CHANCES ON THE SHORT LINE.

On the Tooele Branch and at Brigham City Next Week.

W. D. CORNISH COMING HERE

He and Judge Kelly Returning From Los Angeles, After Which Mr. Hancroft Goes to Coast.

Vice President W. D. Cornish of the Oregon Short Line, and Judge Kelly, general counsel for the Union Pacific, will return from California and arrive here either tomorrow night or Wednesday. During the past few days they have been in Los Angeles with Vice Presidents J. Ross Clark and T. E. Gibbon of the San Pedro attending to matters connected with their meeting in Salt Lake.

Following the arrival of the Harriman officials here Vice President and General Manager W. H. Bancroft and General Superintendent E. E. Calvin of the Oregon Short Line will on Thursday leave for San Francisco, where they go for the purpose of consulting with the Southern Pacific operating department regarding the new time card and the operation of trains through to the

oast via Brigham City and Corinne, Mr. Calvin this morning stated that expected to have the trains running over the new route within when active work would pushed on tearing up the track of the Central Pacific between Ogden and Corinne and transporting the steel to the Lucin cut-off where it will be laid.

TRAINS RUNNING MONDAY.

Today week will also see another change in the operation of trains on the Short Line as far as the Tooele branch is concerned, when the narrow guage will be superceded by the stan-

menced grading and getting ready for the change on South Temple street. For the present there will be no change in ere the roadbed is in perfect order. Th trains also will continue to leave the old Garfield Beach depot for the pres-

By the standard guaging of the line the residents at Toole will be brought closer to Salt Lake by four miles, to say nothing of the running time, Under the change there is but little difference in the distance to Terminus, the n row guage being 37 miles against the 37.9 of the new line. The distance to Garfield will be 18.2 in place of 18 miles.

JAMES CAMPBELL DEAD. Pioneer Railroad Builder Passes

Away at the Cullen. The funeral services over the remains

of James Campbell, the pioneer rall-road builder, were held from Watson's undertaking parlors at 3 o'clock this afternoon, the interment being at Mt. Olivet cemetery.

James Campbell was essentially one

of the historic characters of the west and there are few railroad men in the untry who have not heard of the uthern Pacific veteran, and will sin Southern Pacific veteran, and will sincerely regret his sudden death which occurred yesterday at the Cullen hotel from the effects of an attack of pneumonia. The disease was contracted in Dry canyon, where Mr. Campbell was superintending the crection of a concentrating mill. The deceased was prominently identified with western railroad building. He came to America as a boy from his native place of Londonderry, Ireland, where he was born 70 years ago. As a young man he applied for a job on the Central Pacific which was then being built east to meet the Union Pacific coming west. Campbell soon demonstrated that he Campbell soon demonstrated that he had the right stuff in him and he was struction and almost the entire system vas subsequently built under his sup-

feat that made him famous was the laying of 10 miles of track in one day near Promontory at the time the two roads were racing to close in the gap in 1869. Both companies were pushing ahead so as to get as much of the government grant of land as possible. The grades of the two companies overlapped from Ogden to Wells, Nev., and it was agreed that both companies would lay steel until they met. The affair partook upon itself somethat of a sporting event and the way the rival gangs slammed the steel down was a marvel. On the last day Camp even and one-half miles put down by the Union Pacific. This feat was noised all over the railroad world and has become historical.

When the work was completed Mr.

Campbell was made division superintendent of the Salt Lake division of the road with headquarters at Ogden. He was universally liked and respected among the railroad hands. Henjoyed the personal friendship land Stanford, Croker, Collis P. Hunt-ingtor and other well known railroad men, while in his early railroading days as a railroad conductor in Illinois, he frequently met Abraham Lincoln, and it was his delight to tell stories rearding that eminent statesman. He retired from railroad work about 10 years ago when he turned his at tention to mining in the various camps

f Utah and Nevada. With the passing of James Campbel a sturdy old pioneer has gone to his last rest. He came west before the fron horse, and when the link was con-nected he and one clerk handled all the business from Ogden west. Today ed cannot keep up successfully at times with the rush of business.

WORK COMMENCES.

Phonix & Eastern Launches Out This Morning.

Phoenix, Ariz., Nov. 10.-A construcrived here this morning to begin track laying on the Phoenix & Eastern rail-road. The grade is now finished for several miles and the graders will be able to keep ahead of track gangs at least as far as Tempe.

Three steamers with steel rails are now on their way up from Cape Horn to Port Stilwell. The new road is to be 1,600 miles long from Kansas City to Port Stilwell. Over 500 miles of the line are already graded. It is proposed to run a steamship line to the Orient in connection with the rail-

All After Proxies.

Both the Gates and the Osgood factions are said to be soliciting proxies to be used at the meeting of the Colorado Fuel and Iron company next month. The Denver papers claim that word comes from a "very high author-ity that the final outcome of the fight will be that control will be taken over in the interest of certain railroads, in cluding Union Pacific, Southern Pacific Colorado Southern and Denver & Ric Grande. This would indicate that con-trol is to pass into the hands of Harriman, Gould and Hawley. The general supposition is that the Gould-Hawley-Harriman crowd will cast their votes with the Gates party.

HEYBURN IN THE RACE. Another Candidate for Senatorial Honors in Idaho.

The candidacy of W. B. Heyburn for the United States senate is announced by him in an interview printed in a recent issue of the Spokane Review The article referred to is as follows:

W. B. Heyburn of Wallace, Ida., for merly of Spokane, was in the city last night en route to Moscow, Ida. Since the legislature in Idaho is so strongly Republican Mr. Heyburn will be prominent figure in the senatorial fight which will occur in Boise upon the convening of the legislature. The Republican platform of Shoshone county in structed its delegates to vote and work for his interests. The representation of the county is one senator and four representatives, which is numerically largest of any county in the state The only other county to instruct its candidates was Ada. It instructed its four members for W. E. Borah of Boise All the other legislators are unpledged as far as is known,

Mr. Heyburn was seen last night and mestioned regarding the senatorial "I shall be a candidate for the office,' he said. "There is no factional fight in the party, although during the pas

Mr. Cleaveland openly declares that his rival. Newlands, bought votes and that this more than anything else resulted in his election as chief executive of the state. He says the victory must have cost Mr. Newlands \$250,000. As to his becoming a candidate for the United States senatorship two years hence Mr. Cleaveland says he is not a candi date, although if the Republicans are successful at that time and want to elect him, all well and good, he will have no particular objection.

GRANTSVILLE BURGLARY. Robinson's Store Entered and \$300 Worth of Goods Stolen.

The general merchandise store of W J. Robinson at Grantsville, Tocele county, was burglarized last night shortly after midnight, and about \$300 worth of clothing, shoes, hats and other gent's furnishings was stolen. Mr. Robinson, who is in the city today, stated that the burglars cut a hole through the front door large enough to enable one of them to put his hand through and remove the bar and turn the lock, which held the door. This is the third time the store has been bur-glarized since Mr. Robinson took charge, and the second time within the nast five weeks.

On the previous robbery about \$20 worth of goods was taken but it was of such a character that it could not be easily identified so the burglars were never apprehended. This time the burlars took between eight and twelve suits of clothes, besides hats, shoes and other merchandise, and it is believed that the officials will be able to catch the burglars. No attempt was made to rob the safe, which is always left unlocked by Mr. Robinson, so as to troyed. Mr. Robinson believes that the work was done by a local band of thieves who have been stealing promis cuously in that vicinity for some time The officers of that county are working on the case.

SUNDAY LIQUOR TRAFFIC. Dealers Will Show That They Are Not Responsible.

The Liquor Dealers' Protective association is going to take some action in the matter of the Sunday liquor traffic going on in this city, and show the people that saloonmen are not wholly responsible for the Sunday drunks, seen on the streets, but that a great many of those men get their liquor from drug stores. A prominent member of the association stated that they have \$160 worth of liquor purchased from drug stores within the past two weeks and that each bottle bears the label of the drug store from which it came. They have witnesses to testify as to the date of the purchase, and it is the intention of the association to lay the matter before the city attorney and at once commence the prosecution of some of the drug atore proprietors. This action, it is claimed, is taken in

self-defense, as the saloonmen have to pay a heavy license for the sale of liquors and by having to close on Sunday their business sustains a considerable loss and the drug stores reap the benefit by selling all kinds of liquor on the Sabbath without having to pay s liquor dealers' license. It is also claimed that beer is sold at some of many a boy gets his first taste of liquo in some of the fancy drinks that are sold at the soda fountains.

PROMOTOR THEODORE

STENGER INDICTED

Kansas City, Nov. 10.-Theodore Stenger, of this city, a well-known pro-motor, was today indicted by the grand jury on a charge of promoting a mining fraud. The case was worked up by a local postoffice inspector, who presented evidence to the jury tending to show that Stenger, who had advertised for sale shares in a copper mining company in Arizona, represented that the company owned four mines where-as, it is aliaged, it controlled but one. Stenger has lived in Kansas City for

the past 20 years. The indictment mentions three counts ach being a separate letter Stenger wrote to persons with whom he had dealings and who purchased stock. His company was called the Pittsburg Copper Mining and Reducing company, and was capitalized at a two and a haif million dollars. The prospectus of the company set out that it was engaged in mining operations in Yuma and Mohave countles, in Arizona, and that i owned the Green Signal, Wavesatak Argentine and Azur claims. The grand jury fround in its indictment that only the Green Signal claim was actually owned by the corporation. Stenger, the finding of the jury says, sold stock to persons and induced them to purchase stock and turn money over to him which the indictment alleges he converted to his own use. Two men, both of them school teach

ers, were directly responsible for Stenger's arrest. One of them is H. M. Richmond, a professor at the William Jewell college in Liberty, Mo. The other is R. N. Richmond, a brother, who lives in Adams, Massachusetts. These men are said to have invested \$200 in the company and to have remitted \$5,000 in payment for stock sold by them It is further charged that Stenger sent letters to the Richmonds in which he made this statement:

"We have started shipping copper and will soon be shipping oil," when he enew, says the indictment, that the property was not producing. Other etters giving glowing reports about the conditions in Arizona were written from time to time, All the letters on which the indictment is based were written during August of 1901. The mining properties

were specifically known as being in Box Canyon on Big William Fork river, Junction, Arizona. All this ground was carefully gone over two weeks ago by Postoffice Inspector McKee, who furnished practically all the evidence upon which the grand jury based its findings. Stenger was also interested in other companies, among them the Arizona Gold and Copper Refining company and the Missouri-Kansas and Texas Oi

company. He was acompanied in court today by his attorney. Efforts are be ing made to have him released on bond until the time of his trial. Stenger went to Denver from Kansas City in the early 90's. He was the Mining and Milling company and his connection with the latter company

Denver. Colo., Nov. 10.—County Clerk Julius Aichele has asked Judge Johnson to permit a jury to hear the charge of contempt entered against him in the election case filed last week by Chairman Lowry, of the Republican county committee. The demand is made in the answer filed by the defendant today and the court has set Friday morning as the time for the hearing. The clerk was cited for contempt because he disregarded a writ of injunction issued by Judge Johnson which forbade him to certify names on the registration lists which were declared

to be fictitious.

Clerk Aichele's answer covers three points. In the first he denies the jurisdiction of the court, stating that a writ of prohibition was pending in the supreme court bearing on this very matter.

Secondly, he denies that he had vio-lated any order of Judge Johnson, asserting that the certification of tration books to the election books had been completed before the service of the writ of injunction; that he had no means of knowing what names were fraudulent, if any, and that he was forced to assume the lists sent out contained the names of those entitled to

The third clause consists of a demand for a jury trial.
Atty. H. J. Hersey, who represents the Republicans, gave notice that he wished to contest that portion of the defendants answer which calls for a jury on the ground that the statute of 1901, providing for a jury trial in con-tempt cases is unconstitutional.

The petition alleges that the company is insolvent; that it owes debts amounting to over \$800,000, and that the property is not worth over \$400,000 and that if forced to a foreclosure sale would not bring 25 per cent of the amount of the indebtedness.

The plaintiff, McKibben, declares that

he owns \$330,000 stock in the company, that he is not allowed a voice in the management, and that a conspiracy exists between E. W. Snyder, of Leaveworth, and the eastern stock and bond hoiders to keep him and the other plaintiffs from having anything to do with the management. The will be passed on Saturday. The petition

Local real estate men believe more than ever that it is the New York Life that recently paid \$1,500 for an option on the old Continental corner: and one reason for believing this, is the fact that the title has been insured and this is something no ordinary purchaser does. It is just what would be expected of an insurance company making a big purchase. With the New York Life in possession of the corner, a fine large office building is promised. and it is noted that this company never invests largely in any place unless convinced that the locality is of genuine commercial promise.
