Newbro's Herpicide

An Exquisite Hair Dressing.

THE ORIGINAL REMEDY THAT "KILLS THE DANDRUFF GERM."

SOME MEN DON'T CARE. Some men are so indifferent to hair loss that they pay no attention what-ever to dandruff and itching scalp. But, later, when incurable baldness comes they will waste time and money in a vain endeavor to overcome the result of their own neglect.

THERE WAS A TIME. There was a time when It was considered quite proper to ridicule and make light of the germ theory but it isn't good taste to do it now, when municipal governments are sending for scientific men to suppress germ contagion. Prof. Unna (ask your doctor about him) was the first to discover the dandruff microbe and now dermatologists the world over know that true dandruff is a contagious disease caused by a germ.

THE GUINEA-PIG PROVED IT. Drs. Lassar and Bishop, both noted scientists, took dandruff scales from the head of a student who was losing his hair and havthe head of a student who was losing his hair and having made a pomade of them with vaseline, rubbed the same upon a guinea-pig and the pig became bald. (See George Thomas Jackson, M. D., on Diseases of Skin, 4th Edition.) Newbro's Herpicide should be used at the first suggestion of dandruff or itching scalp. It prevents scalp infection, robs the public hair brush of its power to do harm, and never falls to cure dandruff and ston falling hair. stop falling hair.

THE LADIES KNOW. The ladies are quick to discover any diseased condition of the hair, for with them, the natural impulse of perservation applies particularly to Nature's Charming Adornment. When the hair becomes duil, brittle or lusterless it shows that the dandruff microbe has planted itself in the scalp and is sapping the hairs' vitality. In time it will cause dandruff, itching scalp

The face is a mirror of the mind and many women lose their youthful appearance by brooding over some physical misfortune that might be remedied. women lose their youthful appearance by brooding over some physical misfortune that might be remedied. Lasting beauty comes from the conclousness that both hair and skin are perfectly healthy, as nature gave them, and this form beauty shows through even the most irregular features. A women may be perfect in form and her complexion may rival the color of the rose, but if it is her misfortune to have scant or lifeless hair, that misfortune will continually wound her pride and be reflected in her face. To such women Herpicide is a positive delight. It gives confidence by quickly producing the "correct" effect. Makes the bair light, fluffy and gives it an indescribable charm.
