COMPLETELY FAGGED OUT

A painless sickness-you couldn't describe your feelings if you tried. You know you are sick, but perhaps there is no special ache or pain to indicate the seat of the disease. The pale, colorless skin, muscular weakness, nervousness, fitful appetite and all-gone, tired feeling means anaemia or blood poverty, a weak, watery and innutritious condition of the vital fluid. The system is clamoring for richer and better blood; the muscles and nerves are starving for the food that the blood can no longer supply, and it is little wonder that the body grows weaker and is soon completely fagged out. You can't retain vigor and strength on poor

blood. It must be full of nutrition and lifegiving properties. Health is bound to decline and the system run down if its source of supply is cut off. Everything that goes to nourish the body and sustain life passes through the blood. It contains bone-making, tissue-forming material, food for the nerves, and stimulates and vitalizes all the organs of the body. It can't do this when clogged with impurities and polluted by humors and poisons, for it then becomes a source of disease instead of health, and leads to innumerable disorders.

At this season of the year the blood is most apt to break down because of the extra efforts made to throw off the winter's accumulation of poisons, and if weak at the beginning it soon gives out and the system collapses. Nearly everybody needs a good blood purifier and tonic now to help out the blood and aid in cleansing the circulation of all obstructions, and as soon as this is accomplished and the system is receiving a supply of rich nutritious blood,

color returns to the skin, the nerves are again tingling with health, the appetite increasesand that completely fagged-out feeling disappears. S. S. S. contains both purifying and tonic properties, making it the ideal remedy in such cases, and being a strictly vegetable medicine doesn't shock the system or derange the stomach and digestion like Potash, Arsenic and other strong mineral compounds. S. S. S. for the Blood is known everywhere

STRENGTH, ENERGY, HEALTH AND VIGOR.

Kenton, Ohio, August 22, 1903.

Gentlemen :- S. S. S. has been used in our family for years and we think a great deal of it. It is used for a tonio mostly. I have also found it a splendid medicine for stomach troubles. Was for a long time bothered with Dyspepsia, but of late years haven't been troubled with it. Am confident S. S. S. relieved it. As a tonic it builds up the system in every way, gives strength, energy and appetite; in other words, brings health and vigor

My husband has also used it and has the same good epinion of it. We think it the greatest medicine made, and can recommend it to all in need of a tonic or blood purifier. MRS. S. B. LOWERY. 803 S. Wayne Street,

HEALTH RUN DOWN, NO APPETITE AND ALWAYS TIRED.

Columbus, Ohio, May 19, 1903.

Some four years ago I was suffering from impure blood and a general run-down condition of the system. I had no appetite, was losing in flesh, and an all-gone tired feeling that made me feel miserable.

I began the use of S. S. S., and after taking seven or eight bottles my skin was cleared of all cruptions and tock on a ruddy, healthy glow that assured me that my blood had been restored to its normal, healthy condition. My appetite was restored, as I could eat anything put before me, and as I regained my appetite I increased in weight, and that "tired feeling," which worried me so much, disappeared, and I was once again my old self.

I heartily recommend S. S. S. as the best blood purifier and tonic made, and strongly advise its use to all those in need of such medicine. VICTOR STUBBINS. Cor. Bartham and Washington Aves.

as the greatest of all blood purifiers and tonics, and for years has been used for diseases due to an impure or weakened condition of the blood. Under its tonic effects the general health rapidly recuperates, and nothing helps the appetite and promotes digestion like S. S. S. Keep the blood, the fountain source of health and life, free of impuri-

ties and in a vigorous and strong condition, and you will never experience that completely fagged-out, nervous state so common at this time of the year.
