VANDERBILTS GET CONTROL OF S. P.

Death of C. P. Huntington Hastened the Big Deal.

TWO YEARS' NEGOTIATIONS.

The New Control Comprises W. K. Vanderbilt, E. H. Harriman, J. J. Hill, N. P. Heam and T. Speyer.

New York, Oct. 26 .- The Times says: The Vanderbilts have obtained control of the Southern Pacific system.

Negotiations aiming at this accomplishment were begun two years ago, but were summarily disposed of by C. P. Huntington. The property was his, he said, and, owning it, he proposed to keep it. He wanted no alliances which could only in extent make him dependent upon others for which he himself stood. This important deal to which New York, London and Berlin houses had committed themselves is

control of the Southern Pacific system, it can now be said, has been obtained by American financial interests not hitherto identified with the ests not intherto Josephenous in the syndicate property. Conspicuous in the syndicate trisining the new control are William K. Vanderbilt, E. H. Harriman, James J. Hill, Norman P. Ream and James Speyer, the latter, as the associate of Mr. Huntington, having been conspicu-ously influential in the direction of the company's affairs for years past.

Within the past week Waii street became excited over the discovery that control of Mr. Huntington's Pacific Mail property, had passed to E. H. Harriman and his associates, including James J. Hill and W. K. Vanderbilt. Explanations given much currency have aimed to represent that only Mr. Harriman had become controller, that Mr. Hill's interest and Mr. Vanderbilt's interests were relatively insignificant. interests were relatively insignificant. However, this may be, it is certain that in the Southern Pacific deal (whereby Vanderbilt interests will con-trol) the corporation of the Pacific Mail Steamship company can be of vast in-terest. Aside from the Vanderbilt ambition to establish and maintain a transportation line from the Atlantic coast to San Francisco and thence to the Far East (made practicable by New York Central, Northwestern, Union Pacific and Pacific Mail) the taking over of the Southern Pacific is an ac-complishment greater than any other

coalition hitherto forecast.

It is believed by practical railway managers that with the Southern Pa-cific rallway system under a direct Vanderbilt control there will be at once a complete disposition of most of those

Instead of deception, secret cuts, disturbances, losses and reprisals, we can have profits. In American railway financiering nothing during the past twenty years has been of so much consequence as the possi-bility that William K. Vanderbilt takes over the Southern Pacific and puts I upon a level with Union Pacific, Chi ago and Northwestern and New York Acquiring control of the great Southern Pacific system (approximately 8,000 miles) is an accomplishment which makes relatively insignificant the re-cent taking over by the New York Central of the Boston and Albany property.

FEEDING IN TRANSIT.

Old-Time Topic Discussed in Denver, also Rates on Ores.

The local railroad men who have returned from the meeting of the trans-Missouri freight bureau at Denver re-port that there was at times a lack of harmony among those assembled at the Brown Palace hotel on several points that were brought up at the meeting. Among the principal subjects for disussion was the old-time problem feeding in transit rates on livestock Although the freight men are reti-cent upon the subject it is said that a raise in rates is contemplated at an early date. The plan is said to be to make two rutes on livestock-one from the grazing grounds to the feeding point and another local rate thence to the market, instead of one rate through the market with stop-over privil-
