

MINING, BUSINESS AND STOCKS

GOOD WEEK ON THE EXCHANGE.

Sales Amounted to 120,424 Shares,
Which Brought the Sum of
\$29,993.75

LOWER MAMMOTH STILL ACTIVE

Was the Star Actor of the Call, With
Heavy Sales at 38—New York
▲ Favorite.

During the week just closed there were sold on the Salt Lake Stock & Mining Exchange 120,424 shares of stock, for which buyers paid the next sum of \$29,993.75. While this is not an unparalleled achievement, the market showed a fair degree of activity, all things considered, and the week closed with stocks in good demand at figures fairly satisfactory to all concerned.

Todays' call, while devoid of features that were sensational, brought forth a good volume of business and registered the market as active as on any day during the week. Lower Mammoth was the star actor in the trading, the stock continuing firm and selling above and below the 38 mark, also a fair amount of and left the figures of the day before to a sudden spurt to 22½. A large block went at 22, but the brokers later got wise and refused further offerings under 22½. Beck Tunnel, though burdened with a heavy load of 250 shares at 38½ and Little Chief found itself wanted at two cents. Carissa sold at 19, and Columbus Con. at \$1.80. The call closed on a record of 25,550 shares for \$142,00.

The closing figures were as follows:

The shippers were: Eagle & Blue Bell, 8; Swansea, 8; Eureka Hill-Cleuse, 1; Godiva, 4; Gemini, 1; Bullion-Beck, 1; Centennial-Eureka, 67; Ajax, 2; Carissa, 2; Grand Central, 5; Mammoth, 11; Victoria, 5.

RICHES OF GIBRALTAR.

New Strike One of the Biggest in the History of Nevada.

The Goldfield Sun says: The recent discovery on the holdings of the Gibralter Mining syndicate has developed into the biggest one in mining history yet chromed from the southern district. In drifting on the rich shoot of ore opened at the 40-foot level the workings have exposed four feet of the richness ever disclosed in this section of the state and the Gibraltar mine is now considered one of the rich benanazas of southern Nevada. A recent test of this rich body of ore, which represents only a small section of the

UTAH MEN FOR CERRO DE PASCO.

Supt. Case Touring the Camps for
The Purpose of Securing
Talented Youths.

HAS NOW GONE TO MONTANA.

McCune Property an Immense Under-
taking and Has Cost to Date
Twelve Million Dollars.

As if to accomplish his purpose without so much as announcing his presence in the city, John J. Case, big chief of the Cerro de Pasco smelting interests, slipped in quietly Thursday afternoon and left last evening for Butte, where he will continue his quest for bright young smelting men.

As stated, Mr. Case is head and front of the immense smelting plant from which A. W. McCune, et al, expect to reap a rich harvest. He is touring the smelting districts of the country for the purpose of securing the very best talent available with which to man the big plant in Peru. Yesterday he spent the greater part of the day at Bingham Junction, where it is understood, he secured the services of the Bingham Con. boys. He now goes to Butte and Anaconda where he expects to be able to get more.

Mr. Case left Clara de Pasco June 29, and has been through the smelting districts of Mexico and Arizona, from each of which he got a number of experts.

He is expected to return to the smelting plant in time to take up the work in South America. From Montana he makes his way to New York, from whence he will sail Oct. 1, in an effort to get the big plant started by the new year.

Mr. Case is an experienced smelter man, having spent his best days directing operations in Montana and Michigan. He says the Cerro de Pasco is an immense undertaking. Already it has cost the company \$12,000,000, and the construction equipment, not including the copper, is worth at least \$1,000,000. It is planned to match a copper aspern in return. This expenditure of money comprehends the erection of a smelter with the construction of a railroad with which to handle the company's product, and the development of a power plant to supply the smelter with power. The Sanpete & Sevier plant and options have changed hands several times, and the new owners are continuing to steadily advancing prices.

Z. C. M. L.'s semi-annual of four per cent and extra of two per cent will be paid to stockholders early in October. The regular quarterly dividend on Utah Sugar preferred and common will be paid on the 20th inst. Sugar City Townsite pays its 2½ per cent quarterly on Oct. 1.
