NEWS OF THE DAY.

-A treaty has been concluded beween the U.S. and several Indian tribes; for particulars see telegrams.

-The anniversary of the death of General Hoche was celebrated at Versailles, yesterday.

The report of the commission appointed to examine the New Custem H suse and Post Office building at Chicago is published. It shows that wholesale fraud and incompetoncy have been displayed it its Sustrussion.

the latter attempted sulcide by stabbing himself with a shoe kuife, far succeeded that he was carried in an unconscious condition to the gallows and had to be held

by two attendants: Wagner, just before the drop fell, said to the at-tendant throng—"Standing here to die, I prodiam my innocence beore God.

-At 4 o'clock this afternoon the jury in the Beecher case had not been heard from.

-The Second Assistant P. M. tieneral for the Post office Depart-ment, has rendered a decision that Fair at Houston, several of which ostmasters are liable, on their ound, for losses of government property while in their possession.

-The telegrams to-day report the loss of very many lives and im-mense destruction of property by the overflow of the Garonne in the overflow of the Garonne in France; the appearance of the plague and the death of thousands thereby in Asia Minor; and a terri-menting on the above, says-

THE ENGLISH FAILURES.

THE recent extensive failures in England have excited considerable public interest in this country. Within two weeks they aggregated \$60,000,000, a very respectable sum to be thus involved. Some people, naturally enough, reading of the this year, some 300 of the sheep failures, and the heavy liabilities of sheared under his superintendence the failing firms, have concluded that a powerful general panic is imminent in Britain, which would disastrously affect business on both he European and American conti-This conclusion, however, appear to be entertained by better informed persons, and readers will remember that this their reasons for not enter- island lies directly across the chantaining such a conclusion is that the failures, extensive as they liave been, have not particularly disturbed the London money market, nor sensibly affected the Bank of England rate of discount, which is held

to be one of the surest indications of the financial situation in England. The failures have been principal-

ly in the silk trade, with some in the iron trade, and houses depending on these primary failures. The New York Sun says-

"The great flood of failures which has broken upon London during the past to a days was commenced by the bankruptcy of Alexander Callie & Co., who failed for many millions.

"Last year Mr. Collie was in this city, and said to an intimate friend of his: "Before many months you will hear of great trouble among the merchants in London, and I am

afraid there will be serious failures among them. The trouble,' he conamong them. And you of unwise speculation and enormous losses in raw silk.' 'But,' said the other, 'are you out of all danger yourself?' 'Yes,' replied Mr. Collie, 'I am en-tirely safe.' And yet his extensive an'l important establishment was the first to collapse." New York Sua of Sua of Canary and "The keeping of Canary and Sua pensive luxury the coming season. The canary seed crop, which is raised almost altogether in Spain, Smyrna, and Slicily, is not more than a third of what it usually is, and shrawd speculators in this

entirely within an infected circle; that, in fact, all these houses were quarantined some time ago, and that their present 'failure' is only a public declaration of a condition that, in the financial world, was known to exist at least long enough since for the knowledge to operate as a protection to houses whose fall would be a public calamity. Con-

sequently there is at present just a probability that no such house may go down, but this fortunate event is not certain."

A Herald reporter, after interviewing several "prominent foreign

of June 17 has the following:

Pacific Woel Growing Company, whose sheep are pastured on Santa Cruz Island, have had a large clip government before. Dispatches from Wisconsin and Northern Iows, state that that section was visited by a violent storm yesterday, blowing down houses and rences, washing away railroad bridges, and damaging the growing averaging 30 pounds each, and two large Spani-h merino bucks shearing 401 and 41 pounds respectively. The average price of wool will re-turn an income of \$6 each for the 300 sheep, and about \$8 each for A lengthy report of the Chicago

custom house commisson, just pub-lished, shows that frand and incom-petency have flourished in the conthe two large ones. This makes a good showing for a dry year on the Santa Cruz Island. Our distant truction of the building. They find that the foundation in many places is soft and treacherous, that from Santa Barbara. We did learn from Skeels the average the layer of concrete was not of sufficient width to equalize the pressure of the weight above, that the stones in the walls are of all per head of the immense flock of sheep kept on the island, but we understand that it was a large clip throughout the whole flock."
