

TELEGRAPHIC NEWS.

WASHINGTON, Sept. 17.—The Marine Hospital Bureau has received resolutions adopted by the Philadelphia Permanent Relief Committee, which recites the fact that a great number of persons are leaving the fever-infected districts and are carrying the yellow fever to northern cities. It urges the government to enforce the strictest quarantine to prevent the fever from spreading, and if necessary to establish a military cordon.

A REFUGEE SPREADS IT.

NASHVILLE, Tenn., Sept. 17.—It is claimed by the officials at Wildwood, a town nine miles from Chattanooga, that a yellow fever refugee from Decatur, Ala., died there of the dread disease; that the state board of health has been asked to investigate the matter, and will be asked at once to send physicians for that purpose.

IN ST. LOUIS.

ST. LOUIS, Sept. 17.—A family of emigrants of Pensacola, Fla., consisting of Joe L. Davis, wife and two small children, and Mrs. McLaughlin, have been taken charge of by the city health authorities and sent to the city hospital, where they were placed in an isolated ward. Mrs. McLaughlin is sick with fever, and her jaundiced appearance is not inviting, although the city physicians say it is not yellow fever.

DEATHS IN JACKSONVILLE.

JACKSONVILLE, Sept. 17.—The official report today shows fifty-two new cases and seven deaths. This does not include the report of the medical bureau of visiting physicians, which came in just after the official list was closed, and embraced fifty-four new cases, many of which were duplicated. Only seven deaths were reported up to 6 o'clock this evening, but it is certain that there have been several others during the past twenty-four hours. The irregularity and want of system among the physicians in making reports rendered correct figures tonight impossible.

Quite a number of unacclimated nurses have reached here from various places, and it is expected more than a dozen will be returned to Camp Perry en route tomorrow. Weather wet and unfavorable.

A DENIAL.

CHATTANOOGA, Sept. 17.—The case of Wilson, reported as having died from yellow fever at Wildwood, was not one of yellow fever, so proved by a thorough investigation.

FUNDS FROM PHILADELPHIA.

PHILADELPHIA, Sept. 17.—The citizens' relief committee today telegraphed to Jacksonville an additional \$2,500, making a total of \$10,000.

NEW YORK, Sept. 17.—The Central Park Riding Academy was crowded today on the occasion of the sale of the Montana millionaire John D. Morrissey's racing stables. In addition to Morrissey's stables a number of other racers, the property of W. Gratz and Edward Kelly, the owners of Freakness stable, were disposed of. The event of the day was the sale of French Park to Dave Gideon for \$12,500. A bay filly by Iroquois out of imported Blaisgawrie, was sold to J. K. Walcott for \$1,500, and thirteen other yearlings of C. Ferncliffe's stock sold from \$175 to \$500.

The second lot put up were Algerian yearlings, the property of W. L. Scott. The first was Nashota, full brother of Gipsy Queen by imported Rion D'Or of Liatunatt. This colt is entered in all the important two-year-old stakes of 1889, and was sold to B. A. Carson for \$1,000.

The following are some of the important sales in the Morrissey stables: French Park, bc., by Imp. King, dam Low Pipe, to D. Gideon for \$12,500; Sam Wood, two-year-old, by Longfellow, dam Lucy Jackson, to D. Gideon for \$3,700; Miss Cody, bf., by Imp. Billet, dam Bell Palmer, to W. Lakeland for \$2,800; Philip D., by Longfellow, dam Sylph, to E. Purcell for \$3,400; Locust, three-year-old, bc., by Virgil, dam Mrs. Grumling, to Gen. Wallace for \$3,100; Bamburgh, four-year-old bc., by Imp. King, dam Rosaline, to George Forbes for \$1,800; Kaloolah, five-year-old bm., by Longfellow, dam Sylph, to Hankins & Campbell for \$4,500. The total was \$40,150, an average of \$2,361.50.

INDIANAPOLIS, Sept. 17.—The Journal's special from Kokomo reports a bloody affray in the court room in that place this morning. An action for divorce was pending between Samuel Pruett and wife, and both parties were in court waiting for the case to be called. Pruett drew a revolver and fired two shots into the body of his wife and the third into J. W. Blackledge. The woman is shot in the left breast near the heart, and in the right shoulder, and will properly die. Blackledge is shot in the breast, but his injuries are not fatal.

CHICAGO, Sept. 17.—Henry Thude attempted to murder his divorced wife and stepdaughter this afternoon, after which he shot himself, dying instantly. The stepdaughter is not hurt, but the wife received a bullet wound in her right temple, and is supposed to be fatally injured.

CHICAGO, Sept. 17.—The cases of the alleged dynamite conspirators Hronek, Sevic, Chapek and Chleboun, charged with the plot to murder the officials here, were called up and continued till the October term of court on the assertion of Hronek and Sevic, that at the proper time they would show evidence to prove their innocence.

NEW YORK, Sept. 17.—A letter to the Tribune from Havana, dated September 8th, gives the particulars of the recent cyclone. For 15 hours it raged and wreaked fearful havoc to life and property throughout the island. It demolished the principal buildings of the large cities, wiped out whole towns situated near the seaboard. The water flooded over large districts of fertile lands richly planted with sugar, tobacco, fruit and vegetables, destroying valuable machinery of plantations and ruining crops. On the seaboard the heavy seas broke down the wharves and occasioned great losses to shipping and commerce and loss of life to crews on board vessels in the harbor. In some instances vessels were carried half a mile into the cities, whole blocks of houses and trees being battered down as vessels cut passages through the streets. Havana presents a novel sight. Its streets and public squares, piled high with ruins, demolished buildings and debris of every kind, gives it the appearance of a bombarded city. Many streets in the northern part of Havana are submerged. The number of lives lost throughout the city and country is variously estimated at from five to twelve hundred. The loss to crops, buildings and shipping amount to many millions.

CHICAGO, Sept. 17.—About 2 o'clock this afternoon Mrs. Pedrick, of California, who is on a visit to friends in this city, was knocked down in the heart of the business district in the presence of a hundred people by a thief, who snatched her pocket book and escaped. Mrs. Pedrick is not dangerously hurt, but suffers from the nervous shock.

BOSTON, Sept. 17.—Investigation goes to show that the report of the alleged asphyxiation of workmen in the Hoosac Tunnel Saturday was greatly exaggerated. Out of about eighty at work some four or five were affected and the whole matter arose from a disobedience of orders on the part of some train hands. The Hoosac Tunnel is acknowledged to be the best ventilated of any of its size in the world, and it is on rare occasions only that a trace of gas is noticed. For many years traffic through it was conducted without any special attention being paid to the matter, but as a special precaution about a year ago, President Phillips gave orders that all engines should use coke only in the tunnel, and this has been the rule ever since. But in an emergency it appears that the crew on a heavy freight train, having omitted to take enough coke to take them through, used coal very freely to avoid getting stuck in the tunnel and had to call for an extra engine from North Adams, as they could have done at the telegraph office located at the center. Before the strong draft always pouring up the central shaft could carry off the smoke, the gas so generated that some of the men working near by were rendered sick by the fumes which just at that point were unusually dense owing to the freight train having come almost to a standstill. It was a singular and unprecedented experience and extremely unlikely ever to occur again. All the men affected have fully recovered from the effects of the mishap and are at work again as usual.

LONDON, Sept. 18.—John Dillon, who is to appear before the Parnell commission at its next session, has been released on bail. Preparations are being made for a great demonstration on his arrival at Dublin. The police have arrested a German named Ludwig on suspicion of being the person who committed the recent mysterious murders in Whitechapel. A riot occurred yesterday among the inmates of the Irish emigrants' home at Glasgow. The rioters wrecked the house and fought desperately with the police. Sixty-five arrests were made. Fifty-two of the rioters were today sentenced to one month imprisonment; others are remanded.

PORT JARVIS, N. Y., Sept. 18.—The heaviest rainfall in years occurred yesterday and last night. Several streets were torn up and cellars are flooded. People had to be taken from their homes by boats this morning. Several small houses were carried into the Delaware River. The river is still rising.

WASHINGTON, Sept. 18.—The Secretary of the Treasury has received the following telegram from Surgeon-General Hamilton, at Camp Perry Flat: "Dr. Poscy has yellow fever, contracted at McClenny. Three cases are reported at Gainesville, and there are rumors of cases at Welbourne and Ferninda. Refugees had great hardships on the special train, and the whole seaboard is alarmed on account of these refugees breaking patrol at Hendersonville. I don't think it advisable to send any more special trains. The camp is in excellent condition, but needs enlargement. This is being done as rapidly as possible. Those here are comfortable and reasonably happy."

PARIS, Sept. 19.—The body of a German gen d'arme, with a bullet hole through the head, has been found on French territory. An inquiry is being held. It is believed to be a suicide. BATON ROUGE, La., Sept. 19.—Yesterday afternoon the jury in the case of W. A. Strong, ex-secretary of state, charged with embezzlement, announced that an agreement had been reached. The sheriff went out to call the attorney-general, and Strong followed without attracting attention, and has not since been seen. The jury had found him guilty.

ST. LOUIS, Sept. 19.—S. H. Knowles today began attachment suit in the Circuit Court to recover \$250,000 from Jonathan Bourne, Jr., the well-known Oregon mining speculator. The

petition states that the plaintiff in May last sold an undivided half interest in a Baker County, Oregon, mining property to Bourne for \$250,000, and alleges that Bourne is about to dispose of the property without paying therefor. The attachment bond was fixed at \$300,000 and given, and the attachment was executed by levying on \$300,000 of mining stock at the Continental Bank, just placed on deposit by Bourne.

WASHINGTON, Sept. 19.—Several associations of specialists constituting the Congress of American Physicians and Surgeons, held a meeting today and discussed subjects of interest to the profession. The American Surgical Association discussed stone in the bladder. The meeting of the American Climatological Association discussed the climate of Colorado and the physiology of respiration in high altitudes, and kindred subjects. At the Laryngological Association meeting, papers were read upon the anatomy of the nasal chambers and the internal esophagotomy.

LONDON, Sept. 19.—In a speech in Bradford today Mr. Chamberlain denied that evictions were unfair. He said they might fall harshly upon the victims of the "Plan of Campaign," but greater injustice would be done to the cause of order if the people were allowed to defy the law with impunity, and evictions were stopped on account of the threats of members of the National League. The Unionists would continue in the exercise of their plain duty of protecting the minority in Ireland, and preserving the faith, honor and integrity of the country.

JACKSONVILLE, Sept. 19.—M. E. Bowden, recently city editor of the Times-Union, died of yellow fever tonight. Five new cases of fever are reported tonight.

The official report for the twenty-four hours ending at 6 p.m. show 130 new cases of fever, making the total so far reported 1331. A very large portion of the new cases are now among the colored people living in the suburbs. Fourteen deaths were reported today.

NEW ORLEANS, Sept. 19.—A Jacksonville special says: The excitement created throughout the state by the discovery of fever at Gainesville, continues unabated. The place is almost deserted. Railroad men have all left, and all trains are practically suspended.

DENVER, Sept. 19.—A thousand dollars was raised today for the aid of yellow fever sufferers in Florida.

PORTLAND, Oregon, Sept. 19.—Spokane Falls, Washington Territory, has just been visited by another fire, which destroyed about \$35,000 worth of property; insurance about \$15,000. There is every reason to suspect that the second heavy fire and the one last night were the result of incendiaries. The town is said to be overrun with a lawless, disreputable element. While the fire was in progress last night several attempts to commit arson were reported, but no one was caught. The citizens called a mass meeting and the alarming situation was discussed. It was decided to make a determined crusade against the crowd of loafers and tramps which infest the town. A large reward has been offered for the apprehension of any of the fire bugs.

PHILADELPHIA, Sept. 19.—Charles C. Fair, an actor, is on trial on complaint of Louise Pauline, the actress, who claims that in May, 1886, she faint ed after a matinee; that her dress was loosened and a purse containing \$1,500 fell from her bosom; that it was given to Fair who never returned the money and tried to make her believe one of the ladies took it; that he afterwards confessed the theft and begged her not to disgrace him. She was unable to get her money and therefore had him arrested.

JACKSONVILLE, Florida, Sept. 20.—Dr. Julius Wise has been ordered to make an investigation at Welborn and Ferninda as to reported yellow fever in those towns. St. Augustine is happy over a clean healthy city. Tomorrow everything except the mails will be prohibited from entering that city, and mails from Jacksonville and Gainesville will not be allowed in at all. St. Augustine is surrounded by 225 armed men.

LONDON, Sept. 20.—At a breakfast given in honor of Joseph Chamberlain, by radical unionists at Bradford, this morning, Chamberlain said he did not see why Irishmen should not have local government, though experience showed that whether in Dublin, New York or Boston, Irish government was always inefficient and corrupt.

ZANZIBAR, Sept. 20.—Usumbara chiefs, headed by Simboja, have revolted against the Germans and dispersed Meyer's caravan. Meyer's supporters deserted him by returning to the coast. Last evening some natives of Zanzibar, mistaking the secretary of the British admiral for a German official, assaulted him and escaped in the darkness. The secretary's injuries are not serious.

MEMPHIS, Sept. 20.—News of the spreading of yellow fever at Decatur, Ala., is confirmed. There is great excitement there and the people are fleeing.

Ten new cases of yellow fever are reported as having developed today at Decatur. A stampede from that city is in progress.

LOUISVILLE, Sept. 20.—Moses Newberger, who arrived with his family from Decatur, Alabama, Tuesday afternoon, died of yellow fever yesterday morning. The family were at once removed to an isolated cottage outside the city, and their clothing and bedding were destroyed.

OTTAWA, Sept. 20.—Information received here says Marshall Atkins, of

Alaska, now at Seattle, Washington Territory, in charge of Canadian schooners seized in Behring Sea last year, has received instructions from Attorney-General Garland to transfer the custody of the schooners to the marshal for Washington Territory. It is thought, the vessels will be turned over to the owners in a few days under bonds pending a decision of the Supreme Court of the United States in reference to the claim of the Alaska Commercial Company to a monopoly of privileges in Behring Sea.

NEW YORK, Sept. 20.—Some surprise was manifested at the Navy Yard yesterday on the receipt by the commander of the cruiser Boston of orders for the vessel to be ready for sea within ten days. It is said that its destination is the coast of Central America. This is looked upon as significant, coming almost simultaneously with the Secretary of the Treasury's order in regard to discrimination made against United States vessels by the government of Costa Rica. This order commands all officers of the customs to see to it that all cargoes of Costa Rican vessels entering United States ports be subject to discrimination duties levied by act of March 3, 1883, in view of Costa Rica allowing all vessels other than those of the United States trading between Costa Rica and United States ports a rebate of 5 per cent of customs dues and certain privileges as to port charges.

To Poundkeepers.

The estray law established at the last session of the Territorial Legislature provides, among other things, that where damage be sustained by any person through animals trespassing upon his property, he must, in order to lawfully recover anything therefor, choose a disinterested person within twenty-four hours to appraise the damage and give a statement thereof in writing setting forth the amount, time and place of the damage, the name of the person damaged, and if known the name of the owner of the animals, with a description of the animals. It also provides that the poundkeeper when selling an estray, shall give a bill of sale according to a certain specified form.

To meet the requirements of poundkeepers in this respect, appraisal blanks and bills of sale (the latter with the estray law in full printed upon the back) have been gotten up at the DESERT NEWS office and can be furnished in any quantity at the rate of three cents each for the former and five cents each for the latter. Every poundkeeper ought to keep a quantity of each kind always on hand.

Blanks for poundkeepers to fill up when they desire to advertise estrays are also kept in stock at this office and furnished gratis upon application, and poundkeepers should remember that the NEWS is the best medium through which to do their advertising as it not only has a "general circulation in the county" in which the animals may be impounded, but a more general circulation than any other paper in the counties of the Territory as well in which possibly the owners of the animal may reside, and who if the advertisement were published in a paper with a more limited circulation might never see it.

Davis Stake Fair.

FARMINGTON, Sept. 15. The Primary Associations of Davis Stake, will open their fair on Thursday Sept. 27, at 10 a.m. It is to be held in the court house, and will continue until Saturday, the day of the Primary conference. We hope every one will govern themselves accordingly, and the children especially, be prepared with a nice showing of articles for exhibition. prizes will be given for the best mending and darning, for the best map drawn, etc. We wish the name and age of the person doing the work.

All persons donating articles for exhibition will have a ticket of admission given them by their president; others will pay an admission of five cents for children and ten cents for adults.

For the conference, each association is expected to have a verse or sentiment, to be recited at roll call.

Respectfully,

A. B. ROGERS,

President.

JULIA HESS,

LUCY A. CLARK,

Counselors.

Weber County Notes.

A tramp stole an open faced Rockford watch, from Wm. Shields, proprietor of the Utah Restaurant, yesterday forenoon. He was last seen on Wall Street going north. He was about five feet ten inches in height, was dark complexioned, had a dark moustache, wore a brown sack coat and plaid pants bespattered with mud.

Yesterday a little boy named Milo Sharp, of Plain City, broke his right arm at the elbow. He was riding a horse in company with another boy when the animal made a sudden start, throwing both boys to the ground. The other boy fell upon Milo, with the above result. Dr. Driver, of this city, was summoned at once, and he set the broken member and made the little fellow as comfortable as possible.

After two futile attempts to reach a depth of 600 feet, the Lester Park well has at last been abandoned. The first time 512 feet was reached when some mischief maker threw a piece of steel into the pipe necessitating a removal. Another well was begun a few feet distant. A depth of 536 feet was then reached. The pipe broke but was got-

ten out successfully. A hard substance almost impenetrable was then encountered, and the job had to be thrown over. This is the third failure to obtain water in Lester Park.

It was learned last evening that the young man, Fred. Klaus, who was injured on the S. P. by being run over while asleep near the track, and whose arm was amputated a couple of days ago, was dying. His system was vitiated and worn out through exposure and fatigue, and he was too exhausted to pull through the shock attendant to being run over and the subsequent amputation. Mortification has set in, and there were no hopes last evening that he would survive. Nothing has yet been learned from his friends.—Ogden Standard, Sept. 20.

News Notes.

Pueblo, Col., Sept. 18.—Thomas Jackson, a coal miner who, with his brother, came down here yesterday from Franceville on their way to Trinidad, was tonight run down by the cars in the Fort Worth railroad yard. A wheel ran diagonally across his bowels and one arm was broken. It was not thought he can recover. Jackson has a wife and three children in Ness County, Kan.

Trinidad, Col., Sept. 18.—Mr. W. P. Shockley banker at Boston, Col., brings the news that W. B. Wright, the marshal of Boston, was shot at Vilas on Saturday morning last at 2 o'clock. Particulars are meagre. The sum of the information, however, is that one victim has been shot down as the result of a feud between rival towns. The real circumstances attending the fatality will be learned hereafter.

Pueblo, Col., Sept. 17.—The switchmen in the Denver and Rio Grande railway yards are on a strike. Billy Walpole, the yardmaster, is sick, with no present prospects of recovery. A new yardmaster named Frye was put on duty this morning in his place. The switchmen, thirty-five in number, at once went on a strike and are still out. This evening Master Mechanic Kelker and one or two others have been making up the trains, but except for their efforts, the freight business is practically paralyzed. Efforts have been made to employ new men, but have not been successful as yet. The strikers object to working under Frye, for the reason that he has the reputation of employing and promoting his own pets. He brought an assistant and a night yardmaster with him from St. Louis. The men say he lets out union switchmen on any pretext, and that under him there is no chance for regular promotion, but that he runs things on the same style as the Burlington railroad company's methods with its engineers.

Boy Drowned.

A few days ago an item appeared in the NEWS regarding a boy who was drowned in the Bear River on the 11th inst. The Logan Journal has the following particulars:

On Tuesday evening Martin P. Johnson, a boy about fifteen years of age, his little sister and an aged father were traveling toward home on a load of corn, when young Johnson saw some ducks about a slough in John Reese's pasture in Benson Ward. He stopped the team, took his gun and shot a duck. The duck fell into the slough and the boy taking off his clothes started after it. It is supposed that he got tangled in the moss. The father saw his feet or hands projecting out of the water and started toward him. He could not swim and was unable to wade to where he had seen the boy, and could do nothing personally toward saving him. In the meantime he had sent the little girl after help, which came. The slough was searched and at 10 o'clock the body was found. The sorrow of the stricken family can be better imagined than described. The boy was a great help to his parents and his loss will be keenly felt. The sympathy of many persons is sincerely with the sufferers in this hour of trial for them. The funeral services were held at Hyde Park on Thursday.

People's Territorial Convention.

HEADQUARTERS PEOPLE'S TERRITORIAL CENTRAL COMMITTEE.

Salt Lake City, Sept. 17th, 1888. A Territorial Convention of the People's Party is hereby called to convene at the City Hall, Salt Lake City, on Monday, the 8th day of October, A. D. 1888, at 12 o'clock m., for the purpose of nominating a candidate for delegate to the Fifty-first Congress.

The number of delegates to compose the Convention has been apportioned to the several counties as follows, to wit:

COUNTY.	No.	COUNTY.	No.
Beaver	3	Rich	1
Box Elder	3	Salt Lake	16
CACHE	6	San Juan	1
Davis	3	Sanpete	4
Emery	1	Sevier	2
Garfield	1	Summit	2
Iron	2	Tooele	3
Juab	2	Uintah	1
Kane	3	Utah	9
Millard	2	Wasatch	1
Morgan	1	Washington	2
Plute	1	Weber	6
		Total	75

The County Central Committees are requested to take immediate steps in their respective counties for the election of delegates to the Territorial Convention.

By order of the People's Territorial Central Committee.

BLIAS A. SMITH, Secretary.
