Seven Troughs and Black Jack-Closing Quotations and Sales.

Sioux Con. and Seven Troughs sup-plied the features of today's early calls of the mining exchange. Heavy trad-ing was done in both these stocks, while Black Jack was in fairly good demand up to 70 cents. Mountain Lake was bought at 54 and 55 cents; but New York failed to muster any new strength strength.

Ohio Copper was among the unlisteds that changed hands, the stock having been bought at \$2.60 and \$2.621/2; Bing-Bullock Bulter-Liberat

MINER SUGGESTS JOBBERY.

Following Report of Engineers After

Montgomery Shoshone Deal. The Builfrog Miner has expressed he opinion that a stock jobbing cheme has been found in referring to the recent sensition sprung in Montgomery Shoshone following the publicity of the report of the enginors recently sent out to examine the from the best information obtain-From the best internation outline able it looks very much as though the report that the Montgomery Sho-shone is a swindle is nothing more nor less than a stock jobbing propo-sition. It is believed by many that Bob Montgomery, who owns a large block of stock in the company is the man stated to be frozen out, and that

block of stock in the company is the man slated to be frozen out, and that this is the method adopted. "But stockjobbing aside, supposing that the engineers' report did say that there is only \$409,000 net in sight, it would not be the first time that engineers have been badly mis-taken. It will be recalled that a few means head John Hass Meanmond who

years back John Hays Hammond, wha perhaps enjoys the limelight more than all the rest of the craft combind, reported to the Venture people of conden that the Stratton Indepen-lence of Cripple Creek had only 550,000 worth of ore in sight, and

dense of cripple clock and since this time the property has pro-duced over \$1,600,000, and has paid over \$500,000 in dividends. Engin-cers' reports are never to be taken too seriously, even when there is no stock manipulation on hand. "But it cannot be believed that the Shoshone is a swindle. The produc-tion for April was approximately \$120,000. The company is employing 115 men, and say the running ex-penses were \$50,000 all told, which is probably putting it too high; it can be easily seen that a snug net profit would remain.
