

QUARTERLY CONFERENCE AT EPHRAIM.

EPHRAIM, May 19th, 1885.

Editor Deseret News:

The Sanpete Stake Quarterly Conference closed on the 17th inst., after a two-days' session; including a Priesthood meeting on the evening of the 16th.

We were favored with the presence of Apostles Erastus Snow and Heber J. Grant, Presidents A. K. Thurber and W. Seemiller, and Elder G. W. Bean, of Sevier Stake; Presidents H. Beal and J. B. Maiben, of this Stake, and a large attendance of Saints.

Apostles Snow and Grant each delivered discourses that were replete with instructions and encouragement to the Saints.

Short addresses were made by President Thurber, Elder G. W. Bean, Presidents Beal and Maiben.

Bishops W. T. Reid, of Manti North, N. P. Madsen, of Mount Pleasant North, C. A. Madsen, of Gunnison, Amasa Tucker, of Fairview, and J. W. Irons, of Moroni, each gave a very creditable report of his ward.

The general, Stake and local authorities were all unanimously sustained. No changes in either Stake or local departments.

The statistical, Sabbath School and Temple reports were read as usual.

Elder W. H. Folsom made a statement of the progress of the work on the Temple, the condition of the finances, etc.

We had a very enjoyable time. Much of the good Spirit was enjoyed by both speakers and hearers. Much valuable instructions and encouragement were given, and a feeling of satisfaction and cheerfulness prevailed.

Used two bottles of Ely's Cream Balm and it has cured me completely. Used ten bottles of Radical cure for Catarrh, but it did me no good. I had this complaint seven years and could not get anything to do me any good before. I used Ely's Cream Balm and it cured me sound and well. I will warrant it to be a sure cure for those diseases as it is recommended. If parties doubt this let them write to me and I will answer them—Chas. W. I cheerfully recommend it as the best tonic I ever used." Neuralgia sufferers, take the hint!

DANGEROUS SUBSTITUTES

FOR

HORSFORD'S ACID PHOSPHATE

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta-ol P or Phosphoric Acid, which are declared by the highest authority to be **poisonous**. The same preparation also contains Chlorine Acid, which is a compound of Chlorine. "Horsford's" contains neither of these ingredients.

These "substitutes" are liable to be found at soda fountains, because of their cheapness.

CALL for "HORSFORD'S," and TAKE NO OTHER. NEVER SOLD IN BULK. Read & w line
