

forts to establish settlements here; yet with the unsettled condition of Indian affairs in Colorado and New Mexico, with the well known fact that there are small predatory bands of renegade Indians, liable to prey upon defenceless persons, as well as lawless adventurers from among the whites, we therefore deem it a matter of common prudence, that in the incipient stages of your settlements here, your temporary dwellings should be in close proximity to each other, and where practicable, we would recommend that you build in the form of a hollow square, and close up spaces between your dwellings with stockade; and when your farms have been brought under cultivation, your irrigation canals made, mills for making lumber and flour built, so that you can begin permanent buildings upon your town lots, your temporary dwellings will still be useful for the accommodation of new settlers.

The climate and soil upon this streams we deem all that could be desired. Your chief difficulty will be how to arrange your water sects, flood gates, wing dams or other contrivances for controlling the waters of this fluctuating stream, but experience gained by a few failures will enable you to accomplish it. Let none be discouraged or abandon the enterprise. Let all your energies be directed, primarily towards this end, that you may raise produce for the sustenance of yourselves and families and a little to sell to others. You will best accomplish this by contenting yourselves with small tracts of land at first, say about ten (10) acres to the man, and farm compact, thus concentrating your labor as the surest way of success. There will be ample room for expansion after these first successes have been achieved.

This fall and coming winter should be devoted to clearing up and leveling upon lands, making water ditches and preparing for putting in seeds as early as practicable. Some whip saws should be started to secure the lumber for doors, windows, floors, etc., for your temporary dwellings and for school-houses, one of which should be provided and schools opened therein this fall, in each of the settlements of Bluff City and Montezuma.

Let no man think of scattering or locating families upon farms or claims isolated from their brethren, or of abandoning the posts to which they have been appointed, or of going at the beck and call of unauthorized individuals in search of other locations not yet appointed or consecrated for the gathering of saints. And while it is necessary to seek employment on the railroads or elsewhere to procure needed supplies, let not each man start out on his own volition and operate singly, but let working parties be organized under the counsel of the presiding officers to take jobs, procure and send in supplies for their own and other families in your camps, while all the rest remain at home improving your farms and doing other home labors both for themselves and those sent to earn and haul in their supplies. We most earnestly invite all who have absented themselves from the mission, as well as those who have returned home and those who are working for supplies, to return to their post of duty as soon as practicable, for their labors here during the fall and winter are necessary to secure successful cropping next season. Our crop raised and a saw and grist mill, which we trust will be set in operation next year, and there will be no further trouble in obtaining the necessary colonizers in this county, and instead of 50 men as at present, we believe there will soon be 500 or more.

Elder Platte D. Lyman is approved as Pres. Smith's first counselor and assistant, and especially assigned to duty in this county, to direct the movements, and carry out the counsels herein given as far as practicable and we enjoin earnest and faithful efforts to this end. Care should be taken that no families be located on bends of the river liable to be overflowed, or near the mouth of any wash, where sudden cloud-bursts or mountain floods would endanger their safety; nor should men or boys be allowed to roam in the mountains or far away from your settlements alone and unarmed, lest they be pounced upon by some marauding Indians who, having been exasperated by the acts of unprincipled white men, are ever liable to wreak vengeance upon the first defenceless pale face they meet. Countenance no man among you in attempts to speculate upon land claims, thereby discouraging new settlers, but every man is entitled to the full

reward of his labors and improvements upon land, and your claims should be held subject to appropriation and use for the benefit of actual settlers, under the advice and counsel of the Presidency here, just compensation being allowed for all improvements. We bless Bro. Lyman as well as Pres. Smith, and all Saints who sustain their efforts in carrying out these counsels, that peace and prosperity, fellowship and love may abound unto you all, through the grace of our Lord, Jesus Christ, Amen.

We remain your brethren in Christ,

ERASTUS SNOW,
BRIGHAM YOUNG.

Of the Quorum of Apostles and Presidency of the Church of Jesus Christ of Latter-day Saints.

Rub the Gums Well

with SOZODONT when they become spongy or detached from the necks of the teeth. Let them bleed freely and so recover their tone and health. This SOZODONT is the best remedial agent for diseased gums and teeth. Try and learn.

From Despair to Gladness.

Mr. Giles Carter, a well known citizen of Rochester, N. Y., has just given the following card to the public: For about two years my wife has been troubled with something and we could not imagine what she had frequent flashes of heat, followed by severe sweats, both night and day; her back troubled her a great deal, and any exertion seemed to utterly prostrate her. She drank large quantities of water without seeming to quench her thirst in the least, and kept getting worse and worse all the time. We employed the services of a physician, but without benefit, not even learning what was the matter with her. Finally, noticing a peculiarity in her urine, I had it examined, and boiling, reduced it to molasses, about half in quantity to the amount of water used. I at once wrote to her brother, a physician in the East, who pronounced it "Sugar" or (Saccharine) Diabetes. He said he knew of no cure for it, and that she probably could not get well; that she might live for a few years, but would get worse and worse all the time.

At this time, and when we were in despair, I saw Warner's Safe Diabetes Cure advertised, purchased a bottle and my wife has continued using it until she is now perfectly cured and as well as she has been in years. I consider Warner's Safe Diabetes Cure a blessing and boon to humanity.

HONEY!—Why it is the purest sweet in the world. It is, and has been, used in the healing art, to the satisfaction of thousands, who can say aught of white, beautiful honey, gathered from the countless thousands of the splendid flowers that adorn our fields and gardens. HOREHOUND! What mother lives that is not acquainted with its virtues in banishing coughs and colds from the family; why it is so well known that every candy shop would lose its custom unless horehound candy occupied a place, and the most prominent position in every show-case. TAR looks black, and ladies raise their skirt for fear of getting their clothes soiled; yet it is the vegetable production of the beautiful pine tree that grows in our southern forests; and by the aid of chemistry it is found to contain medicinal qualities universally admitted by physicians of the highest standing. Its preserving qualities are well understood by every shipowner, and when contagion, disease and death infect their vessels, they fumigate the polluted ship from stem to stern with tar, thus removing the demon of disease and death, insuring the health and life of every passenger on board. Honey, Horehound and Tar, combined together, aided by science and the highest chemical skill, form a remedy admitted by the most experienced physicians as the best, most certain and harmless preparation ever made for the radical and speedy cure of Coughs, Colds, Hoarseness, Influenza and all bronchial affections leading to consumption, from which thousands are suffering. This valuable remedy is known as HALE'S HONEY OF HOREHOUND AND TAR. Prices 50 cents and \$1. Great saving by purchasing large size. Depot, Crittenton's, 7 Sixth Avenue, New York City. Pike's Toothache Drops cure in one minute.

IT IS TRULY WONDERFUL

TO SEE what improvements now exist as compared with railway travel only a few years ago. To become convinced of this, one has only to select for his route East, the popular and well-known

CHICAGO & NORTHWESTERN RAILWAY.

You are landed by the Union Pacific R. R. in the Union Depot at Council Bluffs, where stands the C. and N-W. Palace train, composed of Pullman Hotel Cars, Pullman Sleeping Cars, elegant Day Coaches, Smoking Baggage, Postal Cars, etc., ready to convey its passengers through Iowa and Illinois, and into Chicago. Gliding smoothly along over the superb track of steel rail through thriving cities and villages, comfortably seated in this train, one scarcely discovers the high rate of speed which he is riding. Trains of this road are always on time, connections sure, and passengers seeking pleasure, comfort, safety and ease in traveling, will find the "North-Western" in excess of their expectations, and the greatest of all routes to Chicago and the East. Insist upon Ticket Agents selling you Tickets via this road; all Agents sell them. Examine your Tickets, and refuse to buy if they do not read over this Road. If you wish the best Traveling Accommodations, you will buy your Tickets by this Route, ~~AND WILL TAKE~~ NO OTHER.

By Universal Accord.

AYERS' CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them the best and most effective purgative Pill that medical science can devise. Being purely vegetable, no harm can arise from their use. In intrinsic value and curative powers no other pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effectual cathartic is required.
