MINING, BUSINESS AND STOCKS

BIG UNDERTAKING IN BOISE BASIN

The Thorne Drain Tunnel is Being Pushed to Completion.

IMMENSE ORE TONNAGE.

Bore Will Be 6,210 Feet in Length-Reduction Works to. Follow:

Baisc Basis, near Boise, Blaho, Is soon to be the scene of a gigantic mining undertaking which, upon its consummation, promises to give to that section one of the greatest producing mines in the west. This is the driving of what is to be named the Thorne drain turned, a bore that is to be 6,240 feet in length, and which will give an avenue and outlet for an immense tonnage of ore from the splendid bodies of fine product which will either go direct to the market or funish material for big reduction works. The work is being prosecuted under the direction of Vivian Thorne, and F. R. Day of Bolse, who is just in from Boise Busiu, has the following to say regarding the enterprise in the Boise Statesman, as

The tunnel is started on the west The tunnet is started on the west fork of Archie creek, one mits from the old Jordan bridge that crosses the seuth fork of the Payette river, eight miles above Lowman. A cabin 18x is has been completed and preparations made for continuing work all winter.

The main object to be attained in driving the tunnel is to tap and drain at depth the fumous Banner group of at depth the famous Banner group of palots, 14 in number, that were formerly the property of the Elmira Silver Mining company and which yielded over \$3,000,000 in silver, when values were close to the dollar mark. Owing to the low price of silver and great cost of working the mines on account of water which required constant maintenance of quired constant maintenance of heavy and expensive pumping ma-chinery, especially on the Crown chinery, especially on the Crown Point lode, the property was finally

"Previous to closing down the shaft workings, a long crosscut tunnel was drive on the Ranner side to tap the old Banner vein, that was conceded to be one of the richest sliver lodes in the state. This tunnel cut the to be one of the richest silver lodes in the state. This tunnel cut the vein after being driven a distance of 5,295 feet, but it only secured a depth of 80 feet below the bottom of the shaft, which was down 500 feet. Where the tunnel intersected the vein a phenomenal ore shoot was found. It proved to be 375 feet long and 3½ feet wide, with 80 feet of backs. Although nothing could be done below the tunnel level on account of the volume of water, yet \$55,000 in silver builton was produced, with a market value of 80 cents per ounce, from this shoot. Another deterring feature was the wasteful antiquated mill through which the ore was worked at a saving of but 80 per cent of the assay values, and at a cost of reduction of about \$20 per ton. As the same ore today can be mined and milled for \$4 per ton and at a saving of 95 per cent of the values, it is clear more money could be made now at present prices of silver than was realized then at 80 cents per runes."

THE STOCK EXCHANGE.

Firmer Tone in the Market Over Wednesday-Colorado Stronger.

The volume of business on the call this morning was about as usual, 49,555 shares changing hands at a selling value of \$24,928. Prices in general assumed a stronger tone, and the stocks dealt in held a few points higher than Wednesday's entities.

dealt in held a few points higher than Wednesday's quotations. Colorado was apparently stronger at from 2.20 to 2.22½, and Black Jack sold a few points higher than at the last call. Crown Point, Uncle Sam, Sleux Con. and Seven Troughs received their share of attention, with slight fluctuations. The open board trading was active and contributed a large part of the day's transactions.

Among the unlisted stocks, Utah Con-sold for 10 and Bingham Standard for 16 cents. Copper Glance was hid in at 13, Ohio Keotucky at \$2, East Crown point at .21, and Ohio Copper at \$2. Following are the quotations and sales at the forenoon call:

BIG MINES TO CLOSE.

Between 1,200 and 1,500 Men Will

Soon be Let Out. A temperary depression is being ceit in the Coeur d'Alenea, and many large mines are being closed, says the Pozaletts Muth. Adolph Spengherg, whose home is at Franklin, Onelda county, but who has been working in the Marning rains, and of the hig praducers in the Coeur d'Alenez, during the past year, came in on No. 10 this morking being on his way home to pend the helidays.

He says that four or five of the largest in these the Coeur d'Alenez district have closed down recently throwsing between 1200 nd 1500 men out of employment.

Mr. Spongherg is inclined to the apinion that the closes down is only

Mr. Spongherg is inclined to the

The mine in which he has been working, the Morning, commenced to lay off men about the 15th and last churchy 500 men were discharged. Mr. Spougherg will return after the first of the year, as he thinks they cannot afford to keep the big mines

SOON LEAD STATE

Famous Old Producer Will be in Active Operation by January 1.

LARGE MILLING VALUES.

Clyde Mine is Considered by Experts To Be a Wonderful Mine.

When the general conditions will permit of active operations, there is a strong possibility that the Marysvalu district will be umong the foremost of the state. A big boom was just being inaugurated and a powerful imedia being given to active operations, when the lare slump descended and the lid was tightly natied down again. Notwithstanding this, there are great preparations under way which will have their results when the financial clouds roll away.

FAMOUS AS PRODUCER.

In the early days the Marysvale country became quite famous as a producer of high grade ores and of late years has contributed no little amount to the state's wealth. It is estimated by those konversant with the camp's past history, that the early production will exceed \$250,000. This amount, of course, represents that taken out in the pioneer days of mining, before the district had the facilities of railroad transportation. Since then, there are several properties that have each produced over \$1,500,000.

In the days of the camp's greatest In the ently days the Marysvale coun-

over \$1,000,000.

In the days of the camp's greatest activity, ore from \$200 to \$800 was a common occurrence and rock under \$100 was not touched. The nearest railroad point, then, was York, a station on the old Utah Central about 12 miles north of the present town of Nephl. A wagon haul of 150 miles was then necessary to get the high grade ores to the railroad. Among the noted past producers of the Marysvale district are the Bully Boy and Webster, the Copper Belt, the Dalton, the Monte Del Rey, the Chrystel and the Deer Trail.

DEER TRAIL WILL RESUME.

DEER TRAIL WILL RESUME.

The last encouraging news to come from Marysvale is to the effect that the old Deer Trail mine is again to be worked. This old property is considered to be one of the greatest low between the propositions in Utah. While productive of fabulous high grade ores, its main resources are mainly of a milling quality. It was owhed by the late O. J. Shashury, and was considered as a side issue by him.

The ore here occurs in immense blanket veins between time and quartitie and disclose enermous tonnages of milling ore, ranging from \$5 te \$40 per ton. This ore is in the nature of a white, impalpable tate, which until recently could not be treated at a profit. New processes, however, have made its treatment a great suc as The ore bodies range from 10 to 40 feet in thick-New processes, however, have made its treatment a great suc. The ore bodies range from 10 to to feet in thickness, and it is estimated that there is now from \$1,000,000 to \$2,000,000 exposed in this wonderful mine. The Salisbury company is about to avail itself of this great showing and contracts have been let to resume operations the first of the year. A long tunnel is being considered and the pro-

unnel is being considered and the pro-perty will be opened up in a thorough and systematic manner.

THE CLYDE MINE.

The Clyde mine, one of the new sen-ations of the camp, hids fair to sur-uss all others as a producer of high grade copper. A prominent mining man who has just returned from the south save that he never beheld such a magnificent showing.

OBTAIN VALUABLE LEASES. Salt Lake Parties Will Work Valuable Ground in Famous Bingham Mines.

Ground in Famous Bingham Mines.

As stated in this paper two days since, the Crescent Mining and Leasing company will commence active work upon the completion of the incorporation, which is scheduled to take place this week. The incorporators are W. B. Putnam, William H. Tibbats, Louis A. Bailey, U. F. Bushong, E. J. Waugh and W. B. Putnam, trustee, The leases taken over are on the Harrison claim of the United States company, and the Mayflower claim of the Fortuna company, pany.

The first named lease covers 460 feet The first named lease covers 460 feet of the Granite Chief yeln, which crops almost continuously from the Granite Chief deep workings, 800 feet away. Surface values on this vein are \$8 in gold and silver. Work will be done through a tunnel already in 10 feet, which will tap the vein at 400 feet deep. From the Mayflower lease, which is on the 200 and 400 levels of the Fortuna's old workings, three carloads of good ore already have been shipped and the rourth is nearly ready to be sent out. Some of the ore runs as high as 416 a toh, and the lease is more than 'breaking even.'

The Harrison lease runs for one year, the other until next May. The new company is capitalized for 250,000 \$1 shares, with 125,000 shares in the treasury.

CASH FROM CARSON MINT.

Nevada Mint Paying Out Coin for All Bullion Received.

When asked the question, "Are you We are paying each for bullion and lots of it. During the past menth are have sent \$125,000 in coin into the routhern country, together with a large amount around this vicinity. Haretofore we have been buying their buillon and paying New York and San Francisca exchange for it, but now everything is cash. Nothing but each will do. We receive their buillon and after ascertaining the value of it was down long.

GEO. Q. CANNON ASSOCIATION, I

this month will be several thousand dollars above October. My force is inadequate to handle the amount of builton offered, and I have taken the matter up with Director of the Mint Lench, and am expecting his reply daily. We have been able, with my force working overtime, to keep up with our work, but with the amount coming in and that which will come in with the completion of the reduction works now under way, we cannot works now under war, we cannot handle it; but all that will be carefully looked after by the proper officials."

TINTIC MINE TO RESUME.

Litigation on Valuable Property Brought to a Close.

Brought to a Close.

The Big Hill Mining company of Tintic, which has been tied up in Hilgallon for so long, is at last ready to resume operations and a big effort will be made to put it on a pur with some of its famous neighbors. As a result of the compromise, John Bestelmeyer and associates have a clear title to the August group of claims adjoining.

Jesse Knight of Prove, bought a two-thirds Interest in the Big Hill from Bestelmeyer for \$15.000 and understood the holdings to consist of three claims, After the conclusion of the deal, Mr. Knight was informed that the company really owned additional ground in the August. Accordingly he brought suit to recover the holdings and the case has been hanging fire ever since.

It has at last been compromised and both companies are in position to death companies are in position to death companies.

It has at last been compromised and both companies are in ... position to develop their territory.

The Big Hill, which is located to the northeast of the Crown Point, has considerable good ore in sight and with "Uncla Jesse's" usual good fortune, ought to develop into a second Colorado.

ONE MILLION IN GOLD.

A late dispatch from Seattle says that \$1,300,000 worth of gold dust is now lying at Sümmit, on Thompson pass, just back of Valdez, on its way from Fairbanks, Alaska, to Seattle. Of this amount \$450,000 is in dust and the rest in bricks. It is the largest shipment ever sent out over the trail from Fairbanks to Valdez.

Several arrard guards are watching

Several armed guards are watching the gold in its cache day and night. A. W. McCune, Jr., leaves this even

ng for Pioche to Inspect mining property there. He goes to look over the Boston-Ploche and the Yuba East. The former has a bond on the latter. Mr. McCune expects to be away about a

CONCENTRATES.

The Utah mine, at Fish Springs, has a car of ore on the market today. The assay sheet shows 134 ounces in silver and 40 per cent lead. The mine is looking fine and gaining in premise

Mr. Herbert Pembroke is visiting the Morgan Argentias property in Morgan county. The Argentine is in the same locality as the Carbonate Hill and Car-bonate Gem mines.

Receipts returned from the last car of ore from the Ludwig mine, of the Nevada Douglas company at Yering-ton, show the lot to run 21 per cent iron and 18.4 per cent copper.

A carload of ore from the Dollarbide mine at Ketchum, Nev., is en route to the valley smelters.

The offices of the Nevada Utah Mines and Smelter corporation are being mov-ed today to Pioche, Nev., where the company mines are located.

P. D. Rolphing leaves tonight for Frisco on a brief mining trip.

Fred C. Ferron, who is connected with the Raven Mining company on the Unitah reservation, is in town for a few days. Mr. Ferron states that the Raven company is working along steadily and regular shipments of glisonite and elaberite are being sent out.

TODAY'S MONEY MARKET.

BITS FROM EVERYWHERE.

One of the latest curlosities in labor circles is the formation of a Pallbearrs' union in Alexandria, Va. The Salvation Army is established in

2 countries and colonies and preaches the gospel in II languages, The gypsies of Granada, Spain, are inique among the race as cave dwel-

ers, living in recesses hollowed out of hillside not far from the city, Elitores Island, between Hinsdale, N. H., and Vernon, Vt., in the Con-necticut river, has been washed away-by a freshet. The island was several acres in extent, and was heavily wood-

It is stated that the late Duke of Pless left personal property to the val-ue of £4,150,000. In his will be left mothing to his servants, with the single exception of his valet, in whose arms be died.

The summit of Pike's peak is 14,127 for above the level of the sea. For he past 12 years this aumnit has been cached by a cog roud. It is now pro-osed to electrify the system at a cost

United States imported from ranced uring the year 1996 walnuts of the value of \$12,884,658; from Germany, \$3,101 worth; from France, in uits and nuts, a total of \$2,479,799, and from Garmany, \$56,691.

There is an old curiosity shop in Lon-on which makes a specialty of heathen stites. All kinds of images small and true, handsome, hideous and grotesque

delties. All kinds of images small and large, handsome, hideous and grotesque are on view. You can choose an antique axtee god from Mexico, carved in heavy stone and hideous anough to scare a burgiar; you can purchase a marble delty from Mandalay, a wooden atrocity from Mandalay, a wooden atrocity, who me though the method and atribuse from titing Milton's greatness thought him 'which a bore that he one could read him.' It is not surprising, therefore, that Thackerny never essayed the 'big bew-wow kind' of poetry.

Edinburgh has some queerly named aircels, aroong which are Jacob's ladder, Cabriel's ladder, Coffin hase and Cuddy lane. It is, however, in the 'close' that this ancient city figures best. There are, for instance. Hole in the Wall close, Little Jack close, Lady Stairs. Hoaveaway and Long close. The last is one of the shortest of these, and in that resembles Crooked and Turnagath lanes in London, the former belog as straight as a die and the latter so marrow that a vehicle in it cannot not possibly turn again.—Cleveland

MARKET GLOSED STRONG BUOYANT

stocks were moderately changed from the last quotations of Wednesday. Gains were in the majority but there was a sprinkling of small losses and the volume of transactions was meager. Southern Railway preferred rose 1%, Mackay company's 1%, Southern Paoffic 1%, Union Pacific and Canadian Pacific I, and St. Paul, Atchison Chesapsake & Ohio, St. Louis and San Francisco second prefered, and Ameri-

Chesapeake & Ohio, St. Louis and San Francisco second prefered, and American Smelting large fractions.

National Railroud of Mexico preferred sold at a decline of 4% and Western Union 1.

Forced selling of Missouri Pacific and Western Union weakened the market and some of the principal stocks fell back a point or so from their first prices. Both Missouri Pacific and Western Union were driven to new low record figures at 44% and 54% respectively, which were 2% and 4% below Wednesday's closing. Northern Pacific, Pennsylvanis, and American Smelting also fell a point. Illinois Central improved 3 and Kansas City Southern 1. The market railled and became steady at 11 o'clock.

Prices fluctuated fitfully. St. Paul declined 1%, New York Central %, Chicago Great Western prefered 2. National Lead 1.

donal Lend 1.

tional Lead I.

United Railways and Investment preferred and New York Doct, preferred. 3%. Reading's rise of 1¼ pulled the market up afterwards. Chicago & Alton and Mackage companys preferred rose I, New York, Chicago & St. Louis second preferred, 3; American Steel Foundry preferred, 1½, and Consolidated Gas, 4. The tone was heavy at noon. Bonds were strong.

Amalgamated copper receded a point before the market began to recover. Unlon Pacific was bought heavily around 112 and ultimately rose to the highest price of the day with a strengthening effect on the rest of the list.

list.

The stock market turned strong after 1 o'cleck. There was a spirited demand for many stocks, and gains of a point or more became numerous.

The market closed active and buoyant. Consolidated Gas and Federal Mining preferred rose 7. American Smelting, 4%; Southern Pacific, Northern Pacific, Pennsylvania, United States Steel preferred, 2 to 2%, and the list generally from 1 to 3 points.

FIRE IN HARVARD HOUSE.

One Man Killed, the Result of Jumping from Window.

ing from Window.
Glouchester, Mass., Nov. 29.—A fire in the Harvard house here today resulted in one death, several injured and a damage estimated at \$15,000. A man believed to be George Chambrs of this city was killed by jumping from a window on the second floor of the burning apartment hause which was a three and one-half story structure.

The injured persons include several fremen who, hesides leg fractures, were overcome by smoke and Mrs. Johnson who was so hadly affected by the smoke that at first her condition was regarded as very serious.

The Harvard house was owned by the L. E. Smith company.

Use of Sahat Grass.

Sabal grass, useful for thatching and paper making is being grown more and more in India on land too poor for rice. The greas yields 150 to \$130 per acre.—New York Post.

JUVENILE COURT OWES NO MONEY

New York, Nov. 29.—First prices of At Least Not as Back Rent for Quarters, Says Mayor.

BUT TRIBUNAL MUST VACATE.

Auditor's Department Needs More Space-Exchange of Offices is Suggested and Probable.

Mayor John S. Bransford has vetoed the resolution adopted by the city counell at a recent session requiring the juvenile court commission to pay \$75 per month back rent on its quarters in the joint building since the court was made a part of the judicial machinery of the Third judicial district and taken out of the hands of the city adminisration. He cites as his reason that tration. He cites as his reason that the court was tendered the use of the rooms by Mayor Thompson free of charge. He includes in his veto the statement that he will approve the resolution if the council will adopt it without the payment clause, merely advising the court to vacate the rooms Jan. 1. SOME NEEDED CHANGES.

It is said that the auditor's depart-

It is said that the auditor's department will need the room when the new system of accounting is taken up and that its present quarters will be all too small for the purposes of the office. There is a move afoot to effect a change of quarters between the court and the auditor. The court will be willing to accept the present quarters of the auditor and is more than willing to give up its present quarters. There is need for the court to be situated in the joint building, however, to give an opportunity to consult with the county alterney on many matters coming before the court for settlement.

NOTICE OF SALE.
