

Asst. Seey. Val Snow of the Columbus Consolidated Mining company will have the dividend checks of that company ready for the mails late this afternoon. The exact amount to be distributed among shareholders, he stated to a "News" representative today, amounts to \$42,500.70.

Consolidated

MINING DEED FILED.

The miners' strike at Goldfield is still about reached the conclusion that an early settlement is practically impossible. Special Correspondence. Ed Copley came in from Chicago yesterday on a brief business trip and will pull out for the east again this afternoon. Mr. Copley is interested in the Nevada Humboldt mine in Hum-boldt county, Nev. Provo, Jan. 4.-George H. Johnson et I have transferred by mining deed to R. H. Thompson, an one-eighth inter-est in six acres of ground adjoining the Salvator mining claim in Tintic mining district. The consideration is \$1.

Col. E. A. Wall expects to leave for the east tomorrow. He will be accom-panied by his two daughters who are going to Washington, D. C., to resume their studies. nent senators whose wishes usually prevail in such matters announce that they are unalterably opposed to the

RECAPITULATION.

Shares. Value. Regular call.....48,080 \$27,315,80

'The South Comstock

sessable shares of the corporation. "The South Comstock Consolidated Mines Co, has been organized under the laws of Arizona, with a capital stock of \$10,000,000, divided into 10,000,000 shares af \$1 each, par value. This com pany did not make the mistake that companies usually do, that is not sup-plying the treasury with ample funds; but realizing that the proposition ahead was on of enormous magnitude— for the South Comstocks or Como prop-erties are considered to be the sister ledge to the North Comstocks, that has enriched the world \$700,000,000, and which was developed by three shafts each over 3.000 feet in depth; the main bonanza of which was struck at the depth of 1,200 feet— they have left a handsome treasury reserve of stock. "The North Comstocks were devel-oped by levying assessments on its stockholders; this is not to be the stoce "The North Comstocks were devel-oped by levying assessments on its stockholders; this is not to be the case on its stockholders; this is not to be the case with the South Comstocks Consolidated Mines Co., its stock being fully paid and non-assessable, consequently, we think their judgment is sound, for they have placed in the treasury of their company \$4,000.00 of their own capital stock for operative expenses. It is not believed, however, that any great sums will be needed to place these mines on a dividend paying basis, but, as the treasury stock is owned by the out-standing stock in proportionate part, it only increases the value o fithe out-

standing stock in proportionate part, it only increases the value o fthe out-standing stock when such a heavy trensury reserve is considered. "After a great deal of negotiating we have succeeded in getting in our prop-ties, equities, rights, etc., relieving our-selves o fthe burden of further pay-ment o fthe balance due on the Logan property and receive a total sum of \$1,-950,000 of stock of the South Comstocks Como Consolidated Mines Co fully Como Consolidated Mines Co., fully paid, which has not been taken from the treasuby but from the \$6,000.000 aside from the treasury stock. The onaside from the treasury stock. The on-ly restriction placed on the stock we re-ceive, being that, as the South Com-stocks Consolidated Mines Co, will be called upon to make the development and to raise the capital. This \$1,550.00 of stock shall remain in the treasury of the Ohio-Toropah company for a period not to exceed two years, but in event that the South Constocks Consolidated Mines Co, should go upon a paying ba-sis before that time, then this obliga-tion to hold in the treasury will be can-celled, and the board of directors have a right. In their judgement either to a right, in their judgment either to distribute this stock abong the stock-holders of the Oble-Tonopah Co., or to hold the stock in the treasury and di-vide whatever dividends may be de-clared upon the same."

RICH NEVADA ORE.

A Consignment Valued at a Million Reaches Selby's.

Vallejo, Jan. 4.- A consignment of ore alued at \$1,000,000, has arrived at the elby smelting works from Goldheld. filled three box cars, attached to an opress train, and was guarded by aht Wells Fargo & Company messen.

NEW COMPANY FORMED.

Articles of incorporation of the Hider Articles of incorporation of the Hider Nevada Copper company of this city have been filed with the county clerk. The capital stock of the company is Sloe,000, divided into shares of the par-value of 10 cents each. J. D. Hider is president: J. J. Breecher, vice presi-dent: Newton Farr, secretary and treasurer. The company owns eight claims in Lander county, Nev.

LO. MAMMOTH STRIKE. Important Developments Have Taken

Place on the 1,700.

Local shareholders of the lower Mammoth Mining company are in a happy frame of mind today over the late developments in the property of that corporation. Yesterday morning that corporation. Yesterday morning the drift run towards the ore bodies on the 1.700-foot level broke into ore at least 25 feet before it was expected and the point of intersection proved to be not more than 90 feet from where it left the main shaft. This is the ore body opened in the winze sunk from the 1.600 level several months ago and which proved to have a width there of about 20 feet. It has been demonstrated that the ore body has a length of over 300 feet and, it is said, should net the company better than \$15 per ton.

than \$15 per ton. It jooks as if the Lower Mammoth might reach the dividend paying stage long before the expiration of the pres-

DUE TO COAL SHORTAGE.

An castern official of the American An eastern official of the American Smelting and Refining company in reference to rumors energetically cir-culated relative to the new Garfield smelter: "The Garfield, in common with all other smelters and other manufacturing interests in Utah, has suffered for the lack of fuel, owing to the recent coal famine throughout the greater part of the west. The Garfield plant started one of its fur-naces a few weeks ago and it was planned to start the others in succes-sion as rapidly as they could be got sion as rapidly as they could be got in readiness. We did not expect that the plant would be in full operation before the middle of the coming sum-mer as it takes a long time to put such plants in full working order." lants in full working order.

THE COBALT EPISODE.

Some Comment of a Well Known Eastern Publication.

F. R. Daniels of Lead. South Da-kota, and employed as a foreman in the Homestake mine was in the city yesterday and departed last night for the coast accompanied by Mrs. Daniels

Ernest Bamberger, manager of the Ely Witch Mining company, states that the additional ground tacked on to the holdings of the Federal Ely company recently, will prove to be a valuable asset of that company in the future.

H. G. Snyder of Salt Lake, brother of Willard Snyder, has completed ar-rangements for the organization of the Mohawk-Ely company to develop 17 mining claims about a mile and a quarter southwest of the Veteran mine of the Cumberland-Ely company.

C. P. Shea who registers from Nome, Alaska, is in the elty and says the mineral output of that territory will He enormous during the present year. He says living expenses at Nome are but little higher than they are in Salt Lake and adds that it will take many years to develop the mining regions of the interior owing to the lack of trans-portation facilities.

the Dreadnought type regardless of the position of the president in the premises. They are willing to pro-vide for the building of more smaller ships, which they believe will afford a greater degree of protection than one or two such monsters as the bill passed last session made possible. A strong sentiment in favor of submarine torpedo boats has developed, and bliss providing for the stationing of 15 such vessels along the Pacific coast and an equal number at the principal ports of the gulf of Mexico are now pend-ing before the house committee. The breach which already exists be-

The breach which already exists be-tween the president and leading mem-bers of his own party in the senate promises to be widened by the agita-tion over the discharge of the members of the battalion of the Twenty-fifth in-fantry (colored), which was stationed at Ercwnsville, Tex., at the time of the trouble there last August. Senator Foraker's resistence on a congressional investigation is naturally not pleasing to the president, as the message he has sent to Congress on the subject is supsent to Congress on the subject is sup-posed to cover all the facts in the case. It is apparent that Senator Foraker believes that further investigations will bring out additional information, how-ever. The situation is fraught with ever. The situation is fraught with political possibilities of unusual inter-

Representative John E. Andrus of New York is quite the most popular member of Congress among the page member of Congress among the page boys and employes generally. He is a very wealthy man, and each of the pages and others have been the recipients of a Christmas gift of a \$2 bill from him. His wealth is estimated to be in the neighborhood of \$35,000,000. Only Senator Clark of Montana of all the other members of Congress is supposed to be feder. to be richer.

CHICAGO.

CHICAGO. Chicago, Jan. 4.-The wheat market to-day opened easier on selling caused by large slipments from Argentina but the market soon became firm because of a good demand by exporters and all offer-ings were readily absorbed. May wheat opened 1, to 1, lower at 75½ to 75% and sold at 75% 07.8. The corn market was quiet and steady. May opened unchanged to a shade lower at 43% to 43% 0748%, and sold at 43% 075% 075%. The frommers of wheat held oats steady. The fromes of wheat held oats steady. May opened a shade lower at 25% 075% May opened a shade lower at 25% and prices were firm. May pork opened 5 to 1% higher at 16.22%, lard was 2% higher at 9.55 and ribs were unchanged to 2½ higher at 9.660.07%. The tendency throughout the day was generally toward lower prices. The close was weak with May 1, lower at 75%. The market held firm for a time. May closed weak 4% 10 wer at 43%.
