GOOD FOR THE LADIES OF PAYSON.-A etter, dated the 22nd inst., to a gentleman n this city, says that the members of the remaie Relief Society, of Payson, opened a co-operative store in that city, on the 18th mat. The shares in the institution are e dollars each, and up to that time near-twelve hundred dollars had been investwhich it was expected, would be reased to two thousand, in a very short me. The ladies of Payson have set an xample worthy of emulation, and success to their enterprise, if properly conducted, sure, for co-operation, having destroyed monopoly in Utah, has proved such a blessing to the people that they no longer need chortations to sustain it.

FINED.-Two "cullud gemmen" named respectively Henry Walker and Joseph mas day and yesterday the "Doctor" assessed the former \$15—the latter \$5. The V man paid, the other, being short of funds, is probably working out the amount.

OXPORD, CACHE Co,-Bro. A. P. Welchman, writing from Oxford, says: "The Ward meetings are well attended

and spirited; we have day, evening, and Sunday schools, also a lyceum, all well attended. The Oxford Co-operative Store is thriving. The brethren have unusual faith in a bountiful harvest next Summer, not with standing our crops have been smit-ten, year by year, ever since the location of the valley. In fine, the faithful are in-creasing in union and good works, and are sanguine that the cause they have espoused is bound to win.'

SMELTING ORES .- A correspondent residing in this city, named T. P. Thomas, says, on the above subject:

"Why not erect proper works in this city for smelting ores, instead of sending them to Swansea and elsewhere? I am able to prove that by the present system from fifteen to twenty per cent of the ore is lost, consequently those interested in this business should change their method of operation so as to save that which they now lose?" SNOW ON RAILBOAD. - The following came by the Western Union Line:

CORINER, 26.—There was a very heavy snow storm last night between Beyon and Cheyenne, and it still keeps up. About six inches of snow fell. No trains have six inches of snow fell. No trains have arrived at Laramie since Saturday. No. three of Saturday, reached Rawlins last high, but could go no further, snow drifting at a fearful rate and the railroad company says that it is almost impossible to keep the trains running. The road is blocked between Bitter Creek and Rawlings. A passenger train left Rawlings this morning, going West: it want as far as morning, going West; it went as far as Separation and could get no further. The Helena reports say that there was a very severe storm in Montana last Satur day, the thermometer 30 degrees below zero. The roads were impassable north of

IRON CITY .- By a letter to Major S. M. Blair, dated Iron City, Dec. 19 we learn that the iron business was proceeding briskly, and there was a great demand for Zion's Co-operative Rio Virgen Manufacturing briskly, and there was a great demand for castings. The day previous, a load of over 1900 ha was sent to the Bullion or Pioche mines. Another load was to be dispatched in about a week after. Experiments with the cupola had been satisfactory and everything was going on well.

AMERICAN FORK, Dec. 22, 1871. Dear Sir:-Just new we are having very wet time, something that makes a person stick to the house pretty persistently, as the best place of resort. Last night witnessed a slight fall of snow over all, which makes a very bad slush under foot to-day. A number of men with teams are now at work, hauling ore from the mines to the

smelter. Others are hauling the builtion from there to the mouth of the caffor, whence it is hauled to Bandy station. The saloon keeper at the mouth of the canon has been down with the smallpox about three weeks.

A man, very drunk, came down from the mines a few days ago, and made his way into the saloon, where he died that night. We had two new school houses put up last summer, Bro. William Jackson contractor.

NEWING MACHINE SALES FOR 1870. "The magnitude to which the manufacture of Sewing Machines has attained is shown by the "SWOLN" roturns (to which any one can have access) of the manufacturers for the year 1870 to the owner of the leading patents, on which they pay a royalty. According to these returns the number of machines sold by each manufacturer in 1870 is as follows: .127,833

American Builto those & Pressawing 11,873 Wilson 500

And several other compenies who sold allow Machines.

It will be seen by this table that the popularity of the Singer Machine for exceeds that of all others, their sale being one-half presser than even that of the famous "Wheeler & Wilson" machine. This is owing to the fact that the Singer Company have lately commenced making, besides their old and well-established manufacturing machine, what to known as their "New Family Machine," which is solding at the rate of nine to one better than their old style."
