In Time of Peace. , In the first months of the Russia-Jupan war we had a striking example of the mecessity for preparation and the carly advantage of those who, so to speak "have sningled their roots in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Hemedy is famous for lits cures of colds and it should be kept at hand ready for instant use. For eale by all druggists. In Time of Peace,
