinese government.

Immediately after Gen. Todleben's return, a special commission on the Roumelian question was appointed, consisting of the minister of war, Generals Todleben and Imextinsky, M. de Giers of the foreign office, and others. The commission reported, on Wednesday, that a mixed occupation was impossible, and recommended a conference of the powers, with a view to provide for a prolongation of the Russian occupation.

Germany, in reply to an inquiry, has stated that she is not opposed to a conference and recommended that arrangements be made with England.

Nine persons were killed and twenty-five injured by an accident to the Moscow mail train.

AUSTRIA.

Collapsed.

VIENNA, 11.—The insurrection in Macedonia has again suddenly collapsed. One of its leaders, who is an Austrian, writes that Russia ordered the insurrection to terminate.

THE CHIEF OF HEALING COMPOUNDS.

HENRY'S

Carbolic Salve.

The Most Powerful Healing Agent ever Discovered.

Physicians give it the highest recommendations.

POINTS TO BE BORNE IN MIND

Carbolic Salve positively cures the worst sores.
Carbolic Salve instantly allays the pain of burns.
Carbolic Salve cures all cutaneous eruptions.
Carbolic Salve removes pimples and blotches.
Carbolic Salve will cure cuts and bruises.

Henry's Carbolic Salve

ranks at the head of all Salves, Ointments and other Healing Compounds, and has achieved a greater reputation and had a larger sale than any other similar preparation. The most

VIRULENT ORES AND ULCERS

have been cured with wonderous rapidity by the use of Carbolic Salve, and it is prescribed now almost universally by Physicians throughout the country in their practice.

Testimonials from the most respectable sources, medical and otherwise, are constantly accumulating on our hands, demonstrating the sovereign efficacy of

This Great External Remedy,

and that the cures which it effects are as prompt as they are complete. The two following excerpts are all we deem it necessary to insert.

Geo. B. Lincoln, Pres't of the Board of Health, N. Y., writes: Your Carbolic Salve is an excellent article, and I thank you for. This is another evidence of the great value of the discovery of carbolic acid."

D. S. Locke (Petroleum V. Nasby), of New York, states that he had "on the forefinger of his right hand one of those pleasant pets, a 'run-round,' the finger became inflamed to a degree unbearable;

* * * A friend dressed it with Carbolic Salve, and in twenty minutes the pain had so much subsided as to give a fair night's rest. * * * * * *

The inflammation left the finger in a day."

Henry's Carbolic Salve

is used extensively in Hospitals, and is found to be not only a thorough purifier and disinfectant but also the most wonderful and speedy healing remedy ever known. Sold by all Druggists.

Price, 25 cents per box
