Friedrichsruhe, Sept, 18 .-- Prince Herbert Bismarck died this morning at 10:15 o'clock. The end was painless. Since he ceased to be foreign minister on the retirement of his father in 1890. Prince Herbert Bismarck had taken part in public affairs only as a member of the reichstag. His attitude had been more of a man not appreciated by his sovereign and who was waiting in the background for an opportunity

to resume his career.

His delivery as a parliamentary speaker improved year by year. He al-ways declined to join any political group, steadfastly calling himself an independent.

According to Lieut. Prince Radzivi of the Russian army, who reached here last night from Port Arthur, bearing dispatches from Lieut-Gen. Stoessel the commander -in-chief of the forces of the Russian stronghold, to Gen, Kuropatkin, the temper of the belligerents at Port Arthur has reached an abso-lutely merciless stage.

Prince Radzivil served with the British in the Boer war, and he says that until he became aware of the state of affairs at Port Arthur he had no idea that war could be so horrible.

It was set forth in these dispatches some weeks ago that serious suspicions were entertained by both belligerent that the other was misusing the Red Cross flag. These suspicions have been increased by the commission of various acts by the soldiers of both armies, until now even flags of truce or surrender are not respected by either side. Prince Radzivil deciares that the

men of both armies are absolutely ven-omous in their antagonism. Lieut. Gen. Stoessel has addressed his garri-son, saying that the present mood of the Japanese indicates clearly the necessity of resisting them to the last drop of Russian blood, because if the Japanese soldiers entered the fortress, it undoubtedly would be impossible for their officers to control them and pre Nent a massaere. For this reason Lieut. Gen. Stoessel

is making no objection to civilians leaving Port Arthur. When the 300 women who are in Port Arthur en-gaged in hospital work were advised to leave they replied they would rather face the possibility of massacre than desert their posts.

In consequence of the fact that flags of truce are ignored, numbers of Jap-anese dead which have been lying on the slopes of the hills of the northwest defenses for weeks past are still un burled, and the stench in Port Arthu from decomposing bodies, when the wind is in the right direction, is almost Minendurable. The Russian soldiers who are in some cases posted only in-ty paces from heaps of decaying dead, have constantly to wear over their nos-es handkerchiefs soaked in camphor, as

otherwise they would be unable to re-main at their posts. In the course of the assault which took place in the four last days of August, two companies of Japanese soldiers, according to Prince Radzivil, found themselves at the mercy of the Russians and holsted a white flag. To this, however, the Russians paid no attention and continued to five rapidly into the balalace rapid. into the helpless ranks of the enemy, In the meanwhile Japanese troops i the rear of the companies that ha raised the white flag saw what the raised the white hag saw what their comrades had done, and expressed their disapproval of the surrender by firing into their rear. As a result of the fire from friend and foe, 600 men were sominilated. The dead fell among the disapproximation for the strengthe decomposing bodies of previous as-saults. For days afterward the wounded men in this area raised ful-tering handkerchiefs in their hands in for help, but the Russians were afraid to venture out to give succor, Within a week the last arm had made its last unregarded prayer for help and shambles was a qu'et but ghastly field of horror. Among the heaps of dead the prince

paw two soldiers, one a Russian and the other a Japanese lying locked in a death embrace. The teeth of the Japa-nese were sunk in the Russian's throat, while the Russian had forced two of his fingers into the eye sockets of his an-tagonist. The prince cited this as merely an incident denoting the ferocity of the conflict before Port Arthur,

Prince Radzivil will leave here tomorrow to rejoin Gen. Kuropatkin, Prince Radzivil, another Russian offi-

cer, two civilians and one woman, the wife of a Russian staff officer, left Port Arthur the night of Sept. 16 on a junk and arrived here last night.

Prince Radzivil got into Port Arthur a formight ago, carrying dispatchea from Gen, Kuropatkin to Lleut.-Gen. Stoessel. The prince and the officer accompanying him brought out dispatches, reports and mall matter from

roke Petroff succeeded in incapacitat ing eight of his antagonists, but he was ounded all over the body. "One company of Russian troops was

occupying a perilous outpost, and when they found their position to be 'unten-able they sent the following message to Lieut.-Gen. Strocssel: 'We are unable to hold this position.' 'But you can die, teir commander said in reply, and they did.

"The fact that the Japanese have upon several occasions used explosive bul-lets has been verified by Lleut.-Gen. Streessel. He gives an instance which occurred at Takushan when two men of the Sixteenth regiment were killed by such bullets, their bodies being blown to pieces. "On Sept. 14, the bodies of 1,600 Jap-

anese soldiers were discovered between Fort No. 2 and Fort No. 3. The stench from the' decomposed hodies attracted investigation. The Russian authorities admit that they are not able to exwhat engagement resulted in this

slaughter." Prince Radzivil give another version from hearsay, concerning the two com-panies of Japanese troops that surrendered. According to this version, a Japanese battery fired on the two companies when the white flag was raised. whereupon the two companies turned and charged the battery. According to this same version, Gen, Nogl, who hap-pened to be present, was killed in this

harge of his own men, as were sevcal of the Japanese gunners. Persistent Chinese rumors have been eceive here lately to the effect that successor to Gen. Nogl has arrived at Port Dainy, but this is denied by
