DR. PRICE'S TRUE FLAVORING
EXTRACTS—Vanilla, Lemon, and
all extracts used in flavoring ice
cream, jellies, cakes, etc., are ac-
knowledgeed after a thorough trial
by the best housekeepers in the
land to be always as represented,
bottles holding half more than
others sold for same size, natural
coloring, free from poisonous oils,
no concentrated dyes, a small quan-
tity gives all the flavor required.
Strange that persons who use the
less extracts when such natural
flavors as Dr. Price's are to be had.
They are really equal to the cele-
brated Cream Baking Powder.

THIS undersigned having removed
to Bishop Street, 1st and East St.,

on his profession as a Homeopathic
Practitioner, and hopes to obtain
the continued patronage of his for-
mer patients, as well as that of
others. Electricity when required,
applied through Dr. Kilder's Super-
ior Vitalizing Electro-Medical Ap-
paratus, which in many cases as-
sists and materially shortens the
curative effect of Homeopathic
treatment.

From Iowa.—Mr. Daniel Brown,
aged about seventy years, of Cal-
houn, Iowa, is in this City, on his
visit to his son, Brother James S.
Brown, having arrived here on the
18th. He is well known to many
of the citizens of this Territory.

Re-union.—The former members
of the Norwich (England) Confer-
ence and their friends have con-
cluded to have a re-union and have
chosen the afternoon and evening
of Tuesday, August 25th, for the
time and the Lindsey Gardens for
the place. The committee is com-
posed of eight well-known gentle-
men, either genuine Norwicheans,
or parties who have lived and trav-
eled in that land of "swimmers"
(dumplings). Doubtless those who
participate will spend a happy, gen-
eral time in social chat and in trip-
ping it lightly on the dancing floor.

Thirty Per Cent.—Brother Sam'l
Bateman, of West Jordan, succeeded
in recovering a little under thirty
per cent. of the sheep which were
in charge of the late deceased
Van Eitan. All who were known
to have placed sheep in charge of
the latter were notified to be at
Bishop Miller's place, Mill Creek,
and when they produced their re-
ceipts the animals were divided
out among them, thirty per cent.
of the number they had placed in
charge of Van Eitan, about fifteen
hundred head having been allotted
in this way. After this division
had taken place it was discovered
that there were some others who
held receipts, but who had failed
to come forward, among whom
were Bishop Keeler, who was out
about one hundred head, and Joseph
Toronto about eighty. There
are still about thirty head of the
recovered sheep remaining, which,
we presume will be divided among
those last named gentlemen. They
are in charge of Brother Henry
Beckstead, of West Jordan, into
whose care all those who received
their share of the recovered sheep
turned their proportion.

More Rowdiness.—The young
fellows, six in number, who were
arrested for making a chawari
disturbance, in the 16th Ward,
on Monday night, were fined \$5
each yesterday, which they paid, and
it appears probable that the police
officers will have to go after them
again, for circumstances which
transpired last night show they are
a cowardly, peace-disturbing lot
of rowdies.

The same parties went to the
house of a young man whom they
suspected of having complained
against them for their doings on
Monday night, and threatened and
abused him in a shameful manner,
but did not then strike him. They
also stopped two gentlemen in the
16th Ward, about 8 o'clock, who
had appeared as witnesses against
them, and the young scamps cursed
and swore at and threatened them
because they had testified in their
case. They prevented these gen-
tlemen from passing along on their
way for at least three quarters of an
hour. People in the neighborhood
gathered around and advised them
to desist, which, however, only ap-
peared to make them behave them-
selves still more obnoxiously, so
that they were possible.

The duty of those parties who
stopped upon the public street, as-
saulted, abused and threatened is
straightforward and plain; they owe
it to the community at large, as a
duty, that they enter complaint
against those who would be "hood-
lums," that they may be arrested
and properly punished according to
their demerits. There appears to
be a growing disposition on the
part of a certain element among
the young men to run things their
own way, and whereof to imagine
that they can create disturbances,
assault and annoy people and
play off unbecomingly practical jokes
on them with impunity, but the
sooner they are taught that such
things cannot be done safely the
better. Let every case that occurs,
in which the duty of the citizen
may be brought prominently
before the police authorities and as
promptly disposed of by proper
punishment, and this spirit of
"hoodlumism" will be checked
to the bud.

We advise all well disposed boys
and young men not to associate
with those who permit in such con-
duct, that they themselves may
not come under the influence of
such a spirit, for indulgence in it
invariably leads from bad to worse.
Young men who as far forget them-
selves as to make themselves so
oppositional to all respectable citizens,
direct themselves of every manly
trait of character, and they would
do well to bethink themselves re-
garding what they are doing, and
stop before they get too far along
the wrong road. As for "hoodlums,"
let it be put down with a
strong hand and effectively.

Suspect Horse Poisoning.—A
team belonging to Captain John
H. Hart, coach dealer, of the 30th
Ward, died yesterday, and manifest-
ing such symptoms as led their
owner to suspect that the animals had
been poisoned. Should such real-
ity be the case, and it has that ap-

pearance, Brother Hart suspects
that it was the result of an accident
that probably some party had laid
down some poisoned food for the
purpose of doing a dog, and that
the horses came across it and swal-
lowed it. Whether this be the case
or no, however, those who indulge
in throwing strychnine to panics
should always see that the particu-
lar dog for which the bait is in-
tended is the particular animal that
swallows it, for if the bait is not
not adopted serious consequences
may be the result.

The demise of Brother Hart's
team places him in rather an un-
desirable position, as he is measurably
deprived upon it as a material aid
in making a livelihood.

Vick's Floral Guide, No. 4, 1914,
is another thirty-two octavo page
of his beautifully illustrated cat-
alogues-guides. This refers more par-
ticularly to tubous flowering plants.

Agreeable.—The material back-
ing down of the mercury ten to
twenty degrees the last two or
three days, with the sprinkling of
rain that fell, has made the atmo-
sphere much more agreeable than it
was.

Benham's Musical Review for
August contains a number of in-
teresting literary and musical arti-
cles and "Midnight Queen Ser-
enade," "Departure," "Japonica
Waltz," "One by One They Gather
Home."

Fine House.—Bishop E. D. Wool-
ley is having an excellent, sub-
stantial house built, in the 13th
Ward, opposite the Assembly
Rooms. It is ingeniously designed,
both in point of style and in con-
struction, and the work is being
done as well as need be. It is
surmounted by one of the finest
looking bracket cornices on any
building in the city. Mr. George
Romney is the contractor, and the
design of the building was made by
Mr. W. H. Folson.

The Coming Winter.—There is
no disguising the fact that a large
number of working people are at
present without employment, owing
to the dullness of the times, the
present season having been the
fattest for business for several
years. Some anxiety is being
felt by numbers with regard to
the "blueses" of the prospect for
the approaching Winter, and it
does appear as if working people
generally would have considerable
difficulty in "making ends meet."
In view of this condition and the
prospects of the future, it is the duty
of those who are blessed with means
to make improvements and provide
labor for as many persons as pos-
sible. It would be advisable for all
workmen who can do so to lay
in an extra store of breadstuffs and
potatoes at least, to provide against
the inclement season when what
little work may be in progress will
generally have to be suspended.

There are but few people who have
any means or income but can make
some improvement, if it be no
more than putting up a few rods
of fence, having a coat of paint put
on their houses, erecting necessary
buildings, etc., and if each would
do but a little the aggregate would
be large, and numbers of people
who are now idle would have em-
ployment, and the means of sub-
sistence.
