THE EVENING NEWS.

Friday, ... February, 3, 1871.

PRICE OF GOLD.

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, Feb. 3, 1871.

Buying at $1.08½; Selling at $1.11¼.

LOCAL AND OTHER MATTERS.

PRESIDENT YOUNG'S MOVEMENTS.—The following was received per Deseret Telegraph Line, this afternoon:

February, 3.

The President stayed at Toker last night and left for Cedar city at 8.40 this morning. He stays there to-night."

PUBLIC DOCUMENTS.—We are in receipt of interesting and important documents, including Sargent's bill for the admission of Utah as a State, for which we are under obligations to Hon. Wm. H. Hooper, Delegate to Congress from this Territory.

REGRET.—We regret extremely to learn that Elder Wilford and Sarah B. Woodruff, this afternoon buried their infant son Charles Henry, aged about nine weeks. We condole with the bereaved parents in their affliction.

"THE LOST SHIP" and "Spectre Bridegroom" form a rare bill, and to-morrow tickets should be secured early in order to obtain good seats as the house will doubtless be packed.

THE SIXTH LECTURE of the course on astonomy will be delivered by Professor O. Pratt, in the Tabernacle to-night. Time of commencement half past six o'clock. Admission free.

RETURNED.—John E. Caine, Esq., of the Salt Lake *Herald*, returned yesterday morning, well in health, from a business trip to the Pacific coast.

"NONNAC."—Our correspondent "Nonnac," writing from Omaha on the 28th ult., says "I crossed the river, (Missouri) three times on the ice to-day. I felt serious, as it is the first time I have done so since our wagon went through, twenty-two years ago. The bridge built by the U. P. R. R. on spiles, driven fifteen feet below the bed of the river, answers every purpose while the ice lasts. Trains run regularly without any risk. It is thought the new bridge will be so far completed as to enable them to run trains over next August. They are constructing an embankment or levee from the neighborhood of Bluff City to connect with the bridge on the east side of the river; they convey the earth from the bluffs by a small engine and cars. They evidently mean business by the way the work progresses."

A CAPITAL DEVICE FOR BOYS' SLATES.—Mr. James Dwyer has just received a large assortment of excellent school slates, which upon inspection, parents, whose children need them, we feel assured, will find to their interest to purchase. Besides being very clear, beautiful slate, there is a peculiarity in the manufacture of the frame which renders it far less liable to breakage than ordinary slates. This consists of a little knob of India rubber firmly attached or welded to each corner of the frame, so that they may be dropped almost any number of times, without fear of damage. They range, in price, from fifteen to seventy-five cents, according to size. Call and purchase quickly.

A GOOD WORK DONE.—A very useful work is now in process of completion on the Deseret Telegraph Line. The poles to which the wires of that line are attached are mainly pine and quaking-asp, both of which will decay and become worthless in the course of four or five years. To avoid the necessity of having to erect new ones in that length of time, Superintendent A. M. Musser, having an eye to economy and the best interests of the line, has had all the poles, from Ogden to clear away down South, strengthened with, in most cases, two cedar posts which are firmly pinned, one on each side, to each pole, which will render the erection of new ones unnecessary for twenty or twenty-five years. The work from Ogden to Pleasant Grove has been done by Bro. B. W. Driggs, of the latter place.

THE VERY LATEST novelty is "White Feather," an Indian lecturer, who is talking to audiences in Michigan, on "American antiquities and characteristics of the Indians."

TERMINATION OF A WALKING WATCH.—A walking match in San Francisco between two men, named respectively Jack Sheppard and P. F. Jacoby, came to a close last Sunday afternoon, Sheppard, giving in after a continuous walk of ninety-seven hours.

DIES OF CONSUMPTION.—The Helena *Gazette*, of the 28th ult., announces the death, from consumption, of General H. D. Washburne, Surveyor General of Montana Territory. The General died on the 26th ult., at his residence in Clinton, Indiana. The *Gazette* says:

"General Washburne was a faithful and energetic officer, who performed his duties and kept aloof from all schemes and complications. He was deservedly popular among his acquaintances and subordinates, and the announcement of his death will be received with universal regret. He was born in Vermont, in 1833; went out as Lieutenant in the 18th Indiana Regiment during the late war; was promoted to Brigadier and Brevet Major General and the command of a division in the Western army. He was a member of the 39th and 40th Congress, and then accepted his commission as Surveyor General of Montana, which he held at the time of his death."

THE LATE FIRE AT TRUCKEE.—In the fire at Truckee, Nev., mentioned several days since in the local Column of the NEWS, twenty buildings were burned, averaging a thousand dollars each in value. The fire was caused by a stove pipe in the Donner Hotel becoming disconnected. At the time of the fire it very unfortunately happened that the town water works were frozen.

A LAUGHABLE INCIDENT.—The *Territorial Enterprise* of the 1st instant says:

"As the German torchlight procession was passing along C. Street last night, when nearly in front of the International Hotel the torch of a youth in the procession exploded with a considerable report, sending the wick and the top of the torch clean across the street. The boy dropped his torch stick and took to his heels, when a Hibernian who was looking on said: 'Be jabers, he's no Prussian, or he'd never run like that.'"

MONTPELIER.—A YEAR BY MAIL.—Mr. C. H. Bridges, writes a few items from Montpelier, Rich county. He says they have a day and a Sabbath school and a cooperative store in operation; and as a general thing matters are prosperous in that part of the country. They have scarcely any snow there and the winter has been very mild; the "monster" has not yet been caught; and the mails are not so regular as desirable. He gives an illustration of the latter fact, too good to be lost. Last November, twelve months, he posted a letter at Montpelier to a relation residing six or seven miles south of this city; and strange to tell, last November that very letter was returned to him through the post office.

A better and truer illustration than the above, of the promptness and efficiency of the mail service in Utah under the present administration it would be hard to furnish.

"THE DUKE OF NORTHUMBERLAND."—This celebrated animal, recently imported from Canada by W. C. Rydalch, Esq., still purchased since arriving here by the Parent Society for the importation and improvement of stock, has been removed from Faust's stables and placed in charge of Bishop Thomas Jenkins, and will be kept in future on his premises on East Temple St.

Song of the oyster.—Keep me in my little bed.

PEOPLE'S VERDICT!
Over Half a Million sold and in use!
4,000 made and sold per week!
SINGER'S
New Improved Silent
FAMILY SEWING MACHINES
ARE
The Best in the World,
Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.
THE SINGER
NEW FAMILY MACHINE
Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.
It is simple, compact, durable, beautiful, quiet, light-running, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.
The New Improved Attachments for Hemming, (any width) Braiding, Embroidering, Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.
Folding Tops and Cabinet Cases.
New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from the plainest to the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.
In the Singer the work is fed or passed through the Machine in the natural direction, namely, from the operator, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.
The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.
In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, in a race, thus causing great wear, and requiring oil, soiling the thread and goods.
On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.
The SINGER is the
Oldest Practical Sewing Machine,
Being about twenty years in the market, Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who utterly fail on other Machines.
SINGER'S
New Manufacturing Machines
Claim the same advantages over others of their class as the new Family Machines. These old and well-tried Sewing Machines are applicable to all kinds of heavy and light manufacturing in Cloths, Leather, etc., and run in the most perfect and reliable manner without trouble to the operator.
HAVE ARRIVED!
A Full Assortment of those
Beautiful and Unrivaled
MACHINES.
(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Singer Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on
EASY MONTHLY INSTALMENTS
So that all may possess one of these Blessings.
For the convenience of our Patrons we have engaged the services of a gentleman who has had twenty years experience and is one of the most skilful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.
We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.
We having been so fortunate as to secure the
General Central Agency,
For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.
We Guarantee every Machine we sell to give entire satisfaction.
THE SINGER
BUTTON-HOLE MACHINE
Is the only Practical one in the World.
