

MINING, BUSINESS AND STOCKS

TRADING BRISK ON EXCHANGE

Daily Judge Active But Remained At a Stationary Price Throughout Forenoon Calls.

MAMMOTH AND N. Y. BONANZA

Both in Demand and Made Advances—Columbus Con. Down on Open Board.

The forenoon business of the Salt Lake Stock & Mining exchange amounted to the transfer of 42,552 shares of stocks for which was paid \$39,302.87.

During regular call 800 shares of Daily Judge sold at \$12; but the interest was centered chiefly on Mammoth and New York Bonanza, both of which were in demand and at an advance. But the principal trading was done on the open board when Ohio Copper showed evidences of revival, advancing from \$1.60, the opening sale price, to \$1.77 1/2 at this close.

Columbus Consolidated sold down to \$8, while South Columbus found buyers at 29 cents. Thompson was bought at 29 cents.

The closing quotations and sales were:

LOST \$12,000,000.

That is the Cost of the Enormous Recent Coal Strike to Miners.

Seranton, July 6.—Figures just compiled under the direction of the president of one of the largest coal companies with headquarters here, show that the wage loss to miners during the suspension of work, from April 1 to May 15, ordered by John Mitchell, president of the miners' union, amounted to more than \$12,000,000. The total anthracite shipments in April, 1906, were 5,278,041 tons; and for May, 1906, 5,690,158 tons. Estimated on this basis the tonnage from April 1 to May 15, 1906, would have been more than 8,000,000 tons. The average amount paid in wages of labor per ton of production in the anthracite field is \$1.55, showing a loss of at least \$12,000,000 sustained by the wage earners.

The \$1.55 per ton does not include the salaries of superintendents, office men, or any other wage item beyond the amount paid to the actual workers in the mine and breaker. During the period of idleness the men received no money from their employer, so that when they returned to the mines after six weeks' idleness, on exactly the same terms prevailing when they were ordered out, their loss of earnings amounted to over \$12,000,000 net.

SALE OF PISCHE MINE.

Montana Syndicate Ties up the Old Bullion Property.

From Pische the information has been received that the Prince, or old Bullion mine, has been bonded to a Montana syndicate which will undertake the development of the property upon an extensive plan. The syndicate was recently by a mining engineer by the name of Wilson in behalf of the Butte crowd. The belief prevails in Pische that F. Augustus Heinze is interested in the acquisition of this property, but the report lacks confirmation although it is not improbable inasmuch as the Montana has become a factor in Bingham Consolidated affairs.

MEADOW VALLEY NO. 5.

Shaft is Now in Good Repair to 600 Feet Depth.

The Nevada-Utah Mines & Smelters corporation is pushing the work of opening its mines at Pioche, Nev. The No. 5 shaft at the old Meadow Valley mine has been repaired and put in good order down to the 600. Below this point it is believed the timbering will need but little repairing and that the company will be in shape to hoist ore from this property before the new railroad reaches camp.

NEW NEVADA DISTRICT.

Good Mineralized District Found in Hot Creek Range.

It was certain that there was something in the air last Friday night, says the Sun of Goldfield, when Manager E. A. McNaughton of the Black Butte mine and a dozen others started out on a big game of Tybo over in the Hot Creek range, and a little more than half way between here and Ely in White Pine county. Some friends of McNaughton have been over there and last Friday went word to the effect that it was a thoroughly mineralized section and confidentially to come over at once for something good awaited him. Depending upon the reliability of his information, the Black Butte manager got ready to go, and he and his friends. They made no particular secret of their destination so that report of the new strike spread like wild fire. Having heard of this two big auto loads left Goldfield today for that section and in all probability reports good or bad will be received here by tomorrow evening, when McNaughton is expected to return.

CLARK IN WYOMING.

Montana Senator Gets Foothold in Copper Mountain District.

(Special to the "News.")
Shoshoni, Wyo., July 6.—There is a rumor here that Sen. Williams, one of the original locators in the Copper Mountain district, has sold his group of claims to Senator Clark of Montana. Representatives of Clark have been in the Copper Mountain country for several weeks.

The Davidson group, located on West Bridge creek, has been sold to the Big Nine Mining company, which is composed of Basin, Wyo., men.

Prospectors from all sections of the country are drifting into the Copper Mountain country.

ON ANTELOPE CLAIM.

Special Correspondence.

Gordon, Nev., July 2.—Considerable high grade gold-bearing rock is being mined and sacked on the Antelope claim of the Round Mountain Antelope Mining company, and aside from the character of the rock being allowed to accumulate on the dump until such time as stamp mills are erected in that section of the Manhattan mineral belt.

FIND RICH SILVER ORE.

(Special to the "News.")

Elk Mountain, Wyo., July 4.—Charles Blackburn and M. Brown of Hahn's peak have opened a large body of silver and lead ore near this place, and have assays which return from \$30 to \$50 to the ton in these metals.

FREE COINAGE ASSESSMENT.

At a meeting of shareholders of the Free Coinage Mining & Milling company's directors yesterday afternoon an assessment was levied, from which the treasury expects to realize \$2,500. It is the intention to resume development work at the property after four years of inactivity. The property of the Free Coinage company is located at Alta.

CLARK GROUP TO A. H. MAYNE

Property in the Ramsey, Nevada. Mining District Taken in by Well Known Salt Laker.

OBTAINED SOME HIGH ASSAYS

Values Run Principally in Gold—Camp Located Not Far From Mina on N. & C. Railway.

A letter received in this city today by H. B. Cole, the well known broker, from A. H. Mayne, who is now at Goldfield, conveyed the information that he had closed a deal for the purchase of the Clark group of claims in the Ramsey mining district, not far from Mina, a division station on the Nevada & California railway, in Esmeralda county, Nevada.

The Clark property is the one on which the first discoveries were made at Ramsey and from what Mr. Mayne says, it bears very good indications of developing into a producer of considerable importance.

Mr. Mayne made a personal inspection of the ground in question, and that he found an immense ledge outcropping which stands out above the surface in places to a height of from 15 to 20 feet, while the width of the outcrop is fully as much. Four assays of ore taken from various portions along the strike of the ledge for 200 feet gave returns of \$258.28; \$17.60; \$188.35, and \$140.22, the predominating metal being gold. The highest silver value obtained was 12.45 ounces.

Interested with Mr. Mayne in the acquisition of the ground is F. J. Gay, H. T. Bragdon, E. H. Mead, L. D. Gordon, Richard Cole, while Chas. Cole & Company of this city were let in for a one-fifth interest.

Considerable interest is being aroused in the Ramsey district and quite a lively camp has been established there. A company will be organized.

FILES INCORPORATION PAPERS.

Special Correspondence.

Provo, July 6.—The Midnight Bell Mining & Milling company has filed articles of incorporation with the county clerk.

The company owns the Midnight Bell Nos. 1, 2 and 3, and the Cyclone mining claims in the Alpine mining district, and is capitalized for \$500,000.

Shares of the par value of \$1, the stock being based on the valuation of the above-named claims. Lehi is the principal place of business, and the following are the directors and officers: A. J. Evans, president; Walter J. Riggs, vice president; Marion Walker, Ira McDaniell and Ed Kendall, with Edward Southwick secretary and James M. Kirkham treasurer.

CONCENTRATES.

George S. Hayes has returned from a round-up of Nevada mining camps.

John Derr, manager of the Uncle Sam and Lower Mammoth properties, is in the Tinian district today.

Cashier J. M. Hayes of the Utah Copper company is expected home from his vacation early next week.

L. A. Jeffs has returned from making an inspection of the Woodlawn and adjacent property at Alta.

State Geologist H. C. Beeler of Wyoming, is conducting mine examinations in the Big Horn mountains, near Buffalo.

The Davis-Calk ore drill purchased recently for the West Copper mine at Park City, will be placed in commission today.

J. Fawcett Smith, attached to the staff of the United States Smelting, Refining and Mining company, is in Bingham today.

James A. Pollock, president of the Salt Lake Stock and Mining exchange, departed for Missouri, yesterday afternoon, to be absent several weeks.

Henry G. McMillan returned yesterday from a trip to Ketchikan, Ida., to look after a mining property in which he is interested near that place.

Ben D. Luce was at Westgate, Nev., last week finishing up the state work on sixteen lode mining claims owned by himself and D. H. Peery of this city.

The ore and bullion settlements reported late yesterday by McCormick & Co. were: Crude ore and concentrates, \$17,000; base bullion, \$17,000; gold bullion, \$5,800.

Deeds have been filed in Lincoln county, Nev., conveying the properties of the Hillside Copper and Bristol Copper companies to the Bristol Consolidated Mining company.

The Round Mountain Alpine Mining company at Round Mountain, Nev., is engaged in surface prospecting its property preparatory to sinking a deep working shaft and prospecting extensive development work at depth.

Manager Walter C. Orem of the Utah Apex and Belmont mines, who was here yesterday for a vacation of several weeks' duration. While away, Mr. Orem will visit the general offices of the Apex company, which are located in Boston.

General Supt. Gammell of the Utah Copper company, is preparing to put the steam shovel to work removing the overburden from the copper bearing porphyry ore deposits on the domains of the company in upper Bingham canyon.

John Treweek, general manager of the Belle of Thunder Mountain mine of Idaho, is in the city on his way to Pittsburgh to confer with directors of the corporation. The matter of future equipment of the property will be discussed at the meeting.

Manager E. J. Radatta of the Honerine mine at Stockton expects to begin moving ore out of the Honerine tunnel about the middle of the present month for shipment under the modified contract with the American Smelting and Refining company.

H. S. Joseph, president of the Peet-Russell Engineering company, has received a letter from C. A. Post advising him of some new discoveries near Wadsworth, Nev., and in a district known as Chlorine. The new camp is about two miles from Wadsworth.

Curtis L. Knight, consulting engineer for the O'Meara Lynch company, has returned from Denver where he went recently with M. J. O'Meara and Thomas J. Lynch to witness some tests on ore from the Silver Peak-Vale mine at Silver Peak. The tests are being made for the purpose of determining on the method of ore dressing to be employed in the future.

It is the intention to equip the property with a mill in the near future.

Of the properties of the Fairview Consolidated, in which Edward McCormick of this city is interested, the Miner of Fairview, Nev., says: "The men who are looking after the interests of the Fairview Consolidated Mining company's ground are in no way slow in developing the property, as the fact that work has been done on the ground will go to prove. The work of sinking a shaft is in progress, and 10 feet of the task has been accomplished the past week. A good property, the values from which are yet unknown, but all indications point to good results from assays from the same."

A message over the Pollock wires, which came late yesterday afternoon, conveyed the information that the Raven Mining company, which has been operating at Butte, had suspended work on the Snooper claim as the Raven Mining company had forbidden any further opening of the Snooper group, claiming that the main Snooper vein apex in the La Plata claim owned by the Amalgamated. This contention is denied by the Raven people, but they are powerless to further operate the Snooper claim as the Amalgamated company will not permit of operations through its Buffalo property, the only means at present of reaching the Snooper underground workings. The Raven Mining company sold its stock at \$3 a share recently, but after the news of the shut-down came out it was offered freely at 90 cents.

One hundred De Forest Wireless stock at \$3.00. Must be sold at once, so give us a bid. De Forest & Co., Tel. 165. 52 D. F. Walker block.

"MRS. WARREN'S PROFESSION"

Its Production in New York Not a Violation of Penal Code.

New York, July 6.—The production of George Bernard Shaw's play "Mrs. Warren's Profession" in this city during the last theatrical season was not a violation of the penal code, according to a decision handed down by the Justice of the Peace court today.

The decision was given in the cases of Arnold Daly and Samuel Gumpertz, who were arrested at the time the play was ordered discontinued by the police commission. The two defendants are acquitted by the decision announced today.

ZEVALA FORFEITS BAIL.

Washington, July 6.—When the case of Alfonso Zeyala, son of the president of Nicaragua, who was arrested here on warrant charging petit larceny, the collateral amounting to \$10, which was put up to secure his release was forfeited, the accused not appearing.

IS FRENCH LICK HOTEL MANAGEMENT ABOVE LAW?

Winona Lake, Ind., July 6.—Gov. Hanly, at whose command the raid on the casinos at French Lick and Winona Lake was made today made a statement, in which he says:

"We shall now learn whether the management of the French Lick Springs Hotel company and the West Baden Hotel company is above the law. The law is not between the managers and these companies and me. It is between them and a far greater and more enduring power—between them and the law. The statement of Mr. Taggart that the French Lick Springs Hotel company has not and will not tolerate gambling in its premises, in the light of recent developments and evidence in the possession of the state scarcely rises to the force and dignity of a jest. If his statement is true, what is the meaning of the casino court proceedings taken from the premises of the hotel company? He admits himself that gambling has existed. His counsel, yesterday, in open court, agreed that gambling should not be permitted between yesterday and the 10th inst., when the cases are to be heard. Where did he find this new power to stop it? The hotel safe itself has been used for weeks nightly as a place of safe keeping for the money earned by the casino. The casino building itself did not cost more than \$10,000. What legitimate purpose or use could justify the payment of the great sum, said to be \$50,000 annually, by the operator of the casino for his commission? The truth is that Mr. Taggart, as manager of the hotel company, has at no time desired anything in connection with the casino that has not been granted by its operator. On special days like that when the members of the National Editorial association visited French Lick he had the power to cause the suspension of gambling in the casino during the whole time of their visit, and it was actually closed except as to the lower floor where the slot machines were allowed to run. Mr. Taggart will not be able to fool the people of Indiana or deceive the people of this country in this matter. I believe the suits filed by Atty.-Gen. Miller to be well founded. If, for any reason, the law is inadequate as now written, I shall appeal to the people of this state without regard to their party affiliations to elect a general assembly in November that will enact a law clothing the executive with such authority as will enable him to reach such conditions."

Maybe You Live Out of Town

And can't come in. Don't let that keep you from getting M. & P. Paint.

Write for color card and tell us what you want. Just as much care taken as though you were here in person.

Curtis L. Knight, consulting engineer for the O'Meara Lynch company, has returned from Denver where he went recently with M. J. O'Meara and Thomas J. Lynch to witness some tests on ore from the Silver Peak-Vale mine at Silver Peak. The tests are being made for the purpose of determining on the method of ore dressing to be employed in the future.

MORRISON-MERRILL CO.

28 Main St.

OPENING WAS AT LOWER PRICES

Market Soon Developed Buoyancy in Western Railroads. Strengthening Whole List.

LOSS MORE THAN RECOVERED.

Rises the Rule Till Afternoon When Buiness Became the Chief Feature.

New York, July 6.—The majority of stocks opened in the market at lower prices than last night, but some of the market leaders made sharp advances. Great Northern preferred rose 2 1/2, General Electric and American 1 1/2, and Northern Pacific and U. S. Steel preferred were also a fraction higher. St. Paul, on the contrary, fell a point. New York Central and Knickerbocker 1/4, and Pennsylvania, Reading, Brooklyn Transit and American Locomotive large fractions. The dealings were on a moderate scale.

The decision which marked the opening was short-lived, the market developing buoyancy as the western railroad stocks which imparted strength to the whole list. Stocks which had been depressed to the extent of a point or more besides. By the time a level of prices well over yesterday's closing had been established buying shrank to nominal proportions, and prices commenced to ease off. Great Northern preferred improved six points, Northern Pacific 3 1/2, American 1 1/2, St. Paul 1 1/2, Reading, Delaware and Hudson and U. S. Steel preferred 1, International Pump gave way four, New York, Chicago and St. Louis 1 1/2, Minneapolis and St. Louis 1 1/2. New buying orders carried prices comparatively to a higher level than before. Dealings were moderate and another reaction followed before noon. Great Northern pfd. made an extreme rise of 1/2, Northern Pacific 3 1/2, American 1 1/2, St. Paul 1 1/2, Reading, Missouri Pacific and Tenn. Coal, U. S. Steel pfd. and Brooklyn Transit, 1 1/2, U. S. Steel, American and St. Paul, U. S. Steel and Southern Pacific, Atchafalpa, New York Central, and National Lead and others 1. The market was steady and buoyant.

Bonds were heavy. Prices had another rise in which some of the leaders, such as St. Paul, Penn. and Reading, rose higher than before but profit taking soon became effective and the market became stagnant. Bondholders recovered a point or more in special stocks, American 1/2 extended its rise to 2 points, Central of New Jersey 2 1/2, Penn. and Sugar, Republic Steel, Steel Car, Penn. Securities Gas, U. S. Rubber and Distillers Securities 1 to 1 1/4. Chicago terminal 1 1/4.

LIVESTOCK.

CHICAGO.

Chicago, July 6.—Cattle—Receipts, 200. Steady to strong; heifers, 4.10 to 4.25; cows and heifers, 3.50 to 4.00; calves, 2.50 to 3.00; Texans, 3.75 to 4.00; calves, 2.50 to 3.00. Hogs—Receipts, 2,000. Market, 5c lower. Estimated tomorrow, 12,000. Mixed and butchers, 6.50 to 6.75; good heavy, 6.50 to 6.75; rough heavy, 6.40 to 6.50; light, 6.30 to
