

EXPLORATION OF THE HUDSON RIVER

Plans to Celebrate Three Hundredth Anniversary of That Event.

AND ITS NAVIGATION BY STEAM

Navies of the World to be Invited to Participate in the Celebration.

New York, June 14.—Plans for the celebration of the three hundredth anniversary of Henry Hudson's exploration of the river which bears his name, and the one hundredth anniversary of the first navigation of that river by steam by Robert Fulton took tangible shape yesterday at a meeting of the Hudson-Fulton celebration executive committee, presided over by Gen. Stewart L. Woodford, the chairman. It was decided the celebration should take place the week beginning Sept. 20, 1909, and that instead of a temporary "world's fair" there shall be dedicated monumental works of lasting benefit to the people.

The first day of the celebration, it is arranged, shall be given over to a naval parade or aquatic pageant up the Hudson river in which the navies of the world, especially those of the United States and Great Britain shall be invited to participate, as well as all manner of merchant and pleasure craft. It is recommended that a feature of the parade be models of the vessels Half Moon and Clermont, the Netherlands being asked to furnish the model of the former. The deep draught vessels will proceed up the river as far as Haverstraw bay, the Half Moon and Clermont, escorted by smaller craft, continuing as far north as Albany.

The second day will be marked by a land parade and literary, historical and musical exercises. The third day it is proposed shall be devoted to the dedication of memorials. One of these will be the Hudson river bridge extending from Inwood hill to Spuyten Duyvil hill, across Spuyten Duyvil creek at its confluence with the Hudson river. It is recommended that a public park be acquired in Inwood at the southern terminus of the bridge, and that suitable buildings or monuments be erected there.

S. F. SCHOOLS.

Appeal to American People to Help Rebuild Them.

San Francisco, June 13.—In behalf of more than 20,000 schoolchildren in San Francisco who are deprived of educational advantages by the burning of 34 schoolhouses, Alfred Boncovier, superintendent of San Francisco's public school department, notified the people of the United States that a school reconstruction committee, empowered to receive subscriptions for rebuilding destroyed schoolhouses, has been formed, with Mayor Schmitz as chairman.

The appointment of a San Francisco school day to every state and territory is recommended by the school reconstruction committee, when contributions may be made by schoolchildren throughout the land.

LE DOUX MURDER TRIAL.

Spectators Disappointed as to Development of Sensations.

Stockton, Cal., June 13.—The spectators who crowded Judge Nutter's courtroom from day to day, hoping to hear something sensational in the Le Doux murder trial, have so far been disappointed. Much of the testimony is of a decidedly technical character, though relieved occasionally by fits between witnesses and defendant's counsel.

Almost the entire morning session today was taken up by a rigid cross-examination of Prof. R. R. Rodgers, the witness who analyzed the tissue from the viscera of the dead man. He was closely cross-examined regarding his experiments. Once the court rebuked the witness for telling the attorney to stop repeating questions he had already answered, and once the court rebuked Atty. Kell for suggesting that the witness was paid a fee for testifying. Most of the witness known to science, together with their effect upon the system, was the subject of the testimony. Mr. Rodgers stuck to his declaration, however, that morphine had caused the death of McVie, and that he could not possibly be mistaken as to its presence in the tissues examined.

MISS. REPUBLICAN TICKET.

Duluth, Minn., June 13.—The Republican state convention today nominated the following state ticket:

Governor—A. L. Cole, Walker.
Lieutenant Governor—A. O. Eberhardt, Mankato.
Treasurer—C. C. Dinehart, Slayton.
Attorney General—E. T. Young, Appleton.
Secretary of State—Julius Schnahl, Redwood Falls.
Auditor—S. J. Iverson, Rushford.
Clerk of the Supreme Court—C. A. Plagson, Buffalo.
Railroad Commissioner—C. F. Starnes, West St. Paul.

A HUMAN OSTRICH'S STOMACH.

Minneapolis, June 13.—E. Wallace, who for years has been traveling with a circus as a "human ostrich," was operated on at the city hospital here today. The surgeons removed 57 nails, three or four pieces of glass and five pieces of wire from his stomach. The surgeons say he will recover.

Nervous Worn-Out

If you are in this condition, your nerve force is weak—the power is giving out, the organs of your body have "slowed up," and do their work imperfectly. This failure to do the work required, clogs the system and brings distress and disease. When the nerves are weak the heart is unable to force the life-giving blood through your veins; the stomach fails to digest food; the kidneys lack power to filter impurities from the blood, and the poisonous waste remains in the system to breed disease. Nerve energy must be restored. Dr. Miles' Nerve will do it, because it strengthens the nerves; it is a nerve medicine and tonic, that rebuilds the entire nervous system.

"Several years ago I was all broken down. I was nervous, worn-out, could not sleep, and was in constant pain. I was doctoring for months, and finally the doctor said he could do nothing for me. I began taking Dr. Miles' Nerve, and used altogether eight bottles, and I became strong and healthy, and now weigh 170 pounds."

H. C. CUNNINGHAM,
108 Ellsworth Ave., Allegheny, Pa.

Dr. Miles' Nerve is sold by every druggist, who will guarantee that the first bottle will benefit you. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

MONTANA STORM DESTRUCTIVE.

Hayden, Mont., June 13.—The path of yesterday's storm, hail and wind, was about four miles wide, and extended at least 15 miles, moving from the southwest to the northeast. The damage to property was not so extensive as at first reported, although by all odds the worst windstorm in the history of the Hayden weather bureau.

Observer C. W. Ling says the wind for about 10 minutes attained a velocity of 72 miles an hour. The Hayden Commercial company's store building, a concrete affair, was partially blown down, entailing a loss of several thousand dollars. About \$2,000 worth of window panes were destroyed in Hayden. The residence of John W. Clark, two miles east of town, was blown down. A portion of the commissary building at Fort Assinibouline was demolished, and the shooting gallery and gymnasium blown down, chimneys swept away and much glass broken.

The total damage to the military post is conservatively estimated at \$10,000. So far as reported up to noon, no lives were lost and only one person, William Travers, delivery wagon driver in Hayden, injured. Three horses were killed by falling walls.

TO DEFRAUD PHILADELPHIA.

Several Persons Placed on Trial on Charge of Conspiracy.

Philadelphia, June 13.—Abraham L. English, former director of public safety of this city, P. H. Johnson, former city architect; J. D. Finley, a building inspector, and H. A. Batton, one of the firm of Henderson & Co., contractors, were placed on trial today charged with conspiracy to defraud the city in connection with the construction of a municipal hospital.

The defendants were arrested shortly after Mayor Weaver's break with the Republican organization. Johnson and Finley are relatives of E. W. Durham, former leader of the Republican organization of this city.

TYPE OF CANAL.

Decision Regarding It May Prolong Session of Congress.

Washington, June 13.—An unexpected snag was struck today in the movement for an early adjournment, and it is possible that the type of the Panama canal must be settled before Congress closes its session. Secy. Taft was in conference with Speaker Cannon and Chairman Hepburn of the committee on Interstate and foreign commerce, which handles the canal legislation, and there is a disposition to settle the type of canal before the adjournment of Congress.

Secy. Taft is earnest in his efforts to have this matter settled before work proceeds much further. It is possible that when the appropriation of \$25,000,000 for continuing the work on the canal is reached that an amendment for an \$5-foot lock canal will be made which would mean a determination of the type before this great supply measure could become a law.

AFTER NAVY SHOE CONTRACT.

Washington, June 13.—Representative Le Pen of Pennsylvania presented a resolution today, which was referred to the committee on rules, calling for an investigation of the navy department regarding the award by it of a contract for 30,000 pairs of calf shoes at \$2.50 per pair when lowest bid was \$2.32.

ANARCHISTS HAVE MONEY.

Madrid, June 13.—According to the newspapers, the minister of the interior declared today that \$100,000 is in the Bank of Spain at the disposition of anarchists. It is believed to have been deposited by their political supporters.

CORN INSPECTION.

New York, June 14.—The secretary of the New York produce exchange yesterday received a communication from John McGuire, secretary of the Liverpool Corn Trade association, re-

fusing to recognize the grain inspection of Norfolk and Newport News, and stating that the London corn trade association had joined in similar action. The communication follows:

"I am instructed to inform you that in consequence of the satisfactory shipments of certificated No. 2 corn from Newport News and Norfolk, Va., the directors have deemed it necessary to take steps to protect the interests of the buyers and in conjunction with the London Corn Trade association the following clause has been agreed upon for insertion in American grain contracts: Official certification of inspection is to be final as to quality. Newport News and Norfolk, Va., inspection excluded."

"It has also been arranged with the London Corn Trade association that in order to conform to the present practice the payment clause of Pacific coast contract forms, numbers 11, 14 and 21 (Prompt, expired, or arrived), should be amended to read as follows: 'Payment by net cash in London in exchange for shipping documents within seven days from the date of contract.'"

BEATING HIS WAY.

Aaron Kolbe Probably Fatally Injured Jumping From Blind Baggage.

San Bernardino, Cal., June 14.—Aaron Kolbe, a young man from Harris Mill, Ohio, was probably fatally injured tonight by jumping from the blind baggage of a Salt Lake overland train near Cottonwood, on the desert. He and Harry Swonger of Cotton were beating their way to Salt Lake, taking a switchlight, Kolbe, carrying the train was in the barstow yards, and to avoid chances of arrest, leaped. He was lying off the track when found by a freight crew.

McCLELLAN ON "THE PROFESSION OF POLITICS"

Schenectady, N. Y., June 14.—Speaking from the topic "The Profession of Politics," at the commencement exercises at Union college yesterday, Mayor George B. McClellan of New York said that he wished it to be understood that by the profession of politics he did not mean the trade of politics. There was no occasion for more leaders, more soldiers, more despots, than the trade of politics. There was none more inspiring, more capable of good, than its profession.

The theory that graft could, under certain circumstances, be honest, had done more to discredit a great profession than all the mud-slingers, yellow journalists and muck-rakers combined. The standard by which the politician should be judged could not be too high. What was wanted in public life in this country, the mayor maintained, was not so much financial integrity and money honesty, but moral courage and intellectual integrity. There were certain essentials to success in politics. Without which no man should undertake his profession, and these essentials were four, a sense of honor, common sense, a sense of proportion and last, but not least, a sense of humor.

In the course of his address Mayor McClellan defended Dist. Atty. William T. Jerome of New York county. The mayor referred to the public as a hard master to serve.

WOMAN MAYBE AUCTIONEERS.

Chicago, June 14.—The International Association of Auctioneers at its convention here yesterday adopted a resolution allowing women to become members of the association.

Complaint was made that many places exact an exorbitant fee. In some places this fee reaches \$50 a day. Several speakers declared that portion of the law wherein masters in chancery are made auctioneers of estates works injustice to the heirs as an experienced auctioneer would secure better results.

The session will close today with the election of officers and selection of a place for the convention of 1907.

MUST'N'T SASS WAITRESSES.

Chicago, June 14.—The members of the Waitresses' union held an indignation meeting yesterday at which their sentiments were expressed unanimously in the following maxims for the benefit of the managers:

"Employers shall not use profane language to waitresses."

"Waitresses shall not be reprimanded in the presence of guests."

These two dicta were carefully typed-written and laid on the desk of the manager of every downtown restaurant where girls are employed. Accompanying them was a note to the effect that unless employers said in plain English to the waitress to follow these rules they may be confronted with strikes.

The indignation of the young women is said to have been aroused when a manager in a restaurant discharged a waitress for talking offensively to a rhapsymand. The manager afterward apologized, it is said, but this did not appease the wrath of the young woman belonging to the union.

ENGAGES MME. PLACHINGER.

New York, June 14.—Heinrich Conrad cabled from Berlin yesterday that he had engaged Mme. Thila Plachinger of the royal opera house in Berlin to sing the leading dramatic roles at the Metropolitan Opera House next season.

Mme. Plachinger has been a member of the company at the royal opera house for the last six years. Last summer she was one of the singers at the Wagner festival in Munich. At the Metropolitan she will appear as Brunhilde, Isolde, Elizabeth and Senta in the Wagner repertoire, and as Leonora in "Fidelio."

WANTS TO SEE MINUTES.

New York, June 14.—Dr. Walter R. Gillette, one of the former vice presidents of the Mutual Life Insurance company, who was indicted recently, applied yesterday through counsel to inspect the minutes of the special insurance grand jury in connection with the investigation leading up to the indictments against him.

Dist. Atty. Jerome, following a precedent set by Supreme Court Justice Kennediff in the Hummel case, went before Justice Scott in the criminal branch of the supreme court and said that he did not object to Dr. Gillette's being permitted to inspect the record of his own testimony before the special grand jury. Justice Scott so ordered, and added that this should not in any way interfere with the right of the defendant to renew his motion for an inspection of the grand jury minutes. Each of the six indictments issued against Dr. Gillette finds the defendant as one of the witnesses.

AM. LIBRARY ASSN.

New York, June 14.—The thirty-first annual conference of the American Library association will be held at Narragansett Pier, R. I., on July 1, 2 and 3 of this week. The association has about 1,500 members, who are librarians and their assistants, state library commissioners, trustees of libraries and men and women who are interested in library work.

DISASTER MADE HIM INSANE.

New York, June 14.—Application was made in the supreme court Brooklyn, yesterday, to have Ralph A. Ross, declared insane, and a commission appointed for his person. It is asserted that the scene in San Francisco after the earthquake has affected his mind. He was there in business and his home was destroyed. He is now in the Broadway Central hotel under the care of a physician; he has, it was said, about \$100 in personal property.

O'DONOVAN ROSSA RETURNS.

New York, June 14.—O'Donovan Rossa, who went to Ireland last November to become secretary of the Irish common council, came back with his family on the steamship Caronia, which arrived here yesterday.

Do You Want Milk of Uniform Quality

Milk you buy of your milkman varies in its percentage composition as much as 30 per cent. It is apt to be fair one day and very weak the next.

Carnation Cream

(Sterilized)

is of unvarying uniformity. It is nothing but the pure, evaporated milk from healthy cows, and is exceedingly rich in butter fat. By sterilizing it, we destroy all disease germs and bacteria. Use Carnation Cream for all cooking purposes.

Delicious, light mashed potatoes may be made if Carnation Cream is used in their preparation.

PEOPLE'S WRONGS.

Those of Workers to be Righted by Independent Political Action.

Springfield, Mass., June 14.—At the convention of the New England Allied Printing Trades council yesterday the principle of the eight-hour day was reaffirmed, and resolutions were passed endorsing the movement among wage earners to have the wrongs of the working people righted by independent political action, and the organization of non-partisan political clubs. The principle of local option in taxation; Congressman W. R. Hearst, in having the eight-hour bill in the house of representatives; the admission of any abridged immigrant, and the anti-injunction bill now before Congress. Other resolutions were adopted recommending that plank 10 of the A. P. of L. should be changed to read:

"The abolition of the monopoly system."

"DRUNKENNESS"

CIGARETTE AND TOBACCO HABITS CURED BY

TRIB

Read what Judge A. L. Curry, a prominent judge of Baker City, Ore., says of "TRIB":

"I have given your TRIB a fair trial and followed directions fully, and now desire to tender you my unqualified word as to its efficiency. Let me truthfully say that I feel entirely different in every way. It seems strange, indeed, to me to be ready and waiting for three square meals a day, good solid, pleasant, refreshing sleep, no nervous nightmares and a degree of self-reliance that used to require more than one cocktail to induce. I did not take 'TRIB' from a moral standpoint, but it was a choice between liquor, the pipe box and 'TRIB' and 'TRIB' won out in a fair contest. I positively have no appetite for intoxicants and can judge others by myself, anyone can derive the same benefit. 'TRIB' has made many happy homes."

Investigate this remedy while we are offering an absolute guarantee with every treatment. \$12.50

OLD SORES OFTEN LEAD TO CANCER

Whenever a sore or ulcer does not heal and shows signs of becoming chronic, it should arouse suspicion, because many of these places lead to Cancer. It may appear as an ordinary sore at first, and is given treatment as such, with some simple salve, wash or plaster, with the hope that the place will heal, but the real seat of the trouble is in the blood and cannot be reached by external remedies, and soon the sore will return. After awhile the deadly poison begins to eat into the surrounding flesh and the ulcer spreads rapidly, becoming more offensive and alarming until at last the sufferer finds he is afflicted with Cancer. Cancerous ulcers often start from a boil, wart, mole or pimple, which has been bruised or roughly handled, showing that the taint is in the blood, perhaps inherited. Another cause for non-healing ulcers and sores is the remains of some constitutional disease or the effects of a long spell of sickness. S. S. S. goes down to the very root of the trouble and cures so thoroughly that there is never any sign of the trouble in after years. As soon as the system gets under the influence of S. S. S. the place begins to improve, the discharge gradually grows less, the inflammation leaves, the flesh resumes its healthy color, and soon the sore is well, because every vestige of the cause has been removed from the blood. Book on sores and ulcers and medical advice without charge.
